Marxism and Art Berel Lang, Forrest Williams, 1972 *Marxism and Art* Berel Lang, Forrest Williams, 1978 *William Morris and the Aesthetic Constitution of Politics* Bradley J. Macdonald, 2024-11-08 While William Morris 1834 1896 is generally considered one of the most important cultural and political figures of late Victorian England there is avid disagreement on the way in which we can understand the interconnections between his aesthetic commitments as a celebrated poet and decorative artist influenced by Pre Raphaelitism and Aestheticism and his later revolutionary socialist advocacy As opposed to dominant interpretations within Morris scholarship Bradley J Macdonald argues for the importance of understanding the role a critical notion of beauty had in moving Morris toward a theory of socialism that took seriously the way in which desire pleasure and beauty as applied to all externals of human life not just art works could be regenerated only through radical transformations in socioeconomic life Consequently William Morris s development represents an interesting example of cultural politics Given this genealogy Macdonald clarifies Morris s mature political theory incorporated a very important commitment to not just economic justice but also among other distinctive applications ecological sustainability making him one of the first eco socialist theorists within the Western tradition and also an early proponent of what is today known as degrowth communism

Catherine Wilkins, 2017-07-05 Landscape Imagery Politics and Identity in a Divided Germany 1968-1989 explores the communicative relationship between German landscape painting and the viewing public that developed in the wake of the student revolutions of the late 1960s The book demonstrates that contrary to some historical thinking more similarities than differences characterized the sociopolitical concerns of East and West Germans during the late Cold War Era and that it was these shared issues that were reflected in the revival of the Romantic painting genre Catherine Wilkins focuses on recovering the agency of the individual artist and in revising historiography with sensitivity to narration from below Interdisciplinary in nature art historians can benefit from the study's analysis of images and artists not widely known outside of Germany Additionally the consolidation of statistics and data regarding German postwar cultural policy are relevant for political and cultural historians The author contributes to the ongoing multidisciplinary debates regarding Histoire Crois in arguing that a clear dichotomy between East Germany and West Germany did not exist but rather that the residents of both nations shared a concern over some of the same issues of the period and memory studies by using images as primary historical sources able to be employed in the recovery of potentially subversive memory and identity Issues related to gender relations environmentalism and spiritual belief are addressed by Wilkins with appeal for scholars working with those particular themes Poststructuralist and literary theorists as well can find arguments supporting an alternative means of writing history through artworks and private memories

"Irony, Satire, Parody and the Grotesque in the Music of Shostakovich " Esti Sheinberg,2017-07-05 The music of Shostakovich has been at the centre of interest of both the general public and dedicated scholars throughout the last twenty years Most of the relevant literature however is of a biographical nature The focus of this book is musical irony It offers new methodologies for the semiotic analysis of music and inspects the ironical messages in Shostakovich s music independently of political and biographical bias Its approach to music is interdisciplinary comparing musical devices with the artistic principles and literary analyses of satire irony parody and the grotesque Each one of these is firstly inspected and defined as a separate subject independent of music The results of these inspections are subsequently applied to music firstly music in general and then more specifically to the music of Shostakovich The composer s cultural and historical milieux are taken into account and where relevant inspected and analysed separately before their application to the music

Shakespeare and Impure Aesthetics Hugh Grady,2009-08-13 Shakespeare and Impure Aesthetics explores ideas about art implicit in Shakespeare s plays and defines specific Shakespearean aesthetic practices in his use of desire death and mourning as resources for art Hugh Grady draws on a tradition of aesthetic theorists who understand art as always formed in a specific historical moment but as also distanced from its context through its form and Utopian projections Grady sees A Midsummer Night s Dream Timon of Athens Hamlet and Romeo and Juliet as displaying these qualities showing aesthetic theory s usefulness for close readings of the plays The book argues that such social minded impure aesthetics can revitalize the political impulses of the new historicism while opening up a new aesthetic dimension in the current discussion of Shakespeare

Literature and Propaganda A. P. Foulkes,2013-10-08 First Published in 2002 It is easy to see that we are living in a time of rapid and radical social change It is much less easy to grasp the fact that such change will inevitably affect the nature of those disciplines that both reflect our society and help to shape it Yet this is nowhere more apparent than in the central field of what may in general terms be called literary studies New Accents is intended as a positive response to the initiative offered by such a situation Each volume in the series will seek to encourage rather than resist the process of change To stretch rather than reinforce the boundaries that currently define literature and its academic study
