Ruling Distributed Dynamic Worlds Peter Sapaty, 2005-06-24. A sequel to *Mobile Processing in Distributed and Open Environments*, this title introduces an extended universal WAVE WP model for distributed processing and control in dynamic and open worlds of any nature. The new control theory and technology introduced in the book can be widely used for the design and implementation of many distributed control systems, such as intelligent network management for the Internet, mobile cooperative robots, Rapid Reaction forces, future Combat Systems, robotics, and AI. NMD space research on other planets and other applications. This title demonstrates a much simpler and more efficient application programming. Cultivates a new kind of thinking about how large dynamic systems should be designed, organized, tasked, simulated, and controlled. Introduces an extended universal WAVE WP model for distributed processing. Compares the universal WAVE WP model to other existing systems used in intelligent networking.

Managing Global Innovation Roman Boutellier,Oliver Gassmann,Maximilian von Zedtwitz,2008-03-12 If R D and innovation in the 1990s were about more internationalization more corporate entrepreneurship and more information integration then the 2000s have been about consolidating and expanding these trends further more globalization including the technology mavericks of China and India more open and inbound innovation integrating external technology providers and more web and Intern enabling of innovation processes by involving R D contributors regardless of their location The corporate R D powerhouses of the 1980s are now mostly history Even where they survived they had to yield to corporate efficiency efforts and business wide integration programs Still it would be unfair to belittle them in retrospect as they have found new roles in corporate R D and innovation n works In fact the very successes of centralized R D organizations of the 1970s and 1980s made possible the revolution of globalized innovation that we have been witnessing since the 1990s The first two editions of Managing Global Innovation published in 1999 and 2000 were testimonials of an increasingly internationalizing world of innovation and R D In this third edition of Managing Global Innovation we have retained the basic structure of two conceptual parts I and II and three case study parts III IV V However we have greatly revised all chapters including the final Imp ctions chapter part VI and incorporated new chapters and cases that illuminate and describe the recent trends in the context of the beginnings of global innovation in the 1980s and 1990s
