Marxism And Science Analysis Of An Obsession:

Marxism and Science Gavin Kitching, 2010-11-01 *Marxism and Science*, 1975 *Marx, Engels and the Philosophy of Science* David Bedford, Thomas Workman, 2022-12-31 This book expounds the dialectical conception of science largely implicit in the writings of Marx and Engels offering a sympathetic reconstruction of a philosophy of science commensurate with Marx's thought Drawing on a reading of dialectics found in Plato and Hegel it recasts Marx's implicit ontology in terms of dialectical conceptions of the world as these conceptions have responded to the growing sophistication of modern science It thus deepens our understanding of materialist philosophy as it relates to science and draws out Marx's logic of science in light of continuing discussions As such it will appeal to philosophers with interests in the nature and development of science and Marxist thought **Marx and Wittgenstein** Gavin Kitching, Nigel Pleasants, 2013-01-11 At first sight Karl Marx and Ludwig Wittgenstein may well seem to be as different from each other as it is possible for the ideas of two major intellectuals to be Despite this standard conception however a small number of scholars have long suggested that there are deeper philosophical commonalities between Marx and Wittgenstein They have argued that once grasped these commonalities can radically change and enrich understanding both of Marxism and of Wittgensteinian philosophy This book develops and extends this unorthodox view emphasising the mutual enrichment that comes from bringing Marx's and Wittgenstein's ideas into dialogue with one another Essential reading for all scholars and philosophers interested in the Marxist philosophy and the philosophy of Wittgenstein this book will also be of vital interest to those studying and researching in the fields of social philosophy political philosophy philosophy of social science and political economy Marx's Experiments and Microscopes Paul B. Paolucci, 2019-12-02 In Marx's Experiments and Microscopes Modes of Production Religion and the Method of Successive Abstractions Paul B Paolucci examines how Marx brought conventional scientific practice together with dialectical reason to produce his unique approach to sociological research Though scholars often interpret his work through either a dialectical framework or as an aspirant scientific contender less common are demonstrations of how Marx brought these two forms of inquiry together in ways as familiar to the conventional scientist as they are to the experienced Marxian scholar The book elaborates on how Marx used a method successive abstractions in his study of modes of production as well as how to apply that method to studies in political economy and the sociology of religion **Wittgenstein and the Idea of a Critical Social Theory** Nigel Pleasants, 2002-01-31 This book uses the philosophy of Wittgenstein as a perspective from which to challenge the very idea of critical social theory represented preeminently by Giddens Habermas and Bhaskar Renouncing the quest for an alternative Wittgensteinian theory of social and political life the author shows that Wittgenstein nevertheless has considerable significance for critical thought and practice **Engendered Economics** Ellen Mutari, Heather Boushey, William Fraher, 2016-09-16 This book provides an overview of current developments within feminist political economy including reformulations of economic theory historical and empirical research on the economic roles and

status of women and people of color as well as proposals for broadening the public policy agenda Rather than offering a feminist critique of neoclassical economics this volume presents feminist economics in dialogue with progressive economic theory and public policy It differentiates itself further by addressing issues of class race and sexuality in interaction with gender

Gender and Political Economy Ellen Mutari, Heather Boushey, William Fraher, 1997 Papers presented at a Gender Race Economics and Public Policy conference coordinated by the New School for Social Research *Routledge Handbook of Marxian Economics* David M. Brennan, David Kristjanson-Gural, Catherine P. Mulder, Erik K. Olsen, 2017-03-16

Most developed economies are characterized by high levels of inequality and an inability to provide stability or opportunity for many of their citizens Mainstream economics has proven to be of little assistance in addressing these systemic failures and this has led both scholars and students to seek alternatives One such alternative is provided by Marxian economics In recent decades the field has seen tremendous theoretical development and Marxian perspectives have begun to appear in public discourse in unprecedented ways This handbook contains thirty seven original essays from a wide range of leading international scholars recognized for their expertise in different areas of Marxian economics Its scope is broad ranging from contributions on familiar Marxist concepts such as value theory the labor process accumulation crisis and socialism to others not always associated with the Marxian canon like feminism ecology international migration and epistemology This breadth of coverage reflects the development of Marxian economic and social theory and encompasses both the history and the frontiers of current scholarship This handbook provides an extensive statement of the current shape and future direction of Marxian economics The Routledge Handbook of Marxian Economics is an invaluable resource for students researchers and policy makers seeking guidance in this field It is designed to serve both as a reference work and as a supplementary text for classroom use with applications for courses in economics sociology political science management anthropology development studies philosophy and history

