Exploring Christian Spirituality Bruce H. Lescher, Elizabeth Liebert, 2006 Sandra Schneiders commands respect as one of the most significant and influential figures in the emergence of the study of Christian spirituality as an academic discipline as the focused and disciplined exploration of religious experience. This book honors her contributions to the field by addressing issues that are emerging at the creative edges of the discipline. In this volume, colleagues and students of Dr. Schneiders and other collaborators in the academic discipline of Christian spirituality examine crucial issues from their various disciplinary and methodological perspectives. Questions of methodology address the status of spirituality as a discipline, interdisciplinarity, and self-implication. Other essays explore the edges of Christian spirituality and biblical spirituality, gender studies, the natural sciences, nature writing, the social sciences, and interfaith issues. This collection of essays will provoke students and scholars of Christian spirituality as well as practitioners to continue critically thinking, discussing, writing, and practicing it.

Biblical Events That Are Yet To Come Rev. Jay Werman, 2024-07-25 In this book we aim to provide a comprehensive exposition on the Antichrist encompassing his origins and eventual downfall The duration that has been set for his reign the biblical order in which this will take place and the nations that will be involved in his kingdom A comprehensive analysis of the key words associated with the marks listed in Revelation 13 17 will be conducted with a focus on the implications of their enforcement by the government of the ten kingdoms The present study examines the Great Tribulation period as described in the Scriptures The specific population that will be impacted by this period is also a focal point Additionally the exegesis of scriptural passages referring to this era as elucidated in the books of Daniel Revelation Zechariah and Matthew among others The biblical scenario concerning the formation of the ten kingdoms mentioned in Daniel 7 24 and the land from which the Antichrist will come A rigorous examination of each seal s characteristics and the ramifications of their opening is essential for a comprehensive understanding of the subject The three divine programs set forth in Scripture dealing with the Gentile nations the Jewish nation and the Body of Christ and also the divine programs that will come into effect when the Great Tribulation period begins to unfold such as the marking of the 144 000 Jews and those Gentiles who will be saved during this period As the development of each biblical subject progresses further elaborations are provided shedding light on the Antichrist and his reign It is crucial to emphasize that these particulars constitute an integral component of the Word of God A comprehensive understanding of these elements is imperative for the effective instruction of those who may be lacking in this knowledge I m convinced that your biblical perspective will be fortified by the comprehensive exposition of the biblical narrative in this book provided that you are interested in acquiring knowledge and engaging in scriptural study

Critical Essays on Edward Schillebeeckx's Theology Corneliu C. Simut, 2010-02-18 This book presents the main teachings of Edward Schillebeeckx widely considered one of the most important Catholic thinkers of the twentieth century Schillebeeckx is known for his radical departure from traditional theology which he saw as no longer relevant to the modern world Because today s world has been shaped by a process of secularization heavily based on reason and progress in science technology economics urbanism etc modern people seek relevant answers to their deep existential questions that can be explained rationally In his quest to foster relevant and meaningful answers for today s world

Schillebeeckx changed the traditional metaphysical content of Christian theology into explanations that radically reinterpret traditional Christian doctrines. Primarily the supernatural essence of Christianity is given up as irrelevant and is replaced by a natural perspective on the world. In Schillebeeckx's thoroughly historical and truly immanent theology, God is man's terrestrial future, Christ the symbol of universal human values, and the Church is identified with the world as those communities which share these universal human values. Schillebeeckx is convinced that these explanations, emptied of metaphysical content, can help today's people understand their existence in a new relevant and meaningful way.
