**Marxism and Problems of Linguistics** Joseph V. Stalin, 2008-03-01 This translation of Marxism and Problems of Linguistics is a reprint of the English language text published in Moscow in 1954 This edition also includes notes from the 1971 Chinese edition      **Marxism and Problems of Linguistics** Joseph Stalin, 1976      **Marxism and Problems of Linguistics** J. V. Stalin, 1976      Marxism and Problems of Linguistics Iosif V. Stalin, 1972      *Stalin on Linguistics and Other Essays* P. Gray, 2002-05-21 Piers Gray was one of the most brilliant literary writers of his generation These essays ranging from Oscar Wilde to Levin from Shakespeare to pulp fiction use the full resources of literary and linguistic analysis to produce a reading of European culture and society in the twentieth century In his final posthumous essay On Linearity Gray summons all his reading and knowledge to deliver his final judgement on life and death      *Problems of Communism* , 1952

*Biography of a Blunder* Dileep Edara, 2016-02-29 Engaging with a critical analysis of the base and superstructure thesis regarding which a surprising number of reputed Marxist thinkers betray a perpetual ambivalence by frequently deploying it in a variety of contexts but simultaneously airing various reservations about it this book proposes a radical departure from the presently predominant understanding of it The popular view of the base as comprising economics and superstructure as encompassing almost all other spheres of social life is criticised as panoramic or panoptic or the extended version to which Marx s rigorously defined base of production relations and superstructure of politico legal spheres is juxtaposed Revisiting Marx s formulations in his famous 1859 Preface described here as his purloined letters the study rehabilitates his restricted version and upholds its conceptual superiority over its extended avatar that is currently ubiquitous The substitution of Marx s restricted version with the widely believed extended version of the thesis is characterised here as a blunder and this book traces the biography of this blunder through the intricate and tortuous theoretical developments that traverse a transnational and multidisciplinary territory constituting the history of Marxism The last chapter argues for a paradigm shift in favour of the mode of production thesis in order to redeem the holistic vision of Marx This shift is necessitated by the extenuation of the status of the base and superstructure thesis that results from the restoration of Marx s restricted version This chapter grapples with the issues involved in preparing the ground for that shift It also contends that although these theoretical shifts are never formulated in a conscious and conclusive manner as is done here the best practices in Marxist analyses are always inspired by the methodological implications of the mode of production thesis and for this reason the thesis is claimed to be the conceptual unconscious of Marxism      Marxism in Asia (RLE Marxism) Colin Mackerras, Nick Knight, 2015-04-17

Marxism is a theory which originated in the context of nineteenth century industrialised Europe Despite its European origins Marxism has actually found greatest significance as a doctrine for change in the context of the underdeveloped peasant societies of Asia This paradox has only been resolved through adaptation of Marxism to suit the specific features of particular Asian societies There has consequently been a differentiation of Marxism along national lines In this book first published in

1985 the theoretical and practical implications for this national differentiation of a universal European theory are explored followed by a more detailed analysis of the manner in which Marxism has developed during different historical periods in particular Asian contexts

**Leo Kofler's Philosophy of Praxis: Western Marxism and Socialist Humanism** Christoph Jünke, 2021-11-29 The German Austrian social theorist and philosopher Leo Kofler 1907 1995 represents what Oskar Negt once called unmutilated living Marxism Throughout his life he dealt with issues of history and modernity Marxist philosophy and the critique of ideology philosophical anthropology and aesthetics In this volume author and Kofler biographer Christoph Jünke elucidates the contours of his philosophy of praxis traces an arc from the socialist classics to postmodernism and outlines the socialist humanist thinker's enduring relevance The book also includes six essays by Leo Kofler published in English for the first time The main work was first published in German as *Leo Koflers Philosophie der Praxis Eine Einführung in sein Denken* by Laika Verlag 2015 ISBN 978 944233 33 8 Copyright by Laika Verlag

**North Korean Ideology** Thomas Stock, 2025-06-30 Where lie the origins of North Korean ideology When why and to what extent did North Korean ideology begin to transform into the idiosyncratic ideology that it is today In this first comprehensive Cold War history of North Korean ideology Thomas Stock traces its development from Soviet Marxism Leninism to the distinct North Korean ideology of today Stock uncovers the Democratic People's Republic of Korea DPRK's historical investment in the Marxist Leninist tradition a global intellectual force whose internal debates and philosophy structured the evolution of North Korean ideology Marxism Leninism varied across space and time whirling in a constant process of mutation in relation to which North Korea's own ideology developed Using Eastern European archival materials North Korean party documents and other new sources this book provides an unprecedented and empirically grounded look into the exact evolutionary process of North Korea's state ideology from its Soviet origins all the way to the iconic *chuch'e* ideology This process was driven not so much by historical legacies such as Confucianism or Kim Il Sung's guerrilla experience than by worldwide Marxist Leninist controversies geopolitical shifts and the interests of party elites Throughout the Cold War North Korea was anything but a spiritually isolated country As a result North Korean ideology too constituted a thoroughly global product not the hermetic construct it is often made out to be
