**Disaffected** Xine Yao, 2021-09-08 In *Disaffected* Xine Yao explores the racial and sexual politics of unfeeling affects that are not recognized as feeling as a means of survival and refusal in nineteenth century America She positions unfeeling beyond sentimentalism's paradigm of universal feeling Yao traces how works by Herman Melville Martin R Delany Elizabeth Stuart Phelps Frances Ellen Watkins Harper and Sui Sin Far engaged major sociopolitical issues in ways that resisted the weaponization of white sentimentalism against the lives of people of color Exploring variously pathologized racialized queer and gendered affective modes like unsympathetic Blackness queer female frigidity and Oriental inscrutability these authors departed from the values that undergird the politics of recognition and the liberal project of inclusion By theorizing feeling otherwise as an antisocial affect form of dissent and mode of care Yao suggests that unfeeling can serve as a contemporary political strategy for people of color to survive in the face of continuing racism and white fragility Duke University Press Scholars of Color First Book Award recipient

black nationalisms African American gender ideologies and the formation of a black public sphere This new edition contains a new epilogue and new photographs *Latinx Revolutionary Horizons* Renee Hudson, 2024-05-07 A necessary reconceptualization of Latinx identity literature and politics In *Latinx Revolutionary Horizons* Renee Hudson theorizes a liberatory latinidad that is not yet here and conceptualizes a hemispheric project in which contemporary Latinx authors return to earlier moments of revolution Rather than viewing Latinx as solely a category of identification she argues for an expansive historicized sense of the term that illuminates its political potential Claiming the x in Latinx as marking the suspension and tension between how Latin American descended people identify and the future politics the x points us toward Hudson contends that latinidad can signal a politics grounded in shared struggles and histories rather than merely a mode of identification In this way *Latinx Revolutionary Horizons* reads against current calls for cancelling latinidad based on its presumed anti Black and anti Indigenous framework Instead she examines the not yet here of latinidad to investigate the connection between the revolutionary history of the Americas and the creation of new genres in the hemisphere from conversion narratives and dictator novels to neoslave narratives and testimonios By comparing colonialisms she charts a revolutionary genealogy across a range of movements such as the Mexican Revolution the Filipino People Power Revolution resistance to Trujillo in the Dominican Republic and the Cuban Revolution In pairing nineteenth century authors alongside contemporary Latinx ones Hudson examines a longer genealogy of Latinx resistance while expanding its literary canon from the works of Jos Rizal and Martin Delany to those of Julia Alvarez Jessica Hagedorn and Leslie Marmon Silko In imagining a truly transnational latinidad *Latinx Revolutionary Horizons* thus rewrites our understanding of the nationalist formations that continue to characterize Latinx Studies

**Perplexing Patriarchies: Fatherhood Among Black Opponents and White Defenders of Slavery** Pierre Islam, 2019-08-15 *Perplexing Patriarchies* examines the rhetorical usage and lived experience of fatherhood among three African American abolitionists and three of their white proslavery opponents in the United States during the nineteenth century Both the prominent abolitionists Frederick Douglass Martin Delany and Henry Garnet as well as the prominent proslavery advocates Henry Hammond George Fitzhugh and Richard Dabney appealed to the popular image of the father husband and head of household in order to attack or justify slavery How and why could these opposing individuals rely on appeals to the same ideal of fatherhood to come to completely different and opposing conclusions This book strives to find the answer by first acknowledging that both the abolitionists and the proslavery men shared similar concerns about the contested status of fatherhood in the nineteenth century However due to subtle differences in their starting assumptions and different choices of what parts of a father's responsibilities to emphasize the black abolitionists conceived of an ideal father who protected the autonomy of his dependents while the proslavery men conceived of one whose authority necessitated the subordination of those he protected Finding that these differences arose from choices in starting assumptions and emphases rather than total disagreement on what the role of the father should be this work reveals that

black abolitionists were not radically critiquing the gender conventions of their day but innovatively working within those conventions to turn them towards social reform This discovery opens up a new way for historians to consider how oppressed peoples negotiated the intellectual boundaries of the societies which oppressed them Not necessarily breaking entirely from those boundaries nor passively accepting them but ingeniously synthesizing a worldview from within their confines that still allowed for freedom and personal autonomy *The Wars of Reconstruction* Douglas R. Egerton, 2014-01-21 A

groundbreaking new history telling the stories of hundreds of African American activists and officeholders who risked their lives for equality in the face of murderous violence in the years after the Civil War By 1870 just five years after Confederate surrender and thirteen years after the Dred Scott decision ruled blacks ineligible for citizenship Congressional action had ended slavery and given the vote to black men That same year Hiram Revels and Joseph Hayne Rainey became the first African American U S senator and congressman respectively In South Carolina only twenty years after the death of arch secessionist John C Calhoun a black man Jasper J Wright took a seat on the state s Supreme Court Not even the most optimistic abolitionists thought such milestones would occur in their lifetimes The brief years of Reconstruction marked the United States most progressive moment prior to the civil rights movement Previous histories of Reconstruction have focused on Washington politics But in this sweeping prodigiously researched narrative Douglas Egerton brings a much bigger even more dramatic story into view exploring state and local politics and tracing the struggles of some fifteen hundred African American officeholders in both the North and South who fought entrenched white resistance Tragically their movement was met by ruthless violence not just riotous mobs but also targeted assassination With stark evidence Egerton shows that Reconstruction often cast as a failure or a doomed experiment was rolled back by murderous force *The Wars of Reconstruction* is a major and provocative contribution to American history

