Seeking Sanctuary:

The Mystery of the Cross Judith Couchman, 2010-03-05 Christianity is a religion founded on the mystery of the cross of Christ. At the center of Christianity sits the cross of Christ. From the beginning, Christ's followers celebrated the cross as a symbol of their faith. It was honored in church worship, carved into rough tombstones, pressed onto loaves of bread, and set out as a sign of sanctuary. The cross represented what Christians believed, who they hoped for, and how they approached life. In this thoughtful book, Judith Couchman takes up forty images of the cross from early Christianity. As we discover the meaning and significance of each of these uses, we learn a little more about the early church. More than that, she helps us focus on the meaning of the cross and the Savior's sacrifice. Ideal for Lenten devotional reading and appropriate for any season of the church calendar, this book includes original illustrations of each cross image. *The Mystery of the Cross* will enrich your understanding of Christian tradition and draw you into Christ's presence. **Activist Feminist Geographies**

Kate Boyer, LaToya E. Eaves, Jennifer Fluri, 2025-01-21 Exploring what it means to enact feminist geography, this book brings together contemporary cutting-edge cases of social justice activism and collaborative research with activists. From Black feminist organizing in the American South to the stories of feminist geography collectives in Latin America, the editors present contemporary case studies from the global north and south. The chapters showcase the strength and vibrancy of activist-engaged scholarship taking place in the field and serve as a call to action, exploring how this work advances real-world efforts to fight injustice and re-make the world as a fairer, more equitable, and more accepting place. **A Tolerant Nation?**, 2015-03-15 Combines historical and contemporary material. Draws on historical, sociological, cultural, and literary approaches. Full revised and up-to-date edition of a classic book in the field. Covers the whole field in one volume.

Asylum-Seeking, Migration and Church Susanna Snyder, 2016-04-15 *Asylum Seeking, Migration and Church* addresses one of the most pressing issues confronting contemporary society: How are we to engage with migrants? Drawing on studies of church engagement with asylum seekers in the UK and critical immigration and refugee issues in North America, Snyder presents an extended theological reflection on both the issue of asylum seeking and the fears of established populations surrounding immigration. This book outlines ways in which churches are currently supporting asylum seekers, encouraging closer engagement with people seen as 'other' and more thoughtful responses to newcomers. Creatively exploring biblical and theological traditions surrounding the stranger, Snyder argues that as well as practising a vision of inclusive community, churches would do well to engage with established population fears. Trends in global migration and the dynamics of fear and hostility surrounding immigration are critically and creatively explored throughout the book. Inviting more complex, nuanced responses to asylum seekers and immigrants, this book offers invaluable insights to those interested in Christian ethics, practical theology, social work, mission, and faith and social action, as well as those working in the field of migration. *A Just Church* Chris Howson, 2011-02-17 What does liberation theology actually look like in 21st-century Britain?

How can the Church respond faithfully to issues like war climate change and vast global inequalities A fresh expression church in the centre of Bradford has explored these questions through radical forms of worship non violent direct action for example physically resisting the unjust detentions of asylum seekers and experimenting with new ways of being community that help to build the reign of God Church members have been arrested come under the scrutiny of security forces and been super glued together at the gates of hell aka Aldermaston Atomic Weapons Establishment This is their story their successes and disasters and their modelling of a new version of the Action Reflection cycle called EARS Education Action Reflection Sustaining aimed at helping other Christians to evolve their own way of thinking growing and demonstrating the relevance of Church in today s contexts

Ethnographic Refusals, Unruly Latinidades Alex E. Chavéz, Gina M. Pérez, 2022-04-01 The contributors in *Ethnographic Refusals Unruly Latinidades* highlight the value of radical inclusion in their research and call for a critical self reflexivity that marshals the power of bearing witness to move from rhetoric to praxis in support of these methodologies within anthropological perspectives The essays in this collection do not offer simple solutions to histories of colonialism patriarchy and misogyny through which gender binaries and racial hierarches have been imposed and reproduced but rather provide a crucial opportunity for reflection on and continued reimagination of the contours of Latinidad These scholars deploy Latinx strategically as part of ongoing dialogues understanding that their terminologies are inherently imprecise contested and constantly shifting Each chapter explores how Latinx ethnographers and interlocutors work together in contexts of refusal ever mindful of how power shapes these encounters and the analyses that emerge from them as well as the extraordinary possibilities offered by ethnography and its role in ongoing social transformation

Meeting the Needs of Reunited Refugee Families Sarah Cox, 2023-11-14 This book explores the gap between policy practice and academic literature within language learning for refugees and argues that a multilingual approach which combines translanguaging principles decolonising methodology and linguistic hospitality provides a more accessible starting point than current monolingual pedagogies It considers the multilingual and multilateral approach laid out within Scotland's New Scots Refugee Integration Strategy which recognises the importance of linguistic diversity and two way integration The divide between policy practice and theory points towards the need to counteract the dominant monolingual social cohesion narrative through suitable pedagogies which highlight linguistic diversity in a positive way The author suggests ecologising as an alternative language pedagogy drawing on three key findings the significance of decolonising collaborative learner teacher relationships during the liminal phase of refugee arrival the importance of place and orientation and an increased understanding of language and languaging
