Timmons, 2021-04-15 The New Art Museum Library addresses the issues facing today's art museum libraries through a series of scholarly essays written by top librarians in the field In 2007 the publication *Art Museum Libraries and Librarianship* edited by Joan Benedetti was the first to solely focus on the field of art museum librarianship In the decade since then many changes have occurred in the field both technological and ideological prompting the need for a follow up publication In addition to representing current thinking and practice this new publication also addresses the need to clearly articulate and define the art museum library's value within its institution It documents the broad changes in the environment that art museum libraries now function within

and to celebrate the many innovative initiatives that are flourishing in this new landscape Librarians working in art museum face unique challenges as museums redefine what object based visitor centric learning looks like in the 21st century These unique challenges mean that art museum libraries are developing new strategies and initiatives so that they can continue to thrive in this environment The unique nature of these initiatives mean that they will be useful to librarians working in a wide range of special libraries as well as more broadly in academic and public libraries The New Art Museum Library is uniquely positioned to present new strategies and initiatives including digital art history initiatives the new norms in art museum library staffing and the public programing priorities that are core to many art museum libraries today This book is an endorsed project of ARLIS NA   **Report of Pratt Institute Free Library and School of Library Science** Pratt Institute.
