## **Search For Transcendence:**

The Search for Transcendence William Alexander Johnson,1974 The search for transcendence is an absorbing and ongoing enterprise Transcendence is the most discussed the most compelling and the most engaging of the subjects with which contemporary theologians deal The impulse to move from the ordinary dimensions of life to the extraordinary is not invented by the theologians but is one which appears to spring up from the deepest levels of consciousness itself Introduction

**In Search of Transcendence** Jerry H. Gill,2017-07-31 This book explores the philosophical religious thought of Soren Kierkegaard Ludwig Wittgenstein and Nikos Kazantzakis in relation to the concept of transcendence Each of these thinkers has made a strong impact on Western religious and philosophical thought but each from a nearly completely different angle as well as from a different national background This comparative study therefore crosses both national and perspectival boundaries Each of the three thinkers struggled with the notion of transcendence but in uniquely distinct fashion The conclusion offers yet a third model the author s for understanding transcendence focusing on the concept of mediation

*Divine Imperfection* L. Appel Jr., 2022-02-25 The root of human dilemmas although they always present themselves in multiple hues invariably plunges into the question of human dualism consciousness and matter There's a subtle cosmic Darwinism going on that we haven't paid attention to yet A real universal filter is at work silently decimating intelligent biological species across the Universe From our animal matrix either this subtle something that we decide to identify as consciousness will emerge or our bodily instincts will inevitably lead us to nuclear suicide The Fermi paradox suggests this possibility explicitly The human mind this highly efficient and complex biological software emerged from this same Darwinian process of violent and brutal struggle for survival So the mind also naturally tends to aggression and violence when dissociated from consciousness that energy that many decided to call pejoratively as the ghost in the machine The human world in general expresses precisely such reality created by the mind when dissociated from consciousness Hence our inclination towards indifference and aggression Our animal instincts are still highly active determining our every move So the nuclear age effectively corresponds to the turning point of intelligent species Every day we seem to take a step forward towards defcon 1 the threat of imminent nuclear destruction The existence of the doomsday clock is known only to a few Atomic weapons are not peace insurers by the certainty of mutual assured destruction M A D This is a truly insane perspective that exposes us in our ravings making it more than clear that we have deviated from our natural evolutionary course However if we implode ourselves it will only show that we never had what it takes to persevere as a conscious biological species The Universe however will lose nothing It is its simple and natural way of functioning The Parable of the Sower reminds us of this reality

**Strindberg and the Quest for Sacred Theatre** Theo Malekin, 2010-01-01 Strindberg and the Quest for Sacred Theatre brings a fresh perspective to the study of Sweden's great playwright August Strindberg 1849-1912 anticipated most of the major developments in European theatre over the last century As such he is well placed to provide perspectives on the current burgeoning interest in sacred theatre The religious crises of the 19th Century provoked in Strindberg both sharp scepticism about claims to religious authority and a visionary search for truth Against the backdrop of a major change in European culture this book traces the emergence in some of Strindberg's late plays of a proto sacred theatre It argues that Strindberg faced the alternatives of a contentless transcendent abyss threatening the extinction of his ego or a retreat into conservative theism reducing him to slavish submission to the commandments and rule of an external father God Weaving together theatrical aesthetic and theological voices this book investigates the relationship of the sacred to subjectivity and its implications for Strindberg's dramaturgy In doing so it always keeps in view the sense both of loss and opportunity engendered by a turning point in the western experience of the sacred The Face of God : The Quest for Spirituality and Transcendence KIKI EN CHRIST, In this modern world where materialism reigns supreme the quest for spirituality and transcendence is more vital than ever for humanity In his book The Face of God the author offers us a deep exploration of this universal quest Through a rigorous analysis of the spiritual tradition and its various manifestations the author shows us how spirituality can be a source of wisdom healing and personal transformation It invites us to become aware of the importance of cultivating our relationship with the divine But the author is not content to offer us a simple intellectual analysis of spirituality Rather it invites us to a deep and personal experience of transcendence through meditation prayer and contemplation of nature The Face of God is a book that touches the heart and mind If you're looking to broaden your spiritual horizon this is the book for you
