Training a Search and Rescue Dog Christy Judah, 2014-10-09. *Training a Search and Rescue Dog for Wilderness Air Scent Detection*. Training a Search and Rescue Dog is a simple, easy-to-understand, step-by-step instructional manual to teach dogs to find live people. It provides a planned curriculum to incorporate a re-find in a wilderness air scent training program first and then goes on to allow the handler to add a human remains detection component should they desire to cross-train their dog. The program allows for individual differences in dog training methods and reward systems, allowing the handler and trainer to custom-design the program which best suits their breed, environment, and needs. Also included are related forms such as search training logs, search reports, donation forms, and how to collect an uncontaminated scent article. These lessons are designed for the dog that has already had some general training in basic obedience, agility, and socialization. For dogs without these basic skills, the author has written a book titled *Building a Basic Foundation for Search and Rescue Dog Training*. *Training a Search and Rescue Dog* is an excellent follow-up and training regime following the Basics book, which lays the appropriate groundwork in order to train a fully functional, certified, and able working dog.