Laclau and Mouffe Anna Marie Smith, 2012-10-12 Laclau and Mouffe *The Radical Democratic Imaginary* is the first full length overview of the important work of Ernesto Laclau and Chantal Mouffe Anna Marie Smith clearly shows how Laclau and Mouffe's work has brought Gramscian poststructuralist and psychoanalytic perspectives to revitalize traditional political theory With clarity and insight she shows how they have constructed a highly effective theory of identity formation and power relations that carefully draws from the criticism of political theory from postmodern anti foundationalist political theory

The Trouble with Theory Gavin Kitching, 2020-07-23 Postmodern theory has engaged the hearts and heads of the brightest students because of its apparent political and social radicalism Despite this Professor Gavin Kitching claims that At the heart of postmodernism is very poor deeply confused and misbegotten philosophy As a result even the very best students who fall under its sway produce radically incoherent ideas about language meaning truth and reality This is not another conservative attack on postmodernism Rather it is a carefully considered analysis from a dedicated university teacher who is convinced that we have gone terribly astray He shows that postmodern

theory is at best irrelevant to and at worst undermining of persuasive political arguments and reveals the basic philosophical confusion at its heart which makes this so Essential reading for any student writing a thesis in the humanities and the social sciences and for their teachers It is the strongest and best attack on the ravages of routine post modernism that I have ever read I applaud the way he lists the good causes that students warmly espouse and then suggests a simpler way to support them without the self destructive it s all just language that is implicit in their work Professor Sir Bernard Crick Emeritus Professor of Politics Birkbeck College University of London Gavin Kitching rattles the cages Will the inmates hear this They should if only for the reason that there is virtue in learning to argue against yourself This is a serious book Professor Peter Beilharz Sociology La Trobe University Required reading for anyone who wants to understand how and why postmodernism has had such disastrous pedagogical consequences Professor David G Stern Philosophy University of Iowa

Constructing Marxist Ethics, 2015-02-04 Does Marxism possess an ethical impulse Is there a moral foundation that underpins the Marxist critique of capitalism and the vision for social progress The essays collected in *Constructing Marxist Ethics* Critique Normativity Praxis argue that there is such an ethical grounding for Marxist theory The essays each from different vantage points construct what a Marxian ethics should look like what kind of values should be at the heart of the Marxian enterprise Contributors are Dan Albanese Paul Blackledge Bob Cannon Tony Burns Ian Fraser Ruth Groff Wadood Hamad Christoph Henning Peter Hudis Lauren Langman George E McCarthy Sean Sayers Michael J Thompson and Lawrence Wilde

The Politics of Knowledge in Central Asia Sarah Amsler, 2007-04-24 Through careful historical and ethnographic research and extensive use of local scholarly works this book provides a persuasive and careful analysis of the production of knowledge in Central Asia The author demonstrates that classical theories of science and society are inadequate for understanding the science project in Central Asia Instead a critical understanding of local science is more appropriate In the region the professional and political ethos of Marxism Leninism was incorporated into the logic of science on the periphery of the Soviet empire This book reveals that science organizes and constructed by Soviet rule was also defined by individual efforts of local scientists Their work to establish themselves between Marx and the market is therefore creating new political economies of knowledge at the edge of the scientific world system

The Hegel-Marx Connection T. Burns, I. Fraser, 2000-07-19 A major and timely re examination of key areas in the social and political thought of Hegel and Marx The editors extensive introduction surveys the development of the connection from the Young Hegelians through the main Marxist thinkers to contemporary debates Leading scholars including Terrell Carver Chris Arthur and Gary Browning debate themes such as the nature of the connection itself scientific method political economy the Hegelian basis to Marx s Doctoral Dissertation human needs history and international relations

The American Bibliography of Slavic and East European Studies for 1994 Patt Leonard, Rebecca Routh, 1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities

