Literary and Media Criticism Jo Ann Cavallo, 2025-03-10 This volume applies libertarian philosophy and free market economic theory to both literature and media from early modern drama to novels to comic books, cinema, and television series. Several chapters contrast capitalism with statism, focusing on the market economy versus central planning, freedom versus government coercion. Not surprisingly, the economic theories of Adam Smith, Ludwig von Mises, and F. A. Hayek run through several essays. Contributors also engage with other theorists and writers as diverse as Thomas Hobbes, Charles Darwin, Thomas Huxley, Friedrich Nietzsche, Leo Strauss, and Judith Butler.

The Art of Investing in Film Maria Johnsen, 2023-04-26 In this book, I provided a comprehensive guide to film investment, including the history of film investment in Europe and North America, the structure of the film industry, current trends, and the art of investing in film. I covered the various types of investments, such as equity investments, debt investments, gap financing, and tax incentives, and explained the risks and rewards of film investing along with case studies. I have also discussed building a film investment portfolio, due diligence, working with producers, agents, managers, and talents, evaluating film projects, negotiating deals, legal considerations, distribution and marketing, and the international market. Additionally, I included case studies of successful and failed investments as well as real estate and crowdfunding options for film investment. Finally, I concluded with a discussion of the future of the film industry and the role of investors in shaping up the movie industry. I wrote this book out of my deep passion for the film industry and a desire to share my knowledge and experience as a film investor and filmmaker with aspiring investors in this field. My ultimate goal is to inspire and motivate readers to pursue their passion and make a positive impact in the film industry. In addition, I aim to challenge prevalent myths and misconceptions that surround film investment and encourage critical thinking among my audience and readers. I also wrote this book with investors, filmmakers, and academics in mind, as there is currently a lack of practical literature on film investment for higher education. The existing books on the market are outdated and do not provide relevant information for today's industry.
