The role that they have taken on entails the preparation of students within a professional school. Some of them have very limited professional experience while others bring multiple years of experience with them in their transition to a faculty of education. The contributors speak to the three key components of their faculty role: teaching, service, and research. Addressing organizational structures and differences relative to prior roles, they examine how these changes have assisted, confused, or altered the way they conduct their day-to-day work. They speak about relevant prior experiences, the preparation they received through graduate school, and the details of the learning curve as they entered into their tenure track role. Have they been successful? The reader will experience the same uncertainty and anticipation every professor goes through during their journey to tenure. This approach amplifies the realism of not knowing whether issues that are spoken about will ultimately be overcome and enhances the validity of their experiences by not biasing the contributions towards those who expect success. *Higher Thoughts* Wesley Scott, 2012-08 *Higher Thoughts* is a collection of poems mostly with a Christian-based theme intended to lift and encourage you and bring a smile to your face. Included are poems for special occasions such as Christmas, Easter, Valentine's Day, Mother's Day, and birthdays. The collection also includes some love poems. Picture in your mind a beautiful sunset, an approaching desert storm, an eagle soaring across the sky, and a magical world of make-believe, and you will find the words in this book that make these images come alive. **The Seasons of My Life** Raleigh R.
