China's control over critical minerals for lithium battery production, impacts the EV industry. To avoid reliance on the scarce and challenging-to-extract minerals of nickel and copper, automakers are turning to LFP batteries, made with **lithium**, **iron**, and **phosphate** (LiFePo₄). However, China also holds control over the importation of the critical minerals necessary for LFP batteries.

China heavily relies on imports for its mineral needs, including 71% of the world's **iron**, primarily sourced from Australia and Brazil. It also imports 69% of the world's **lithium**, with major suppliers being Australia and Chile. However, in contrast, China possesses abundant **phosphate** resources and actually exports 28% of the global phosphate share.^{[1][2][3][4]}

China's control over the EV battery industry, including LFP batteries, is set to continue. Lithium, the scarcest of the three LiFePo₄ minerals, is the key for catching up to China. Australia, accounting for 47% of the world's lithium production exports the majority of it to China due to the presence of numerous lithium refining plants. Recently, Australia has invested in domestic lithium refining, opening the doors to free trade agreements with the U.S.^[5]

China's Search for Security Andrew J. Nathan, Andrew Scobell, 2012-11-06 Despite its impressive size and population economic vitality and drive to upgrade its military China remains a vulnerable nation surrounded by powerful rivals and potential foes Understanding China's foreign policy means fully appreciating these geostrategic challenges which persist even as the country gains increasing influence over its neighbors Andrew J Nathan and Andrew Scobell analyze China's security concerns on four fronts at home with its immediate neighbors in surrounding regional systems and in the world beyond Asia By illuminating the issues driving Chinese policy they offer a new perspective on the country's rise and a strategy for balancing Chinese and American interests in Asia Though rooted in the present Nathan and Scobell's study makes ample use of the past reaching back into history to illuminate the people and institutions shaping Chinese strategy today They also examine Chinese views of the United States explain why China is so concerned

about Japan and uncover China's interests in such problematic countries as North Korea, Iran, and the Sudan. The authors probe recent troubles in Tibet and Xinjiang and explore their links to forces beyond China's borders. They consider the tactics deployed by mainland China and Taiwan as Taiwan seeks to maintain autonomy in the face of Chinese advances toward unification. They evaluate the strengths and weaknesses of China's three main power resources: economic power, military power, and soft power. The authors conclude with recommendations for the United States as it seeks to manage China's rise. Chinese policymakers understand that their nation's prosperity, stability, and security depend on cooperation with the United States. If handled wisely, the authors believe, relations between the two countries can produce mutually beneficial outcomes for both Asia and the world.

In Search of China's Development Model S. Philip Hsu, Yu-Shan Wu, Suisheng Zhao, 2012-05-23 This book examines the development model that has driven China's economic success and looks at how it differs from the Washington Consensus. China's Development Model (CDM) is examined with a view to answering a central question: given China's peculiar matrix of a socialist party state juxtaposed with economic internationalization and marketization, what are the underlying dynamics and the distinctive features of the economic and political/legal/social dimensions of the CDM, and how do we properly characterize their interrelations? The chapters further analyze to what extent and under what circumstances is China's development model sustainable, and to what degree is it readily applicable to other developing countries. Based on their findings in this volume, the authors conclude that the defining feature of the CDM's economic dimension is Janus-faced state-led growth, and the political/legal/social dimension of the CDM is best characterized as adaptive post-totalitarianism. The contributors illustrate that the CDM's parameters are shown to be much less sustainable than the CDM's outcome in developmental performance, and the extent to which the CDM can be applied to other late developers is subject to more qualifications than its sustainability.

Tiananmen Moon Philip J Cunningham, 2014-05-05 This compelling book provides a vivid firsthand account of the student demonstrations and massacre in Tiananmen Square in 1989. Uniquely placed as a Western observer drawn into active participation through Chinese friends in the uprising, Philip J. Cunningham offers a remarkable day-by-day account of Beijing students desperately trying to secure the most coveted political real estate in China in the face of ever more daunting government countermoves. *Tiananmen Moon* takes the reader into the thick of the 1989 protests while also following the parallel response of an unprepared but resourceful Western media. In this revised and expanded edition, Cunningham recounts rare vignettes about life in Tiananmen Square under student leadership, including previously unpublished material. There is an account of the

