

A romantic couple is sitting on a sandy beach at sunset. The woman, with long blonde hair and wearing a straw hat and a blue long-sleeved shirt, is smiling and looking at the man. The man, with dark hair and a beard, is wearing a light-colored button-down shirt and is looking back at her. They are sitting close together, and the background shows the ocean and some trees. The overall mood is warm and intimate.

What to Expect When No One's Expecting Jonathan V. Last, 2014-06-10 Look around you and think for a minute Is America too crowded For years we have been warned about the looming danger of overpopulation people jostling for space on a planet that's busting at the seams and running out of oil and food and land and everything else It's all bunk The population bomb never exploded Instead statistics from around the world make clear that since the 1970s we've been facing exactly the opposite problem people are having too few babies Population growth has been slowing for two generations The world's population will peak and then begin shrinking within the next fifty years In some countries it's already started Japan for instance will be half its current size by the end of the century In Italy there are already more deaths than births every year China's One Child Policy has left that country without enough women to marry its men not enough young people to support the country's elderly and an impending population contraction that has the ruling class terrified And all of this is coming to America too In fact it's already here Middle class Americans have their own informal one child policy these days And an alarming number of upscale professionals don't even go that far they have dogs not kids In fact if it weren't for the wave of immigration we experienced over the last thirty years the United States would be on the verge of shrinking too What happened Everything about modern life from Bugaboo strollers to insane college tuition to government regulations has pushed Americans in a single direction making it harder to have children And making the people who do still want to have children feel like second class citizens What to Expect When No One's Expecting explains why the population implosion happened and how it is remaking culture the economy and politics both at home and around the world Because if America wants to continue to lead the world we need to have more babies
