The Segmented Society Robert H. Wiebe, 1979 **The Politics of Individualism** Lawrence Frederick

Kohl, 1991-02-07 In the fifty years following the Revolution America's population nearly quadrupled its boundaries expanded industrialization took root in the Northeast new modes of transportation flourished state banks proliferated and offered easy credit to eager entrepreneurs and Americans found themselves in the midst of an accelerating age of individualism equality and self reliance To the Jacksonian generation it seemed as if their world had changed practically overnight The Politics of Individualism looks at the political manifestations of these staggering social transformations During the 1830s and 1840s Americans were consumed by politics and party loyalties were fierce Here Kohl draws on the political rhetoric found in speeches newspapers periodicals and pamphlets to place the Democrats and the Whigs in a solid social and psychological context He contends that the political division between these two parties reflected the division between Americans unsettled by the new individualistic social order and those whose character allowed them to strive more confidently within it Democrats says Kohl were more tradition directed bound to others in more personal ways Whigs on the other hand were more inner directed and embraced the impersonal self interested relationships of a market society By examining this fascinating dialogue of parties Kohl brings us bright new insight into the politics and people of Jacksonian America

Denominationalism Illustrated and Explained Russell E. Richey, 2013-03-18 Evidence of mainstream denominational decline virtually throws itself in our faces growing religious pluralism in North America the decline over the last half century in the salience prestige power and vitality of Protestant denominational leadership slippage in mainline membership and corresponding growth vigor visibility and political prowess of conservative evangelical and fundamentalist bodies patterns of congregational independence including loosening of or removal of denominational identity particularly in signage and the related marginal loyalty of members emergence of megachurches with resources and the capacity to meet needs heretofore supplied by denominations training literature expertise growth within mainline denominations of caucuses and their alignment into broad progressive or conservative camps often with connections to similar camps in other denominations widespread suspicion of indeed hostility towards the centers and symbols of denominational identity the regional and national headquarters migration of individuals and families through various religious identities sometimes out of classic Christianity altogether Denominationalism looks doomed and is so proclaimed It may be However viewing the sweep of Anglo American history this volume suggests how much denominations and denominationalism have changed how resilient they have proved how significant these structures of religious belonging have been in providing order and direction to American society and how such enduring purposes find ever new structural institutional expression
