*British Rail* Tanya Jackson, Chris Green, 2013-10-01 British Rail is a contentious company as controversial as Dr Beeching and his axe However this examination of BR's passenger services shows just how vital the organisation was It successfully carried millions of commuters to and from their jobs every day organised its trunk route services to yield a profit under the brand name Inter City and pioneered world beating research and technological development through its own research centre and engineering subsidiary It transformed the railway system of Britain from a post Second World War state of collapse into a modern technologically advanced railway And it did all this despite being starved of cash and being subjected to the whims of ever fickle politicians British Rail The Nation's Railway is a story expertly weaved by Tanya Jackson of how all this was achieved against the odds Complemented by stunning black and white and colour images this is certainly a volume that no rail enthusiast should be without

**Poetics of the Poster** David H. T. Scott, 2010-01-01 This book sets out to explore the way with the onset of a new and integral relationship between text and image the modern poster is able to evolve distinctive persuasive strategies that will transform modern advertising The book shows how this fundamental development is closely related to contemporary developments in the visual arts in particular Futurism and Art Deco and reflects the increasing cross fertilisation and symbiosis between art and graphic design The book focuses in particular on the way conventional textual strategies metaphor metonymy rebus are adapted by the modern poster to produce visual or textual visual equivalents which through their employment of combined pictorial and linguistic elements maximise their attractive or persuasive power over the viewer reader A key aim of the book is to clarify the assumptions on which semiology the study of signs is based in the context of modern poster artists practice The text image relation is explored through five chapters focussing on 1 the rhetoric of image text in general 2 text and image in airline logos British Airways and Air France 3 visual metonymies in
