Marxism And The Good Society:

Marxism and the Good Society John P. Burke, Lawrence Crocker, Lyman H. Legters, 2011-03-03 These 1981 essays examine the problems that have arisen from attempts to implement Marx's critical theory to which the concept of the good society is central. As long as socialist regimes continue to invoke Marx, they subject themselves to the norms contained within Marx's understanding of freedom in a community.

Marx, Marxism and Utopia Darren Webb, 2019-07-30 This title was first published in 2000. This engaging book suggests that Marx was right to reject utopian socialism on the grounds that it undermined the principles of proletarian self-emancipation and self-determination. As a theoretician of the proletarian class, Marx sought to capture the spirit of revolution in a manner which precluded the need for utopian philanthropy and the messianic elitism which invariably accompanied it. In a powerful and original central argument, the book suggests that the categories which together define Marx's own utopia were nothing more than theoretical by-products of the models employed by Marx in order to supersede the need for utopianism. As such, Marx was an accidental utopian. Rather than legitimating utopianism, however, the author argues that this conclusion reinforces the need to develop Marx's anti-utopian project further. Emphasising the contemporary relevance of Marx's original critique, the conclusion suggests that the future of socialism lies in its ability to harness not the spirit of utopia but the spirit of adventure.

Advancing Utopistics Mohammad H. Tamdgidi, 2015-12-03 Mohammad H. Tamdgidi is Assistant Professor of Sociology at the University of Massachusetts Boston. He is the Founding Editor of Human Architecture Journal of the Sociology of Self-Knowledge.

Marxism And The Moral Point Of View Kai Nielsen, 2021-11-28 Marxism and the Moral Point of View attempts to say what consistent Marxists working within the parameters of the canonical conceptions of Marxism should say about morality. This includes what they should say about the function of morality in society, about the extent of moral comment they can justifiably make, and about freedom, equality, and justice, including the justice of whole social formations. Karl Marx and most Marxists follow him; was opposed.

Ethical Marxism Bill Martin, 2013-12-01 This book aims to reinvigorate the Marxist project and the role it might play in illuminating the way beyond capitalism. Though political economy and scientific investigation are needed for pure Marxism, Martin's argument is that the extent to which these elements are needed cannot be determined within the conversations of political economy and other investigations into causal mechanisms. What has not been done, and what this book does, is to argue for the possibility of a rethought Marxism that takes ethics as its core, displacing political economy and scientific investigation.

A Short History Of Soviet Socialism Mark Sandle, 2003-09-16 Mark Sandle is Lecturer in Russian and East European History at De Montfort University. This book is intended for undergraduate courses on 20th-century Soviet history, the Cold War, European history, Soviet studies, History of political thought, Marxism, Leninism, The Left.

Humanist Marxism and Wittgensteinian Social Philosophy Susan M. Easton, 1983

Whither Marxism? Bernd Magnus, Stephen Cullenberg, 2013-10-28 This is the companion volume to *Spectres of Marx* and tackles the central theme of the fate of

Marxism after the global collapse of communism *Marx and the Disillusionment of Marxism* Walter L. Adamson,1985-01-01 Adamson argues that Marxism teaches us how to interpret social and historical reality and to relate that interpretation to our current political concerns *Marx and Ethics* Philip J. Kain,1988 This book traces the development of Marx's ethics as they underwent various shifts and changes during different periods of his thought In his early writings his ethics are based on a concept of essence much like Aristotle's which Marx tries to link to a principle of universalization similar to Kant's categorical imperative In the period 1845-6 Marx abandoned this view holding morality to be incompatible with his historical materialism In the later writings Marx is less of a determinist and he no longer wants to reject morality However he does want to transcend a morality of burdensome obligation and constraint so as to realize a community built upon spontaneous bonds of solidarity **The Concept of the Individual in the Thought of Karl Marx** Zhi Li,2023-04-08 This book reconstructs the concept of the individual in Marx as the key to a fresh interpretation of Marxian philosophy Marx moved from an examination of the contingency and indeterminacy of individual consciousness in his early years to a critique of the atomistic individual and materialised social relations in his later years His thought proposes that real individuals are the basis for an understanding of human society that promotes the emancipation of humankind Marx's philosophy has often been misunderstood as lacking a concept of the individual In China this misunderstanding not only relates to cultural and linguistic particularities the word individual is seldom used in Chinese but also relates to a misleading view of socialism and communism This book helps remedy this misunderstanding and draws important comparisons and contrasts between Marx's concept of the individual with that of liberalism and between Western and Eastern Marxism

