and Power in the Reign of Süleyman Kaya Şahin, 2013-03-29 Kaya Şahin's book offers a revisionist reading of Ottoman history during the reign of Süleyman the Magnificent 1520-66 By examining the life and works of a bureaucrat Celalzade Mustafa Şahin argues that the empire was built as part of the Eurasian momentum of empire building and demonstrates the imperial vision of sixteenth century Ottomans This unique study shows that in contrast with many Eurocentric views the Ottomans were active players in European politics with an imperial culture in direct competition with that of the Habsburgs and the Safavids Indeed this book explains Ottoman empire building with reference to the larger Eurasian context from Tudor England to Mughal India contextualizing such issues as state formation imperial policy and empire building in the period more generally Şahin's work also devotes significant attention to the often ignored religious dimension of the Ottoman-Safavid struggle showing how the rivalry redefined Sunni and Shiite Islam laying the foundations for today's religious tensions Ethics in Marketing Patrick E.
