Marx And Justice The Radical Critique Of Liberalism:

Marx and Justice Allen E. Buchanan,1982 **Revisiting Marx's Critique of Liberalism** Igor Shoikhet,2019-12-26

Revisiting Marx's Critique of Liberalism offers a theoretical reconstruction of Karl Marx's new materialist understanding of justice, legality and rights through the vantage point of his widely invoked but generally misunderstood critique of liberalism. The book begins by reconstructing Marx's conception of justice and rights through close textual interpretation and extrapolation. The central thesis of the book is firstly that Marx regards justice as an essential feature of any society including the emancipated society of the future and secondly that standards of justice and right undergo transformation throughout history. The book then tracks the enduring legacy of Marx's critique of liberal justice by examining how leading contemporary political theorists such as John Rawls, Jürgen Habermas, Axel Honneth and Nancy Fraser have responded to Marx's critique of liberalism in the face of global financial capitalism and the hollowing out of democratically enacted law. The Marx that emerges from this book is therefore a thoroughly modern thinker whose insights shed valuable light on some of the most pressing challenges confronting liberal democracies today. **Liberalism: Justice and reason** G. W. Smith,2002

Encompassing the relationship between the state and the individual, society and the individual, the nature of freedom and the concept of the person, this four volume set covers the main tenets of the liberal tradition. The collection includes material from the rich background and history of classical writings and also emphasizes modern scholarship and contemporary issues. Fully indexed and including a new introduction by the editor, this is an invaluable reference tool for both researchers and students in the field. **The History of Evil in the Eighteenth and Nineteenth Centuries** Douglas Hedley,2018-06-14

The fourth volume of *The History of Evil* explores the key thinkers and themes relating to the question of evil in eighteenth and nineteenth centuries. The very idea of evil is highly contentious in modern thought and this period was one in which the concept was intensely debated and criticized. The persistence of the idea of evil is a testament to the abiding significance of theology in the period, not least in Germany. Comprising twenty-two chapters by international scholars, some of the topics explored include Berkeley on evil, Voltaire and the Philosophes, John Wesley on the origins of evil, Immanuel Kant on evil, autonomy and grace, the deliverance of evil, utopia and evil, utilitarianism and evil, evil in Schelling and Schopenhauer, Friedrich Nietzsche and the genealogy of evil, and evil and the nineteenth-century idealists. This volume also explores a number of other key thinkers and topics within the period. This outstanding treatment of the history of evil at the crucial and determinative inception of its key concepts will appeal to those with particular interests in the ideas of evil and good.

Croce, Gramsci, Bobbio and the Italian Political Tradition Richard Bellamy,2024-10-31 This book collects 15 essays exploring the Italian political tradition from Beccaria to Bobbio. Particular attention is paid to the ways these theorists linked social with political theory on the one hand and politics with ethics on the other, and to the influence of these links on their differing conceptions of the state and democracy. All shared a neo-Machiavellian concern with the divide separating their

political ideals and the realities of everyday politics and devised diverse strategies for bridging the gap between them As a result they developed distinctively Italian understandings of liberalism Marxism and socialism shaped by a realist approach to politics Among the thinkers discussed are Cesare Beccaria Antonio Genovesi Benedetto Croce Guido de Ruggiero Antonio Gramsci Vilfredo Pareto Gaetano Mosca and Norberto Bobbio

From Class to Race Charles Wade Mills,2003 In *From Class to Race* Charles Mills maps the theoretical route that brought him to the innovative conceptual framework outlined in his academic bestseller *The Racial Contract* 1997 Mills argues for a new critical theory that develops the insights of the black radical political tradition While challenging conventional interpretations of key Marxist concepts and claims the author contends that Marxism has been white insofar as it has failed to recognize the centrality of race and white supremacy to the making of the modern world By appealing to both mainstream liberal values and the structuralism traditionally associated with the left Mills asserts that critical race theory can radicalize the mainstream Enlightenment and develop a new kind of contractarianism that deals frontally with race and other forms of social oppression rather than evading them

