Marsilio Ficino and the Phaedran Charioteer ; Introduction, Textes, Translations by Michael J. B. Allen Marsilio Ficino, Michael J. B. Allen, 1981 *Teils., lat.u.engl*, 1981 **Iconology, Neoplatonism, and the Arts in the Renaissance** Berthold Hub, Sergius Koder, 2020-09-23 The mid twentieth century saw a change in paradigms of art history iconology The main claim of this novel trend in art history was that renowned Renaissance artists such as Botticelli Leonardo or Michelangelo created imaginative syntheses between their art and contemporary cosmology philosophy theology and magic The Neoplatonism in the books by Marsilio Ficino and Giovanni Pico della Mirandola became widely acknowledged for its lasting influence on art It thus became common knowledge that Renaissance artists were not exclusively concerned with problems intrinsic to their work but that their artifacts encompassed a much larger intellectual and cultural horizon This volume brings together historians concerned with the history of their own discipline and also those whose research is on the art and culture of the Italian Renaissance itself with historians from a wide variety of specialist fields in order to engage with the contested field of iconology The book will be of interest to scholars working in art history Renaissance history Renaissance studies historiography philosophy theology gender studies and literature **The Sexual Culture of the French Renaissance** Katherine Crawford, 2010-04-22 An examination of how Renaissance textual practices and new forms of knowledge transformed notions of sex and sexuality in France **Byzantine and Renaissance Philosophy** Peter Adamson, 2022-02-10 Peter Adamson explores the rich intellectual history of the Byzantine Empire and the Italian Renaissance Peter Adamson presents an engaging and wide ranging introduction to the thinkers and movements of two great intellectual cultures Byzantium and the Italian Renaissance First he traces the development of philosophy in the Eastern Christian world from such early figures as John of Damascus in the eighth century to the late Byzantine scholars of the fifteenth century He introduces major figures like Michael Psellos Anna Komnene and Gregory Palamas and examines the philosophical significance of such cultural phenomena as iconoclasm and conceptions of gender We discover the little known traditions of philosophy in Syriac Armenian and Georgian These chapters also explore the scientific political and historical literature of Byzantium There is a close connection to the second half of the book since thinkers of the Greek East helped to spark the humanist movement in Italy Adamson tells the story of the rebirth of philosophy in Italy in the fifteenth and sixteenth centuries We encounter such famous names as Christine de Pizan Niccol Machiavelli Giordano Bruno and Galileo but as always in this book series such major figures are read alongside contemporaries who are not so well known including such fascinating figures as Lorenzo Valla Girolamo Savonarola and Bernardino Telesio Major historical themes include the humanist engagement with ancient literature the emergence of women humanists the flowering of Republican government in Renaissance Italy the continuation of Aristotelian and scholastic philosophy alongside humanism and breakthroughs in science All areas of philosophy from theories of economics and aesthetics to accounts of the human mind are featured This is

From Poliziano to Machiavelli Peter Godman, 2019-01-15 Peter Godman presents the first intellectual history of Florentine humanism from the lifetime of Angelo Poliziano in the later fifteenth century to the death of Niccolo Machiavelli in 1527 Making use of unpublished and rare sources Godman traces the development of philological and official humanism after the expulsion of the Medici in 1494 up to and beyond their restoration in 1512 He draws long overdue attention to the work of Marcello Virgilio Adriani Poliziano's successor in his Chair at the Studio and Machiavelli's colleague at the Chancery of Florence And he examines in depth the intellectual impact of Savonarola and the relationship between secular and religious and oral and print cultures Godman shows a complex reaction of rivalry and antagonism in Machiavelli's approach to Marcello Virgilio who was the leading Florentine humanist of the day But he also demonstrates that Florentine humanists shared a common culture marked by a preference for secular over religious themes and by constant anxiety about surviving and prospering in the city's dangerous political climate The book concludes with an appendix drawn from previously inaccessible archives about the censorship of Machiavelli by the Inquisition and the Index From Poliziano to Machiavelli adds new depth to the intellectual history of Florence during his most dynamic period in its history Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 [The Cambridge History of Literary Criticism: Volume 3, The Renaissance](#) George Alexander Kennedy, Glyn P. Norton, 1989 This 1999 volume was the first to explore as part of an unbroken continuum the critical legacy both of the humanist rediscovery of ancient learning and of its neoclassical reformulation Focused on what is arguably the most complex phase in the transmission of the Western literary critical heritage the book encompasses those issues that helped shape the way European writers thought about literature from the late Middle Ages to the late seventeenth century These issues touched almost every facet of Western intellectual endeavour as well as the historical cultural social scientific and technological contexts in which that activity evolved From the interpretative reassessment of the major ancient poetic texts this volume addresses the emergence of the literary critic in Europe by exploring poetics prose fiction contexts of criticism neoclassicism and national developments Sixty one chapters by internationally respected scholars are supported by an introduction detailed bibliographies for further investigation and a full index **A History of Light** Junko Theresa Mikuriya, 2016-12-15 When was photography invented in 1826 with the first permanent photograph If we depart from the technologically oriented accounts and consider photography as a philosophical discourse an alternative history appears one which examines the human impulse to reconstruct the photographic or the evoking of light It s

significance throughout the history of ideas is explored via the Platonic Dialogues Iamblichus theurgic writings and Marsilio Ficino's texts This alternative history is not a replacement of other narratives of photographic history but rather offers a way of rethinking photography's ontological instability
