Sculpture by Picasso Werner Spies, 1971      **Picasso** Anna Coliva, Diana Widmaier-Picasso, 2019-08-31 Picasso's contribution to the revitalization of modern sculpture cannot be underestimated His work of over fifty years is examined in seven essays and illustrated by more than 50 exhibited works First published to accompany an exhibition in Rome at Galleria Borghese that took place in early 2019 In 1917 Pablo Picasso traveled to Rome and Naples with Jean Cocteau and Igor Stravinskij During this trip for the first time he could admire directly Hellenistic and Roman sculpture that of the Renaissance and Baroque eras but also the Roman frescoes of Pompei The first exhibition dedicated to Picasso's sculpture to be held in Rome and its accompanying catalogue were conceived as a journey through the centuries that chronologically follows the interpretation of forms and different themes stories and myths bodies and figures objects and fragments in sculpture The exhibition of masterpieces of the great Spanish master is accompanied by previously unpublished images of his sculpture studios by Edward Quinn that narrate the context in which these works were born The catalogue includes essays that explore the visual and conceptual dialogue between the works of Picasso and works of the past illustrating and examining over fifty works some of which have never been exhibited before      **Picasso's Paintings, Watercolors, Drawings and Sculpture: 1949-1969** Pablo Picasso, Fernand Mourlot, 2009 A revised and expanded edition in 2 volumes of the work originally published in 1970 It illustrates and describes all the lithographs by Pablo Picasso with the information needed by collectors dealers and curators      **The Sculptures of Picasso** Pablo Picasso, 2005 This highly luxurious publication presents the sculptures of Picasso photographed by Brassa one of the most important photographers of the twentieth century An authentic text written for this work in 1948 by Daniel Henry Kahnweiler the former art dealer of Picasso is also included Brassa met Picasso in 1932 when he was commissioned to take a series of pictures of the artist's studio and of some plaster sculptures done at Boisgeloup for the review *Minotaure* Several years later he was again contacted to photograph Picasso's work for the first book published on the subject of the artist's sculptures Hence between 1932 and 1946 Brassa photographed all of Picasso's sculpted works This long term working relationship led to a fruitful exchange between the two artists on the respective nature of photography and sculpture which is reflected in this volume *The Sculptures of Picasso* is an atypical vision of lesser known works by Picasso Indeed the medium used to depict the sculptures is nearly as unsettling as the objects themselves and the confusion is emphasized by the contrast between flatness and fullness An art dealer Daniel Henry Kahnweiler became a good friend of Picasso's in 1907 when he first visited the artist's studio Picasso actually painted a now famous portrait of Kahnweiler in 1910 70 illustrations      **Picasso's Concrete Sculptures** Sally H.
