Sculptures Afrique Asie Océanie Et Amériques:

Sculptures Musée du Louvre, Marine Degli, 2000 Géographie ... Europe - Asie - Océanie - Afrique - Amérique, France et ses colonies Reclus, 1873 *Around and about Marius Barbeau* Gordon E Smith, Lynda Jessup, Andrew Nurse, 2007-01-01
Marius Barbeau 1883-1969 played a vital role in shaping Canadian culture in the twentieth century. Rooted in the premise that his cultural work in anthropology, fine arts, music, film, folklore studies, fiction, historiography, cannot be read unidimensionally, the sixteen articles that comprise this book demonstrate that by merging disciplinary perspectives about Barbeau, evaluations and understandings of the situation around Barbeau can be deepened. Published in English.

Metropolitan Fetish John Warne Monroe, 2019-09-15. From the 1880s to 1940, French colonial officials, businessmen, and soldiers returning from overseas postings brought home wooden masks and figures from Africa. This imperial and cultural power play is the jumping off point for a story that travels from sub-Saharan Africa to Parisian art galleries, from the pages of fashion magazines through the doors of the Louvre to world fairs and international auction rooms into the apartments of avant-garde critics and poets to the streets of Harlem and then full circle back to colonial museums and schools in Dakar, Bamako, and Abidjan. John Warne Monroe guides us on this journey, one that goes far beyond the world of Picasso, Matisse, and Braque to show how the Modernist avant-garde and the European colonial project influenced each other in profound and unexpected ways. *Metropolitan Fetish* reveals the complex trajectory of African material culture in the West and provides a map of that passage, tracing the interaction of cultural and imperial power. A broad and far-reaching history of the French reception of African art, it brings to life an era in which the aesthetic category of primitive art was invented. **In the Museum of Man** Alice L. Conklin, 2013-10-15. *In the Museum of Man* offers new insight into the thorny relationship between science, society, and empire at the high water mark of French imperialism and European racism. Alice L. Conklin takes us into the formative years of French anthropology and social theory between 1850 and 1900, then deep into the practice of anthropology under the name of ethnology, both in Paris and in the empire, before and especially after World War I, and finally into the fate of the discipline and its practitioners under the German Occupation and its immediate aftermath. Conklin addresses the influence exerted by academic networks, museum collections, and imperial connections in defining human diversity socioculturally rather than biologically, especially in the wake of resurgent anti-Semitism at the time of the Dreyfus Affair and in the 1930s and 1940s. Students of the progressive social scientist Marcel Mauss were exposed to the ravages of imperialism in the French colonies where they did fieldwork; as a result, they began to challenge both colonialism and the scientific racism that provided its intellectual justification. Indeed, a number of them were killed in the Resistance, fighting for the humanist values they had learned from their teachers and in the field. A riveting story of a close-knit community of scholars who came to see all societies as equally complex, *In the Museum of Man* serves as a reminder that if scientific expertise once authorized racism, anthropologists also learned to rethink their paradigms and mobilize against racial

prejudice a lesson well worth remembering today **Sculptures** , African Art and Artefacts in European Collections

ont-ils un genre ? Elisabeth Anstett,Marie-Luce Gélard,2012-04-04 Les recherches menées sur la culture matérielle ont
 depuis une vingtaine d'années largement interrogé les usages sociaux des objets en étudiant leur dimension économique
 religieuse politique ou symbolique Pourtant et de façon assez paradoxale si l'on songe la façon dont s'est développé le champ des
 Gender Studies depuis les années 1970 la question de savoir si les objets ont un genre n'a jamais été posée en tant que telle pas
 plus que celle de savoir ce que le genre faisait aux objets C'est précisément sur ces questions que se sont penchés les auteurs
 de cet ouvrage qui ont souhaité interroger la production sociale des identités sexuelles en partant de la culture matérielle
 Ouvrage interdisciplinaire Les objets ont-ils un genre rassemble ainsi les contributions d'anthropologues d'ethnologues de
 sociologues et de conservateurs de musées qui se sont appuyés sur l'étude d'un ou d'une série d'objets outils vêtements bijoux