*Abolitionist Places* Martha Schoolman, Jared Hickman, 2014-10-20 From David Brion Davis s *The Problem of Slavery in the Age of Revolution* to Paul Gilroy s *The Black Atlantic* some of the most influential conceptualizations of the Atlantic World have taken the movements of individuals and transnational organizations working to advocate the abolition of slavery as their material basis This unique interdisciplinary collection of essays provides diverse new approaches to examining the abolitionist Atlantic With contributions from an international roster of historians literary scholars and specialists in the history of art this book provides case studies in the connections between abolitionism and material spatial practice in literature theory history and memory This volume covers a wide range of topics and themes including the circum Atlantic itineraries of abolitionist artists and activists precise locations such as Paris and Chatham Ontario where abolitionists congregated to speculate over the future of and hatch emigration plans to sites in Africa Latin America and the Caribbean and the reimagining of abolitionist places in twentieth and twenty first century literature and public art This book was originally published as a special issue of *Atlantic Studies* **An**

*Righteous Propagation* Michele Mitchell,2005-10-12 Between 1877 and 1930 years rife with tensions over citizenship suffrage immigration and the Negro problem African American activists promoted an array of strategies for progress and power built around racial destiny the idea that black Americans formed a collective whose future existence would be determined by the actions of its members In *Righteous Propagation* Michele Mitchell examines the reproductive implications of racial destiny demonstrating how it forcefully linked particular visions of gender conduct and sexuality to collective well being Mitchell argues that while African Americans did not agree on specific ways to bolster their collective prospects ideas about racial destiny and progress generally shifted from outward looking remedies such as emigration to inward focused debates about intraracial relationships thereby politicizing the most private aspects of black life and spurring race activists to calcify gender roles monitor intraracial sexual practices and promote moral purity Examining the ideas of well known elite reformers such as Mary Church Terrell and W E B DuBois as well as unknown members of the working and aspiring classes such as James Dubose and Josie Briggs Hall Mitchell reinterprets black protest and politics and recasts the way we think about black sexuality and progress after Reconstruction **Virtual Americas** Paul Giles,2002-08-15 A discussion on the ways in which representations in the U S have been deflected from mythic to virtual phenomena in literary and cultural works of the modern era **The Black Newspaper and the Chosen Nation** Benjamin Fagan,2016 Benjamin Fagan shows how the early black press helped shape the relationship between black chosenness and the struggles for black freedom and equality in America in the process transforming the very notion of a chosen American nation Fleshing Out America

Carolyn Sorisio,2002 Can we work through the imaginative space of literature to combat the divisive nature of the politics of the body That is the central question asked of the writings Carolyn Sorisio investigates in *Fleshing Out America* The first half of the nineteenth century ushered in an era of powerful scientific and quasi scientific disciplines that assumed innate differences between the types of humankind Some proponents of slavery and Indian Removal as well as opponents of women s rights supplanted the Declaration of Independence s higher law of inborn equality with a new set of laws proclaiming the physical inferiority of women Negroes and Aborigines *Fleshing Out America* explores the representation of the body in the work of seven authors all of whom were involved with their era s reform movements Lydia Maria Child Frances E W Harper

Ralph Waldo Emerson Margaret Fuller Walt Whitman Harriet Jacobs and Martin R Delany For such American writers who connected the individual body symbolically with the body politic the new science was fraught with possibility and peril Covering topics from representation spectatorship and essentialism to difference power and authority Carolyn Sorisio places these writers works in historical context and in relation to contemporary theories of corporeality She shows how these authors struggled in diverse and divergent ways to flesh out America to define even defend the nation s body in a tumultuous period Drawing on Euro and African American authors of both genders who are notable for their aesthetic and political differences *Fleshing Out America* demonstrates the surprisingly diverse literary conversation taking place as American authors attempted to reshape the politics of the body which shaped the politics of the time **All Bound Up Together** ,

Civic Longing Carrie Hyde,2018-01-11 No Constitutional definition of citizenship existed until the 14th Amendment in 1868 Carrie Hyde looks at the period between the Revolution and the Civil War when the cultural and juridical meaning of citizenship was still up for grabs She recovers numerous speculative traditions that made and remade citizenship s meaning in this early period **Philadelphia Stories** Samuel Otter,2013-01-02 In *Philadelphia Stories* Samuel Otter finds literary value historical significance and political urgency in a sequence of texts written in and about Philadelphia between the Constitution and the Civil War Historians such as Gary B Nash and Julie Winch have chronicled the distinctive social and political space of early national Philadelphia Yet while individual writers such as Charles Brockden Brown Edgar Allan Poe and George Lippard have been linked to Philadelphia no sustained attempt has been made to understand these figures and many others as writing in a tradition tied to the city s history The site of William Penn s Holy Experiment in religious toleration and representative government and of national Declaration and Constitution near the border between slavery and freedom Philadelphia was home to one of the largest and most influential free African American communities in the United States The city was seen by residents and observers as the laboratory for a social experiment with international consequences Philadelphia would be the stage on which racial character would be tested and a possible future for the United States after slavery would be played out It would be the arena in which various residents would or would not demonstrate their capacities to participate in the nation s civic and political life Otter argues that the Philadelphia experiment the term used in the nineteenth century produced a largely unacknowledged literary tradition of peculiar forms and intensities in which verbal performance and social behavior assumed the weight of race and nation
