The Bathroom Chronicles Friederike Schilbach,2018-10-16 One hundred creative intelligent and interesting women some well known some not reveal their inner selves through candid tender and often humorous snapshots both visual and textual of a single object or corner of their bathroom For many women the bathroom is the most intimate of spaces It is the place where we encounter ourselves in the mirror each morning and every night brushing our teeth applying make up fixing our hair getting ready to face the day or recede from it The Bathroom Chronicles is a beautiful chic touching and deeply feminine

collection of photos and accompanying short stories sometimes no more than a sentence or two by women about their private spaces and most cherished possessions Lena Dunham reveals the corner by the sink where she keeps her favorite pieces of jewelry as well as her birth control Erica Jong snaps her poodles and insists that they love her powder room and to fluff up their hair in front of the mirrors Roz Chast reflects on a shelf in the corner that she purchased from a second hand store It s decorated with birds because she loves birds and a tiny emu that was given to her by a friend when she was in Australia Like the bathrooms themselves each of these stories and images is unique open private minimalistic messy and beautiful **Mr. Collier's Letter Racks** Dror Wahrman,2012-08-29 Three hundred years ago an unprecedented explosion in inexpensive disposable print newspapers pamphlets informational publications artistic prints ushered in a media revolution that forever changed our relationship to information One unusually perceptive man an obscure Dutch British still life painter named Edward Collier understood the full significance of these momentous changes and embedded in his work secret warnings about the inescapable slippages between author and print meaning and text viewer and canvas perception and reality Working around 1700 Collier has been neglected even forgotten precisely because his secret messages have never been noticed let alone understood Until now In Mr Collier s Letter Racks Dror Wahrman recovers the tale of an extraordinary illusionist artist who engaged in a wholly original way with a major transformation of his generation Wahrman shows how Collier developed a hidden language within his illusionist paintings replete with minutely coded messages witty games intricate allusions and private jokes to draw attention to the potential and the pitfalls of this new information age A remarkably shrewd and prescient commentator on the changes unfolding around him not least the advent of a new kind of politics following the Glorious Revolution Collier performed a post modernist critique of modernity long before the modern age His trompe l oeil paintings are filled with seemingly disconnected enigmatic objects letters seals texts of speeches magnifying glasses title pages and with teasingly significant details that require the viewer to lean in and peer closely Wahrman does just that taking on the role of detective cultural historian to unravel the layers of deceptions contained within Collier s extraordinary paintings Written with passionate enthusiasm and including more than 70 color illustrations Mr Collier s Letter Racks is a spell binding feat of cultural history illuminating not only the work of an eccentric genius but the media revolution of his period the birth of modern politics and the nature of art itself *German Paintings in the Metropolitan Museum of Art, 1350-1600* Maryan W. The Contingent Object of Contemporary Art Martha Buskirk, 2005-02-18 An exploration of transformations in the nature of the art object and artistic authorship in the last four decades In this book Martha Buskirk addresses the interesting fact that since the early 1960s almost anything can and has been called art Among other practices contemporary artists have employed mass produced elements impermanent materials and appropriated imagery have incorporated performance and video and have created works through instructions carried out by others Furthermore works of art that lack traditional signs of authenticity or permanence have been embraced by institutions long devoted to the original and the permanent Buskirk begins with questions of authorship raised by minimalists use of industrial materials and methods including competing claims of ownership and artistic authorship evident in conflicts over the right to fabricate artists works Examining recent examples of appropriation she finds precedents in pop art and the early twentieth century readymade and explores the intersection of contemporary artistic copying and the system of copyrights trademarks and brand names characteristic of other forms of commodity production She also investigates the ways that connections between work and context have transformed art and institutional conventions the impact of new materials on definitions of medium the role of the document as both primary and secondary object and the significance of conceptually oriented performance work for the intersection of photography and the human body in contemporary art Buskirk explores how artists active in the 1980s and 1990s have recombined strategies of the art of the 1960s and 1970s She also shows how the mechanisms through which art is presented shape not only readings of the work but the work itself She uses her discussion of the readymade and conceptual art to explore broader issues of authorship reproduction context and temporality
