Marriage Without Children:

Marriage Without Children Diana Burgwyn, 1981 **Families of Two** Laura Carroll, 2000-09-26 According to American Demographics magazine by the year 2010 the number of married couples without children is expected to increase by nearly 50% to nearly 31 million The non profit organization Childless By Choice reports that one in seven married couples in the United States is consciously deciding not to have children For more married couples than ever before their life plan together does not include raising a family Yet as these numbers grow in many ways society continues to frown on the choice not to have children Although more couples are making this decision they often feel misunderstood and face societal misperceptions about themselves their marriage and their choice not to have children Through candid interviews and photographs Families of Two Interviews with Happily Married Couples Without Children by Choice takes us into the lives of happily married couples without children by choice It dispels the myths often associated with this choice helps couples who are deciding whether to have children and offers insight to friends and family of couples who have chosen or may choose not to have children Families of Two expands our ways of understanding marriage in today s society and gives examples of roadmaps for marriage without children Families of Two celebrates the many people who are living lives that do not include parenthood and the many ways to live happily ever after **Divorced, without Children** Debra D. Castaldo, 2011-02-14 The topic of women divorced at midlife without children is one that has to date been absent from professional and academic literature though these women make up a considerable and growing portion of our population This book explores the experience meaning and impact of divorce at midlife for women without children and provides insights into the unique stressors and issues confronting these individuals so that the practitioner can better anticipate and meet their needs Clinical considerations and case examples will be presented via the narrative stories of women who have experienced this unusual role in a world that is still primarily centered on marriage and mothering This book provides case examples clinical themes treatment recommendations and suggests coping techniques and strategies Castaldo draws heavily upon social constructionist feminist and narrative perspectives as theoretical frameworks for the book as well as the results of her own qualitative research study She suggests new concepts for women s psychological development including an expanded family life cycle to include a normalized stage of mature single adulthood and a developmental process of autonomous competence for women Other critical coping skills include meaning modification role innovation self nurturing expanded intimacy and attachment and multi diverse industriousness MARRIAGE WITHOUT A LICENSE: A Completely Moral Alternative to Civil Marriage Laura M. Sands, 2011-05-13 By the power vested in me by God and the State of XYZ I now pronounce you husband and wife If you ve ever wondered when and how God gave a minister the power to declare two people as married this book is for you If you ve ever searched the Bible for a description of a wedding or an exchanging of marriage vows and have come up empty handed this book is for you If you ve ever wondered if two people can marry without a marriage license this book is

definitely for you Marriage has existed since the beginning of time while the marriage license is a relatively new creation in American culture A marriage license is never mentioned in the Bible and most early American settlers never heard of such a document For as long as men and women have been on earth marriages have taken place How is it then that so many people have come to believe that government involvement is the only way for two people to become married Using biblical scripture as well as legal and historical evidence this book will show you why so many are purposely choosing marriage without a license It presents a strong argument in favor of government free marriage while proving that such is a completely legal and moral alternative to civil marriage Most important however this book will clearly illustrate the fact that marriage as it is depicted in the Bible is a completely separate entity from civil marriage While social and political debate about who has the right to marry rages on it is more important than ever to understand the distinctions between biblical and civil marriage traditions This book goes a long way in highlighting why it is necessary to separate church and state in such matters It further illustrates why so many who view civil marriage through a religious lens are wrong in doing so Sure to spark controversy in the hearts of many Marriage Without a License will take you on an historical social and religious journey that will turn what you thought you knew about marriage upside down Whether you agree or disagree with its contents one thing is for sure after reading this book you will never view civil matrimony in the same light again Visit the Marriage Without a License blog at <http://marriagewithoutalicense.com>

The *Handbook of Child Psychology and Developmental Science* a four volume reference is the field defining work to which all others are compared. Volume 4 *Ecological Settings and Processes in Developmental Systems* is centrally concerned with the people conditions and events outside individuals that affect children and their development. To understand children's development it is both necessary and desirable to embrace all of these social and physical contexts. Guided by the relational developmental systems meta-theory the chapters in the volume are ordered in a manner that begins with the near proximal contexts in which children find themselves and moving through to distal contexts that influence children in equally compelling if less immediately manifest ways. Stereotyping Africa. Surprising Answers to Surprising Questions Fru Doh,2009-11-01 Characteristically Africans in any Western country are asked so many different questions about Africa as Westerners love to refer to the many countries that make up that huge continent as if Africa were a single nation state So one begins wondering why it is that Africans on the other hand do not refer to individual European countries as Europe simply then the trends and consequences of stereotyping begin setting in just as one is getting used to being asked if Africa has a president or if one can say something in African It is some of these questions that Emmanuel Fru Doh has collected over the years and has attempted answering them in an effort to shed some light on a continent that is in many ways like the rest of the world when not better but which so many love to paint as dark backward chaotic and pathetic

parenthood Featuring diverse theoretical and methodological chapters exploring the many issues pertaining to these seismic changes the authors chronicle the many dramatic impacts from shifts in attitudes to marriage and family *The Equality Trap* , Despite the feminist revolution of the past twenty years most women in America are worse off today than at any time in the recent past Magazines and television programs profile women bank executives surgeons and corporate lawyers but the vast majority of women still work in relatively low paying jobs Women work more hours per week in the house and outside than ever before and a paying job has become a necessity for women in most households What went wrong In this provocative book Mary Ann Mason argues that the women s movement shares some of the blame for this situation In an original analysis that draws on both social and legal history she explains how the move away from women s rights toward equal rights has worsened the situation of American working women especially working mothers Because women are still the primary care providers for their children they must take flexible and relatively low paying jobs to be available in case of a child care problem With nearly 50 percent of all marriages now ending in divorce and with a growing trend inspired by the equal rights movement toward no fault divorce and low or no alimony settlements divorced mothers frequently find themselves economically devastated Mary Ann Mason argues that the solution to this predicament is to draw up a new women s rights agenda that will benefit all working women especially those with children The equal rights strategy was important in opening the door for the highly publicized super achievers but it is now time she says to improve the lives of the majority of America s working women This book will be of interest to readers interested in gender studies and particularly issues of equality and feminism Mary Ann Mason is a professor of law and social welfare at the University of California Berkeley In addition to her law degree Mason holds a Ph D in American social history
