Singapore Jiyong Song, 2017-05-08 To celebrate Singapore's fiftieth anniversary for its independence from Malaysia in 2015, 35 students, academics and activists came together to discuss and write about pioneering Singaporean human rights activists and their under-reported stories in Singapore. The city-state is known for its remarkable economic success while having strict laws on individual freedom in the name of national security, public order and racial harmony. Singapore's tough stance on human rights however does not negate the long and persistent existence of a human rights society that is little known to the world until today. This volume composed of nine distinctive chapters records a history of human rights activists, their campaigns, main contentions with the government, survival strategies and other untold stories in Singapore's first 50 years of state building. **Gangs and Minorities in Singapore** Narayanan Ganapathy, 2023-12-21 This book is a unique

ethnographic study of a racially exclusive Malay-Muslim gang, Omega, which has its roots in Singapore's prisons and controls much of the illicit drug trade in the state. Similar to indigenous peoples elsewhere, Singapore Malays are disproportionately represented in the criminal justice system and can respond to structural marginalization and colonization through gang involvement. In demonstrating that gang membership can be an adaptive strategy for minority groups, this book promotes a more inclusive and restorative justice model for people with repeat convictions. Correctional Rehabilitation & Psychological Interventions In Singapore: Practitioners' Experiences In Singapore Prison Service Xiang Long Cheng, Gabriel Ong, 2023-03-20 Psychologists and correctional rehabilitation specialists in the Psychological and Correctional Rehabilitation Division of the Singapore Prison Service have been instrumental in designing and delivering the rehabilitation work with offenders. This book seeks to capture these experiences in the area of rehabilitation and the anecdotal experiences working with different groups of offenders on the ground. It provides a first-hand look at the application of offender rehabilitation principles in practice. It also provides details on the experiences and challenges of working in a correctional context through the anecdotal sharing. To this end, the book aims to provide a practical and practitioner lens overlaid with theoretical

concepts to the practice of correctional rehabilitation While there have been experiences and insights documented this will be the first book that documents the anecdotal experiences in Singapore Prison Service     Law and Legal Institutions of Asia E. **The Limits of Authoritarian Governance in Singapore's Developmental State** Lily Zubaidah Rahim, Michael D. Barr, 2019-02-06 This book delves into the limitations of Singapore's authoritarian governance model. In doing so, the relevance of the Singapore governance model for other industrialising economies is systematically examined. Research in this book examines the challenges for an integrated governance model that has proven durable over four to five decades. The editors argue that established socio-political and economic formulae are now facing unprecedented challenges. Structural pressures associated with Singapore's particular locus within globalised capitalism have fostered heightened social and material inequalities compounded by the ruling party's ideological resistance to substantive redistribution. As growth with equity becomes more elusive, the rationale for power by a ruling party dominated by technocratic elite and state institutions crafted and controlled by the ruling party and its bureaucratic allies is open to more critical scrutiny.