Controlling the Weapons of War Brian Rappert, 2013-05-13 A fresh examination of the ethical and intellectual issues and dilemmas associated with attempts to establish formal humanitarian limits on weaponry This new study considers how governments non governmental organizations academics political commentators and others have responded to the predicaments associated with imposing classifications about the relative acceptability of force and what is accomplished in their strategies for doing so It develops these issues through combining thematic and conceptual analysis with the examination of varied cases of prohibitions on conventional and unconventional weapons through customary and statutory laws multilateral treaties UN resolutions and national legislation The book will appeal to students of security studies military technology peace studies international relations and discourse theory

W.E.B. Du Bois Reiland Rabaka, 2017-05-15 Housed in one handy volume for the first time are several of the seminal essays on W E B Du Bois s contributions to sociology and critical social theory from Du Bois as inventor of sociology of race to Du Bois as the first sociologist of American religion from Du Bois as a pioneer of urban and rural sociology to Du Bois as innovator of sociology of gender and culture and finally from Du Bois as groundbreaking sociologist of education and critical criminologist to Du Bois as dialectical critic of the disciplinary decadence of sociology and the American academy What this volume offers that is wholly innovative and distinctive is that it brings together the watershed work of classical and contemporary male and female black and white national and international sociologists and social theorists with the express intent of creating critical inventories and thoroughly interrogating what has been included and what has been excluded when we come to W E B Du Bois s contributions to the discipline of sociology Unlike any other anthologies on Du Bois this volume offers an excellent overview of the critical commentary on arguably one of the most imaginative and innovative perceptive and prolific founders of the discipline of sociology It will therefore be of interest to scholars and students not just in sociology but also Africana studies American studies cultural studies ethnic studies gender studies and postcolonial studies as well as traditional disciplines such as history philosophy political science economics education and religion

Philosophy after Marx Christoph Henning, 2014-04-17 Christoph Henning writes a concise history of misreadings of Marx in the 20th century Focussing on German philosophy from Heidegger to Habermas he also addresses the influence of Rawls and Neopragmatism subsequently scrutinizing a previous history of Marx interpretations that had served as the premises upon which these later works were based Henning sketches a historical trajectory in which a theory of socialist politics enters the fields of economics sociology critical theory and theology before finally overloaded with intellectually dead freight entering into philosophy In so doing he takes a hermeneutic approach to how misreadings in a specific field proliferate into further misreadings across a variety of fields leading to an accumulation of questionable preconceptions With the recent resurgence of interest in Marx Henning s historical recursions make evident where and how academic Anti Marxism had previously got it wrong English translation of *Philosophie nach Marx 100 Jahre Marxrezeption*

J.F. Dorahy, 2019-01-21 The Budapest School Beyond Marxism represents the first systematic and comprehensive study of the post Marxist writings of the Budapest School to be published in English The School itself has long been known in English speaking circles for its neo Marxist critique of the now defunct Soviet system The Budapest School Beyond Marxism enriches this understanding by situating the confrontation with actually existing socialism as but one moment however formative within a much richer and much more theoretically relevant philosophical itinerary From the early critique of alienation through to the contemporary critical theories of modernity The Budapest School Beyond Marxism charts the evolution of the School's thinking with a specific emphasis on the themes of culture critique history and the contingency of modern subjectivity **Science, Worldviews and Education** Michael Matthews, 2009-07-14 This book has its origins in a special issue of the journal Science Education Volume 18 Numbers 6 7 2009 The essay by Costas Skordoulis Science and Worldviews in the Marxist Tradition did not appear in that special issue due to a mistake in production scheduling It was published in an earlier issue of the journal Volume 17 Number 6 2008 but has been included in this book version of the special issue As explained in the Introduction the catalyst for the journal special issue was the essay on Science Worldviews and Education submitted to the journal by Hugh G Gauch Jr This was circulated to the other contributors who were asked to write their own contribution in the light of the arguments and literature contained in the paper Hugh made brief Responses and Clarifications after the papers were written However the Tanis Edis article on Islam and my own article on Priestley were processed too late to benefit from Hugh's appraisal The journal is associated with the International History Philosophy and Science Teaching Group which was formed in 1987 The group stages biennial international conferences and occasional regional conferences details can be found at www.ihpst.org The group though the journal conferences and its electronic newsletter at www.ihpst.org
