response to significant Victorian era developments such as the European revolutions of 1848-49, the rise of British law enforcement agencies, the growth of Irish Fenian terrorism and the decline of the British Empire. The book also explores the roles that conspiratorial indeterminacy and irony play in shaping the Victorian conspiracy narrative tradition and examines how modern works by Proust, Kafka and Pynchon appropriate elements from Victorian conspiracy narratives. Finally, in using recent work on affect theory as well as studies of paranoia by Freud, Shapiro and Meissner, the book traces how Victorian works fashion the paranoid subject, a discursive process that ultimately leads to the emergence of the modern fictional conspiracy theorist. **Colorado School Journal**, 1905 **Index to Short Stories** Grace Emily Salisbury, Marie Everett Beckwith, 1907 **Notable American Women** Barbara Sicherman, Carol Hurd Green, 1980. Modeled on the Dictionary of American Biography, this set stands alone but is a good complement to that set which contained only 700 women of 15,000 entries. The preparation of the first set of Notable American Women was supported by Radcliffe College. It includes women from 1607 to those who died before the end of 1950; only 5 women included were born after 1900. Arranged throughout the volumes alphabetically, entries are from 400 to 7,000 words and have bibliographies. There is a good introductory essay and a classified list of entries in volume three. **Art Work** April F. Masten, 2014-10-31. I was in high spirits all through my unwise teens, considerably puffed up after my drawings began to sell with that pride of independence which was a new thing to daughters of that period. The Reminiscences of Mary Hallock Foote. Mary Hallock made what seems like an audacious move for a nineteenth-century young woman. She became an artist. She was not alone. Forced to become self-supporting by financial panics and civil war, thousands of young women moved to New York City between 1850 and 1880 to pursue careers as professional artists. Many of them trained with masters at the Cooper Union School of Design for Women where they were imbued with the Unity of Art ideal, an aesthetic ideology that made no distinction between fine and applied arts or male and female abilities. These women became painters, designers, illustrators, engravers, colorists, and art teachers. They were encouraged by some of the era's best-known figures among them Tribune editor Horace Greeley and mechanic philanthropist Peter Cooper who blamed the poverty and dependence of both women and workers on the separation of mental and manual labor in industrial society. The most acclaimed artists among them owed their success to New York's conspicuously egalitarian art institutions and the rise of the illustrated press. Yet within a generation their names, accomplishments, and the aesthetic ideal that guided them virtually disappeared from the history of American art. **Art Work: Women Artists and Democracy in Mid-Nineteenth Century New York** recaptures the unfamiliar cultural landscape in which spirited young women, daring social reformers, and radical artisans succeeded in reuniting art and industry. In this interdisciplinary study, April F. Masten situates the aspirations and experience of these forgotten women artists and the value of art work itself at the heart of the capitalist transformation of American society. *List of Books and Prices Issued by the Superintendent of Public Instruction in Accordance with the Provisions of the Law Regulating the Sale of School Textbooks in*