Marx and Marxism Peter Worsley,2013-08-21 Discusses varieties of Marxism distinguishing between ideas that remain valid those that are contestable and those that should be discarded Emphasises connections between theoretical debates real political struggles **The African Philosophy Reader** Pieter Hendrik Coetzee,A. P. J. Roux,1998 This collection provides a thorough introduction to African philosophy literature religion and anthropology through twenty five readings from key thinkers They discuss topics such as African culture epistemology metaphysics and religion political philosophy aesthetics and explore rationality and explanation in an African context Problems of Communism ,1969 Karl Marx's Economics John Cunningham Wood,1993 *Marx 2020* Ronaldo Munck,2016-08-15 The 2008 financial crisis revitalised the question of whether capitalism was working and how it might be overturned More recently the growth of new social movements across the globe are posing a threat to the economic and political status quo with Marxist ideas rejuvenated for the 21st century In this provocative and critically engaged introduction Ronaldo Munck applies Marx's theories to the most pressing issues of our times the environmental crisis austerity international development religion nationhood the role of women and LGBTQ communities Crucially he shows the far reaching contribution Marx can make to both contemporary debate and political action Accessible and wide ranging *Marx 2020* is essential reading for anyone interested in the state of the modern world

and the ideas needed for effective change **Libertarian Communism** Ernesto Screpanti, 2007-10-31 Central to this book is a discussion of the notion of freedom in Marx and Engel's work The book argues that the libertarian foundations of political economy were present in Marx's and Engel's work and utilizes contemporary theories of freedom to reinterpret and analyse their original work *Against the Market* David McNally, 1993-12-17 In this innovative book David McNally develops a powerful critique of market socialism by tracing it back to its roots in early political economy He ranges from Adam Smith's attempt to reconcile moral philosophy with market economics to Malthus's reformulation of Smith's political economy which made it possible to justify poverty as a moral necessity Smith's economic theory was also the source of an attempt to construct a critique of capitalism derived from his conception of free and equal exchange governed by natural price This Smithian forerunner of today's market socialism sought to reform the market without abolishing the social relations on which it was based McNally explores this tradition sympathetically but exposes its fatal flaws The book concludes with an incisive consideration of efforts by writers such as Alec Nove to construct a feasible model of market socialism McNally shows these efforts are still plagued by the failure of early Smithian socialism to come to grips with the social foundations of the market the commodification of labor power which is the key to market regulation of the economy The results he argues are neither socialist nor workable Coalition Strategies of Marxist Parties Trond Gilberg, 1989 During the early part of this decade many individuals both policy makers and scholars wondered about the new look of some communist parties as they billed themselves as potential participants in the pluralistic game of politics in many parts of the world This image was certainly different from the old notion of dedicated revolutionaries who scornfully rejected the existing order and plotted its overflow How genuine was the new look Were the communists sincere when they discussed interaction with other elements of political order in which they operated What were their tactical policies in pursuit of these strategic goals Some of us began to examine these questions more systematically We ran a panel at an academic conference enjoyed the feedback from our colleagues and began the process of writing this book Now several years later it is a finished product after many full scale revisions and updates The topic is still very relevant and that shows the enduring importance of the questions asked a number of years ago Scholars will need to return to this question in the future perhaps the best strategy is a continuous examination of this crucial subject **Marxism, the Millennium and Beyond** M. Cowling, P. Reynolds, 2000-10-31 This collection investigates the state of play in studies informed by Marxism Among other contributions it includes an essay on state theory by Bob Jessop a discussion of fundamental socialist values using analytical Marxism by Alan Carling
