Marx Against The Marxists:

Marx Against the Marxists José Porfirio Miranda,1980 Examines the moral foundations of Marx s ideology and how modern Marxism has strayed from his concern for human liberty and moral conscience *Marx Against Marxism* Julius Lowenstein,2014-02-04 This volume traces the origins contradictions and consequences of Marx s teaching on his followers He uses Marx to speak against the rigid dogmatism inherent in much of Marxism and concentrates on the interpretations of Marx s work by Max Weber Marx Against the Marxists Jose Porfirio Miranda,1978 **Marx Against Marxism** Julius I. Löwenstein,1980 Marx Against Marxism Julius I. Loewenstein,1976 *Marxism and Morality* Steven Lukes,1985 It is reported that the moment anyone talked to Marx about morality he would roar with laughter Yet plainly he was fired by outrage and a burning desire for a better world This paradox is the starting point for *Marxism and Morality* Discussing the positions taken by Marx Engels and their descendents in relation to certain moral issues Steven Lukes addresses the questions on which Marxist thinkers and actors have taken a number of characteristic stands as well as other questions personal relations and the moral virtues of the individual for example on which Marxism falls silent A provocative exploration of the gray area where Marxism and morality meet this book argues that Marxism makes a number of major moral claims and that its appeal has always been in large part a moral one *Marx and the Marxists* Sidney Hook,1982 **The War Against Marxism** Tony McKenna,2021-05-06 Marxism has provided the ideological impetus to liberation movements radical struggles and revolutions across the world But in the 20th century the emancipatory and democratic power of its thought has often been distorted and overridden by various Stalinist dictatorships which claimed to be acting in its name A similar undermining of freedom of thought has been accomplished at an intellectual level various schools have transformed Marxist thought in line with some of the most fashionable but gentrified forms of contemporary philosophy shifting the focus from the democratic power of the masses and their ability to challenge the capitalist order to concentrate on superstar thinkers and elite theories *The War Against Marxism* traces the war against Marxism which paradoxically has been conducted in the name of Marxism itself As such it provides a fiery philosophical and polemical indictment of so called Marxists such as Adorno Horkheimer Althusser Jameson Eagleton Mouffe Laclau and Zizek and asks what can be done to stem this counterrevolution

Before the Revisionist Controversy (RLE Marxism) H. Kendall Rogers,2015-04-24 In this book first published in 1992 the author examines the polemic fought by German Social Democratic Party leaders and intellectuals Karl Kautsky and Eduard Bernstein against what they perceived to be misunderstandings of Marxism propagated by members of the Social Democratic Federation SDF in England and by the socialist leader Wilhelm Liebknecht in Germany The debate raised basic questions of socialist theory including whether the program of Marx and Engels called for scholarly study parliamentary democracy and gradual social evolution or for Utopian speculation economic collapse and violent rebellion Marxism and Ethics Paul Blackledge,2012-02-14 *Marxism and Ethics* is a comprehensive and highly readable introduction to the rich and

complex history of Marxist ethical theory as it has evolved over the last century and a half Paul Blackledge argues that Marx's ethics of freedom underpin his revolutionary critique of capitalism Marx's conception of agency he argues is best understood through the lens of Hegel's synthesis of Kantian and Aristotelian ethical concepts Marx's rejection of moralism is not as suggested in crude materialist readings of his work a dismissal of the free purposive subjective dimension of action Freedom for Marx is both the essence and the goal of the socialist movement against alienation and freedom's concrete modern form is the movement for real democracy against the capitalist separation of economics and politics At the same time Marxism and Ethics is also a distinctive contribution to and critique of contemporary political philosophy one that fashions a powerful synthesis of the strongest elements of the Marxist tradition Drawing on Alasdair MacIntyre's early contributions to British New Left debates on socialist humanism Blackledge develops an alternative ethical theory for the Marxist tradition one that avoids the inadequacies of approaches framed by Kant on the one hand and utilitarianism on the other **The**

Elgar Companion to Marxist Economics Ben Fine, Alfredo Saad-Filho, Marco Boffo, 2012-01-01 This Companion takes stock of the trajectory achievements shortcomings and prospects of Marxist political economy It reflects the contributors shared commitment to bringing the methods theories and concepts of Marx himself to bear across a wide range of topics and perspectives and it provides a testimony to the continuing purpose and vitality of Marxist political economy As a whole this volume analyzes Marxist political economy in three areas the critique of mainstream economics in all of its versions the critical presence of Marxist political economy within and its influence upon each of the social science disciplines and cutting across these the analysis of specific topics that straddle disciplinary boundaries Some of the contributions offer an exposition of basic concepts accessible to the general reader laying out Marx's own contribution its significance and subsequent positions and debates with and within Marxist political economy The authors offer assessments of historical developments to and within capitalism and of its current character and prospects Other chapters adopt a mirror image approach of pinpointing the conditions of contemporary capitalism as a way of interrogating the continuing salience of Marxist analysis This volume will inform and inspire a new generation of students and scholars to become familiar with Marxist political economy from an enlightened and unprejudiced position and to use their knowledge as both a resource and gateway to future study Marxism, the Millennium and Beyond M. Cowling, P. Reynolds, 2000-10-31 This collection investigates the state of

play in studies informed by Marxism Among other contributions it includes an essay on state theory by Bob Jessop a discussion of fundamental socialist values using analytical Marxism by Alan Carling **Politics Out of History** Wendy Brown, 2018-06-05 What happens to left and liberal political orientations when faith in progress is broken when both the sovereign individual and sovereign states seem tenuous when desire seems as likely to seek punishment as freedom when all political conviction is revealed as contingent and subjective Politics Out of History is animated by the question of how we navigate the contemporary political landscape when the traditional compass points of modernity have all but disappeared