Goddess of Democracy being unveiled a whimsical trip to the countryside that ends up on a collision course with PLA troops readying for attack the tale of a near riot when a reporter is mistaken for Gorbachev the saga of a tearful leader who quits and dictates her last will and testament to the author and a dramatic account of futile resistance in the face of an unforgiving crackdown The book chronicles the opportunistic and awkward tango between naive student activists and jaded foreign journalists in which after a month of mutual courting the tables turn and the now savvy students watch the journalists seduced and confused run circles just trying to keep up During the hunger strike under the light of a full moon China bares its conflicted soul to the world the mournful cry for reform amplified by the footsteps of a million peaceful marchers This remarkable testament to a searing month that changed China forever serves as a witness to the rise and fall of an uprising capturing the plaintive and lyrical beauty of a dream that endures and continues to haunt the country today *Finding-list of Books and Pamphlets Relating to Georgia and Georgians*, 1928 **China Collecting in America** Alice Morse Earle, 1892

Finding a Path for China's Rise Philippe Lionnet, 2023-01-02 The rise of China is ever present in debates on globalisation and ongoing power shifts In a time of rising international tensions understanding the interdependencies between China's course and the world economy is ever more important Often the economic reforms under Deng Xiaoping after 1978 are emphasised They initiated dramatic changes in China's economy and contributed to its ascent as a world power In contrast less attention has been given to the context in which these reforms were implemented Philippe Lionnet analyses important adjustments in China's agricultural industrial and foreign trade policies in the course of the 1970s as well as their origins He shows how policy experiments and their limits shaped the path of the socialist state **Chinese Recorder and Missionary**

Journal, 1923 *Chinese Affairs ...*, 1923 **Among the Braves** Shibani Mahtani, Timothy McLaughlin, 2023-11-07 Through the eyes of two frontline journalists comes a gripping narrative history of the Hong Kong pro democracy movement centered around a cast of four core activists culminating in the 2019 mass protests and Beijing's brutal crackdown Hong Kong was an experiment in governance Handed back to China in 1997 after 156 years of British rule it was meant to be a carve out between hostile systems a bridge between communism and capitalism authoritarianism and liberal democracy One country two systems kept its media free its courts independent and its protests boisterous designed also to convince Taiwan of a peaceful solution to Beijing's desire for reunification Yet this formulation excluded Hong Kong's own people their future negotiated by political titans in faraway capitals In 2019 an ill conceived law spear headed by a sycophantic leader pushed millions to take to the streets in one of the most enduring protest movements the world has ever seen Xi Jinping responded with a draconian national security law that sought not only to end the demonstrations but quash the problem of Hong Kongers identity and desire for freedom Reverend Chu who believed Hong Kong had to carry the spirit of students at Tiananmen Square saw his silver haired comrades who birthed the city's modern pro democracy movement handcuffed and taken from their homes Tommy an art student radicalized into throwing Molotov cocktails watched braves like him brutalized by police before his own arrest prompted him to flee Finn epitomized the decentralized nature of the movement and its internet fueled victories but online anonymity couldn't stop his life from unravelling Gwyneth could predict her eventual fate when she chose to give up her career as a journalist to stand for election as an opposition candidate and did it anyway In *Among the Braves* Shibani Mahtani and Timothy McLaughlin tell the story of Hong Kong's past and what the sacrifices of its people mean for global democracy's shaky foundation **China's Search for Energy Security** Suisheng Zhao, 2014-06-11 China's rapid economic growth in the recent decades has produced an unprecedented energy vulnerability that could threaten the sustainability of its economic development a linchpin to social stability and ultimately the regime legitimacy of

China Off Center Susan D. Blum, Lionel M. Jensen, 2002-09-30 China Off Center takes as its fundamental assumption that contemporary China can only be understood as a complex decentralized place where the view from above Beijing and from tourist buses is a skewed one Instead of generalizing about China it demonstrates that this diverse national terrain is better conceived as it is experienced by Chinese as a set of many Chinas To that end this anthology of interpretive essays and ethnographic reports focuses on the everyday the particular the local and the puzzling Together with contextualizing introductions the readings provide students with a compelling look at some little known but significant aspects of China from the past decade for those already familiar with China they furnish an assortment of uncommon viewpoints in a single convenient volume Foreword by Prasenjit Duara Contributors A Doak Barnett Susan D Blum Diane Dorfman Mary S Erbaugh Edward Friedman Vincent E Gil Dru Gladney Erwin J Haeberle Lionel M Jensen Andrew F Jones Eric Ivan Karchmer Liu Binyan Dalin Liu Man Lun Ng S Robert Ramsey Dorothy J Solinger Ann Tyson James Tyson Sydney White David Yen ho Wu Li Ping Zhou