Criminal Punishment and Human Rights: Convenient Morality Adnan Sattar,2019-03-05 This book examines the relationship between international human rights discourse and the justifications for criminal punishment Using interdisciplinary discourse analysis it exposes certain paradoxes that underpin the International Bill of Human Rights academic commentaries on human rights law and the global human rights monitoring regime in relation to the aims of punishment in domestic penal systems It argues that human rights discourse owing to its theoretical kinship with Kantian philosophy embodies a paradoxical commitment to human dignity on the one hand and retributive punishment on the other Further it sustains the split between criminal justice and social justice which results in a sociologically ill informed understanding of punishment Human rights discourse plays a paradoxical role vis vis the punitive power of the state as it seeks to counter criminalisation in some areas and backs the introduction of new criminal offences and longer prison sentences in others The underlying priorities it is argued have been shaped by a number of historical circumstances Drawing on archival material the study demonstrates that the international penal discourse produced during the late nineteenth and early twentieth century laid greater emphasis on offender rehabilitation and was more attentive to the social context of crime than is the case with the modern human rights discourse

Justice Ronald L. Cohen, 2013-11-11 Ronald L. Cohen Justice is a central moral standard in social life It is invoked in judging individual persons and in judging the basic structure of societies It has been described as akin to a human hunger or thirst Pascal Pensees cited in Hirschman 1982 p 91 more powerful than any physical hunger and endlessly resilient Pitkin 1981 p 349 The most prominent contemporary theory of justice proceeds from the claim that justice is the first virtue of social institutions as truth is systems of thought Rawls 1971 p 3 However as the following chapters demonstrate justice has a complex and controversial history If as has been claimed justice is a central category of human thought and a central aspect of human motivation can it also be the case that to invoke justice is no more than banging on the table an emotional expression which turns one's demand into an absolute postulate Ross 1959 p 274 If justice is the first virtue of social institutions can the concept of social or economic justice at the same time be entirely empty and meaningless so that any attempt to employ it is either thoughtless or fraudulent Hayek 1976 pp xi xii In a formal sense justice concerns ensuring that each person receives what she or he is due

Spaces of Justice Chris Butler, Edward Mussawir, 2017-02-10 This collection is inspired by the transdisciplinary possibilities posed by the connections between space and justice Drawing on a variety of theoretical influences that include Henri Lefebvre Gilles Deleuze and Felix Guattari Doreen Massey Gillian Rose Walter Benjamin Elias Canetti Antonio Negri and Yan Thomas the contributors to this book conduct a series of jurisprudential aesthetic and political inquiries into just modes of occupying space and the ways in which space comes under the signs of law and justice Bringing together leading critical legal scholars with theorists and practitioners from other disciplines within the humanities Spaces of Justice investigates unexplored associations between law and architectural theory the visual arts geography and cultural studies The book contributes to the ongoing destabilisation of the boundaries between law and the broader humanities and will be of considerable interest to scholars and students with an interest in the normative dimensions of law's spatial turn

Justice Fragmented George C. Pavlich, 2002-09-11 Suppose you have a dispute with your neighbour and wish to secure redress for losses incurred How might the issue be resolved Is it worth the cost and time delay to take the issue to court Or is there some other approach Over the past few decades a range of alternative dispute resolution programmes have emerged to settle conflicts informally outside the courtroom Drawing on real life experiences of community mediation practices in British Columbia Canada the author explores informal justice as an event rendered possible by the fragmentation of justice under postmodern conditions

He develops some of Foucault's ideas on governmentality to erect an analytical framework that does not view community mediation as necessarily empowering or an inevitable expansion of state control. The analysis identifies how one might engage with current versions of community justice and yet avoid the political apathy that too often accompanies such criticism.

Nonsense upon Stilts (Routledge Revivals) Jeremy Waldron, 2014-10-03 In *Nonsense upon Stilts* first published in 1789 Waldron includes and discusses extracts from three classic critiques of the idea of natural rights embodied in the 1789 Declaration of the Rights of Man and the Citizen. Each text is prefaced by an historical introduction and an analysis of its main themes. The collection as a whole is introduced with an essay tracing the philosophical background to the three critiques as well as the eighteenth century idea of natural rights which they attacked. But the point of reproducing these works is not merely historical. Modern attacks on rights based political philosophy mirror the concerns of Bentham, Burke and Marx. Jeremy Waldron has therefore added an extensive concluding essay which relates these classic texts to the modern discussion of rights and re-examines the idea of rights in the light of contemporary critiques. This text provides an invaluable teaching tool for courses in politics and philosophy.