Wendy Brown diagnoses a range of contemporary political tendencies from moralistic high handedness to low lying political despair in politics from the difficulty of formulating political alternatives to reproaches against theory in intellectual life as the consequence of this disorientation *Politics Out of History* also presents a provocative argument for a new approach to thinking about history one that forsakes the idea that history has a purpose and treats it instead as a way of illuminating openings in the present by for example identifying the haunting and constraining effects of past injustices unresolved Brown also argues for a revitalized relationship between intellectual and political life one that cultivates the autonomy of each while promoting their interlocutory potential This book will be essential reading for all who find the trajectories of contemporary liberal democracies bewildering and are willing to engage readings of a range of thinkers Freud Marx Nietzsche Spinoza Benjamin Derrida to rethink democratic possibility in our time *Marxism, Christianity, and Islam* Julian Roche, 2024-02-20 Roger Garaudy was for many years at the centre of the French Communist Party but was eventually expelled for his liberal views In the Seventies he strove to bring Marxism and Christianity together to include all humanity in a project to set all people free What emerges from Garaudy's project is a very modern Marxism with its emphasis on the individual its ecological politics and in its insistence on religion as central to human emancipation Although Garaudy himself became frustrated by the failure of Marxism and converted to Islam eventually resulting in his work being discredited in the West it is certainly possible that Garaudy's project represents a good perhaps even the best starting point for Marxism in today's world

Marxism and History Matt Perry, 2021-08-16 This textbook examines Marxism's enormous impact on the way historians approach their subject Tackling current historiographical questions in an accessible way the author offers a clear introduction to Marxist views of history key Marxist historians and thinkers and the relevance of Marxist theory and history to students own work This is a concise thorough overview of an important area of historiography The second edition incorporates significant new developments in research including Marxist contributions to the emergence of global maritime and transnational history the discovery of Marx's ecologism and the historical critique of fossil capitalism as a source of environmental disaster a reassessment of gender oppression through social reproduction theory and the contribution of Marxism to debates on race Eurocentrism and whiteness *Alasdair MacIntyre's Engagement with Marxism*, 2008-03-31 Although Alasdair MacIntyre is best known today as the author of *After Virtue* 1981 he was in the 1950s and 1960s one of the most erudite members of Britain's Marxist Left being a militant within first the Communist Party then the New Left and finally the heterodox Trotskyist International Socialism group This selection of his essays on Marxism from that period aims to show that his youthful thought profoundly informed his mature ethics and that in the wake of the collapse of the state capitalist regimes in Russia and Eastern Europe the powerful and optimistic revolutionary Marxist ethics of liberation he articulated in that period is arguably as salient to anti capitalist activists today as it was half a century ago *Marxist Politics* Md. Ayub Mallick, 2022-12-15 This book deals with the main doctrines of Marxist politics Clearly and simply written

the book explores the views of classical Marxists along with the findings of Western and Analytical Marxists. It also shows a distinction between Marxist and non-Marxist views on politics. Their points of difference as well as their common roots are thus clearly accounted for. Marxist politics is a coherent system of ideas and theories of class struggle, party revolution and the state developed in response to a series of major and interrelated changes: the emergence of a capitalist economy, the rise of the modern nation state and the development of modern science which transformed both the society and politics. This book is intended to explore these ideas and theories. Particular emphasis has been put on the ideas and views of critical Marxists in a separate chapter. The book includes brief bibliographical details of major individual thinkers as well as an annotated bibliography for further reading. Print edition not for sale in South Asia, India, Sri Lanka, Nepal, Bangladesh, Pakistan and Bhutan.

Gramsci and Marxist Theory (RLE: Gramsci) Chantal Mouffe, 2014-04-24. This book familiarizes the English speaking reader with the debate on the originality of Gramsci's thought and its importance for the development of Marxist theory. The contributors present the principal viewpoints regarding Gramsci's theoretical contribution to Marxism, focussing in particular on his advances in the study of the superstructures and discussing his relation to Marx and Lenin and his influence in Eurocommunism. Different interpretations are put forward concerning the elucidation of Gramsci's key concepts: namely hegemony, integral state, war of position and passive revolution.

Marx, Marxism and the Question of Eurocentrism Kolja Lindner, 2022-04-13. This book mediates between postcolonial positions that criticize Marxist approaches and Marx's writings for their Eurocentrism and defenders of Marx who claim that this accusation is a myth. In different contributions to this volume, Kolja Lindner pleads for a differentiated assessment of the whole of Marx's work, including less known manuscripts and a theoretical reconstruction of various elements that have come into the focus of postcolonial critique: ethnocentrism, Orientalism, false universalism and the oblivion of modernity's global entanglement. Against this background, two opportunities simultaneously arise: Marx's Eurocentrism can be deconstructed and his growing awareness of global developments and cosmopolitan struggles established.

The SAGE Handbook of Marxism Beverley Skeggs, Sara R. Farris, Alberto Toscano, Svenja Bromberg, 2021-11-17. The past decade has witnessed a resurgence of interest in Marxism both within and without the academy. Marxian frameworks, concepts and categories continue to be narratively relevant to the features and events of contemporary capitalism. Most crucially, an attention to shifting cultural conditions has led contemporary researchers to re-confront some classical and essential Marxist concepts as well as elaborating new critical frameworks for the analysis of capitalism today. The SAGE Handbook of Marxism showcases this cutting edge of today's Marxism. It advances the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory and showcases interventions that set the agenda for Marxist research in the 21st century. A rigorous and challenging collection of scholarship, this book contains a stunning range of contributions from contemporary academics, writers and theorists from around the world and across disciplines, invaluable to scholars and
