Sebastiani Castellionis Dialogi Iv De:

Sebastian Castello, 1515-1563 Hans R. Guggisberg, Bruce Gordon, 2017-07-05 Sebastian Castello linguist humanist and religious reformer is one of the most remarkable figures of the Reformation Attracted by Calvin s reforms Castellio moved to Geneva in the 1540s where he wrote his influential work on educational reform Ironically it was Castellio s work as a scholar in Geneva which was to lead to his falling out with Calvin and ultimately his forced departure from Geneva and his resettlement in Basle Exiled from Geneva Castellio soon attracted a circle of like minded reformers who opposed the intolerant attitude of Calvin exemplified by the execution of the heretical Michael Servetus It is Castellio s residence in Basle where he developed his liberal humanist approach to religious toleration in opposition to Calvin s dogmatic othodoxy which forms the core of this study It explores what toleration meant and how both sides argued their case Much attention is paid to Castellio s most important work On Heretics in which he argues against the execution of those who err in the faith By telling the fascinating tale of Castellio s life this work illuminates the furious debate which he unleashed and how it marked a crucial stage in the development of Protestant thought

Taplin,2017-05-15 Recently scholars have become increasingly aware of Zurich s role as an intellectual and cultural centre of the European Reformation This study focuses on a little known aspect of the Zurich church s international activity its relationship with Italian speaking evangelicals during the period 1540 1620 The work assesses the importance of Zwinglian influences within the early Italian evangelical movement and Zurich s contribution to the spread of the Reformation in Italian speaking territories such as Locarno and southern Graub nden It shows how following the establishment of the Roman Inquisition in July 1542 senior Zurich churchmen emerged as important points of contact for Italian reformers in exile A central concern of the study is the threat to the integrity of the Zwinglian settlement posed by religious radicals within the Italian exile community Although the radicals were relatively few in number their activities had a profound influence on the way in which the community as a whole came to be perceived by the Swiss and other Reformed churches In Zurich the turning point was a series of doctrinal disputes during the mid sixteenth century which culminated in the dissolution of the city s Italian church in November 1563 The alliance forged in the course of those disputes between the leadership of the

Zurich church and theologically conservative Italian exiles became the basis for close co operation in subsequent decades Drawing heavily on unpublished sources from Swiss archives the volume sheds light on the processes by which the boundaries of Reformed orthodoxy came to be defined In particular it demonstrates the importance of theological controversy and polemic as catalysts for the systematisation of doctrine during this period *Refusing to Kiss the Slipper* Michael W. Bruening, 2021-03-19 History has long viewed French Protestants as Calvinists *Refusing to Kiss the Slipper* re examines the Reformation in francophone Europe presenting for the first time the perspective of John Calvin s evangelical enemies and revealing that the French Reformation was more complex and colorful than previously recognized Michael Bruening brings together a cast of Calvin s opponents from various French speaking territories to show that opposition to Calvinism was stronger and better organized than has been recognized He examines individual opponents such as Pierre Caroli Jerome Bolsec Sebastian Castellio Charles Du Moulin and Jean Mor ly but more importantly he explores the anti Calvinist networks that developed around such individuals Each group had its own origins and agenda but all agreed that Calvin s claim to absolute religious authority too closely echoed the religious sovereignty of the pope These oft neglected opponents refused to offer such obeisance to kiss the papal slipper arguing instead for open discussion of controversial doctrines They believed Calvin s self appointed leadership undermined the bedrock principle of the Reformation that the faithful be allowed to challenge religious authorities This book shows that the challenge posed by these groups shaped the way the Calvinists themselves developed their reform strategies Bruening s work demonstrates that the breadth and strength of the anti Calvinist networks requires us to abandon the traditional assumption that Huguenots and other francophone Protestants were universally Calvinist Religious Tolerance from Renaissance to Enlightenment Eric MacPhail, 2019-11-22 This new study examines the relationship of atheism to religious tolerance from the Renaissance to the Enlightenment in a broad array of literary texts and political and religious controversies written in Latin and the vernacular primarily in France the Netherlands and Switzerland The main authors featured are Desiderius Erasmus Sebastian Castellio Jean Bodin Michel de Montaigne Dirck Coornhert Justus Lipsius Gisbertus Voetius the anonymous Theophrastus redivivus and Pierre Bayle These authors reflect and inform changing attitudes to religious tolerance inspired by a complete reconceptualization of atheism over the course of three centuries of literary and intellectual history By integrating the history of tolerance in the history of atheism *Religious Tolerance from Renaissance to Enlightenment* Atheist s Progress should prove stimulating to historians of philosophy as well as literary specialists and students of Reformation history **„And on this Rock I Will Build My Church“. A New Edition of Schaff's „History of the Reformation 1517-1648“** Muhammad Wolfgang G. A. Schmidt, 2017-08 This voluminous work on Church History by Philip Schaff 1819 1893 was originally published between 1858 and 1893 in eight volumes in the USA and covers the period from the beginnings of Biblical Christianity in A D 1 to the History of the Reformation in Germany and Switzerland 1517 1648 Being still a popular text in North America this work had

been out of print for over a century and has now been carefully edited and reformatted for republication in four volumes each of them containing the text of two volumes of the original edition Schaff's work unlike other works in the field covers a multitude of church history related aspects from church doctrine policy events and processes to aspects of social moral and family life arts and more This is the fourth and final volume in this series and is a special edition covering the period of the Reformation from 1517 1648 that ends with the Peace Treaty concluded 1648 in Münster Westphalia following the long period of the Thirty Year War
