Vanished Islands and Hidden Continents of the Pacific Patrick D. Nunn, 2008-10-31 Islands as well as entire continents are reputed to have disappeared in many parts of the world Yet there is little information on this subject concerning its largest ocean the Pacific Over the years geologists have amassed data that point to the undeniable fact of islands having disappeared in the Pacific a phenomenon that the oral traditions of many groups of Pacific Islanders also highlight There are even a few instances where fragments of Pacific continents have disappeared becoming hidden from view rather than being submerged In this scientifically rigorous yet readily comprehensible account of the fascinating subject of vanished islands and hidden continents in the Pacific the author ranges far and wide from explanations of the region's ancient history to the meanings of island myths Using both original and up to date information he shows that there is real value in bringing together myths and the geological understanding of land movements A description of the Pacific Basin and the ups and downs of the land within its vast ocean is followed by chapters explaining how long before humans arrived in this part of the world islands and continents that no longer exist were once present A succinct account is given of human settlement of the region and the establishment of cultural contexts for the observation of occasional catastrophic earth surface changes and their encryption in folklore The author also addresses the persistent myths of a sunken continent in the Pacific which became widespread after European arrival and were subsequently incorporated into new age and pseudoscience explanations of our planet and its inhabitants Finally he presents original data and research on island disappearances witnessed by humans recorded in oral and written traditions and judged by geoscience to be authentic Examples are drawn from throughout the Pacific showing that not only have islands collapsed and even vanished within the past few hundred years but that they are also liable to do so in the future

Ancient Ocean Crossings Stephen C. Jett, 2017-06-06

Paints a compelling picture of impressive pre Columbian cultures and Old World civilizations that contrary to many prevailing notions were not isolated from one another In Ancient Ocean Crossings Reconsidering the Case for Contacts with the Pre Columbian Americas Stephen Jett encourages readers to reevaluate the common belief that there was no significant interchange between the chiefdoms and civilizations of Eurasia and Africa and peoples who occupied the alleged terra incognita beyond the great oceans More than a hundred centuries separate the time that Ice Age hunters are conventionally thought to have crossed a land bridge from Asia into North America and the arrival of Columbus in the Bahamas in 1492 Traditional belief has long held that earth s two hemispheres were essentially cut off from one another as a result of the post Pleistocene meltwater fed rising oceans that covered that bridge The oceans along with arctic climates and daunting terrestrial distances formed impermeable barriers to interhemispheric communication This viewpoint implies that the cultures of the Old World and those of the Americas developed independently Drawing on abundant and concrete evidence to support his theory for significant pre Columbian contacts Jett suggests that many ancient peoples had both the seafaring capabilities and the motives to cross the oceans and in fact did so repeatedly and with great impact His deep and broad work synthesizes information and ideas from archaeology geography linguistics climatology oceanography ethnobotany genetics medicine and the history of navigation and seafaring making an innovative and persuasive multidisciplinary case for a new understanding of human societies and their diffuse but interconnected development Kon-Tiki Thor Heyerdahl,2013-05-07 Now a major motion picture Kon Tiki is the record of Thor Heyerdahl s astonishing three month voyage across the Pacific Kon Tiki is the record of an astonishing adventure a journey of 4 300 nautical miles across the Pacific Ocean by raft Intrigued by Polynesian folklore biologist Thor Heyerdahl suspected that the South Sea Islands had been settled by an ancient race from thousands of miles to the east led by a mythical hero Kon Tiki He decided to prove his theory by duplicating the legendary voyage On April 28 1947 Heyerdahl and five other adventurers sailed from Peru on a balsa log raft After three months on the open sea encountering raging storms whales and sharks they sighted land the Polynesian island of Puka Puka Translated into sixty five languages Kon Tiki is a classic inspiring tale of daring and courage a magnificent saga of men against the sea Washington Square Press Enriched Classics present the great works of world literature enhanced for the contemporary reader This edition of Kon Tiki has been prepared by an editorial committee headed by Harry Shefter professor of English at New York University It includes a foreword by the author a selection of critical excerpts notes an index and a unique visual essay of the voyage **Polynesians in America** Terry L. Jones,Alice A. Storey,Elizabeth A. Matisoo-Smith,José Miguel Ramírez-Aliaga,2011-01-16 The possibility that Polynesian seafarers made landfall and interacted with the native people of the New World before Columbus has been the topic of academic discussion for well over a century although American archaeologists have considered the idea verboten since the 1970s Fresh discoveries made with the aid of new technologies along with re evaluation of longstanding but often ignored evidence provide a stronger case than ever

before for multiple prehistoric Polynesian landfalls This book reviews the debate evaluates theoretical trends that have discouraged consideration of trans oceanic contacts summarizes the historic evidence and supplements it with recent archaeological linguistic botanical and physical anthropological findings Written by leading experts in their fields this is a must have volume for archaeologists historians anthropologists and anyone else interested in the remarkable long distance voyages made by Polynesians The combined evidence is used to argue that that Polynesians almost certainly made landfall in southern South America on the coast of Chile in northern South America in the vicinity of the Gulf of Guayaquil and on the coast of southern California in North America **International Conference on Ocean Pollution** United States. Congress. Senate. Committee on Commerce. Subcommittee on Oceans and Atmosphere,1972 Biographical Dictionary of Explorers Alan Wexler,Jon Cunningham,2019-06-01 An informative fascinating resource suitable for students researchers and general readers this biographical dictionary is a who was who of world and space explorers giving readers a sense of the human drama the achievements and the challenges that those who go where few or none have gone before must face The explorers covered include Jacques Cousteau Sir Vivian Fuchs John Glenn Jr Aleksei Leonov Annie Peck Valentina Tereshkova and many more *The Survival of Easter Island* Jan J. Boersema,2015-04-13 In this book Jan J Boersema reconstructs the ecological and cultural history of Easter Island and critiques the hitherto accepted theory of the collapse of its civilization The collapse theory advanced most recently by Jared Diamond and Clive Ponting is based on the documented overexploitation of natural resources particularly woodlands on which Easter Island culture depended Deforestation is said to have led to erosion followed by hunger conflict and economic and cultural collapse Drawing on scientific data and historical sources including the shipping journals of the Dutch merchant who was the first European to visit the island in 1722 Boersema shows that deforestation did not in fact jeopardize food production and lead to starvation and violence On the basis of historical and scientific evidence Boersema demonstrates how Easter Island society responded to cultural and environmental change as it evolved and managed to survive
