Property in Social Continuity Franz von Benda-Beckmann, 2013-11-11 Learn the laws of inheritance and teach them to the people for they are one half of useful knowledge t 1ohannned Fyze 1955 329 When the prophet created this aphorism he had in mind the rules of inheritance law revealed to him by Allah We could apply it to social anthropology as well since the inheritance of property and the succession to positions of socio political authority are among the most important elements of social organization They are the vehicles of continuity which maintain property and authority through time In many societies and particularly in those generally studied by anthropologists inheritance and succession are closely interconnected with kinship and descent and provide the economic and political substance for the existence and continuity of kinship or descent based social groups They are as it were the flesh on the bare bones of kinship relations The importance of inheritance has of course not escaped the notice of social and legal anthropologists and in recent years several studies have ably demonstrated the point Radcliffe Brown 1952 Goodenough 1951 Leach 1961 b Goody 1962 Lloyd 1962 Gray and Gulliver eds 1964 Derrett ed 1965 Gluckman 1972 Moore 1969 Burling 1974 Yet in general property and inheritance have rather been treated as an appendix to economic and kinship studies

Marx's Ghost Thomas C. Patterson, 2020-08-06 How did our current society come into being and how is it similar to as well as different from its predecessors These key questions have transfixed archaeologists anthropologists and historians for decades and strike at the very heart of intellectual debate across a wide range of disciplines Yet scant attention has been given to the key thinkers and theoretical traditions that have shaped these debates and the conclusions to

which they have given rise This pioneering book explores the profound influence of one such thinker Karl Marx on the course of twentieth century archaeology Patterson reveals how Australian archaeologist V Gordon Childe in the late 1920s was the first to synthesize discourses from archaeologists sociologists and Marxists to produce a corpus of provocative ideas He analyzes how these ideas were received and rejected and moves on to consider such important developments as the emergence of a new archaeology in the 1960s and an explicitly Marxist strand of archaeology in the 1970s Specific attention is given to the discussion arenas of the 1990s where archaeologists of differing theoretical perspectives debated issues of historic specificity social transformation and inter regional interaction How did the debates in the 1990s pave the way for historical archaeologists to investigate the interconnections of class gender ethnicity and race In what ways did archaeologists make use of Marxist concepts such as contradiction and exploitation and how did they apply Marxist analytical categories to their work How did varying theoretical groups critique one another and how did they overturn or build upon past generational theories Marx's Ghost Conversations with Archaeologists provides an accessible guide to the theoretical arguments that have influenced the development of Anglophone archaeology from the 1930s onwards It will prove to be indispensable for archaeologists historians anthropologists and social and cultural theor

Evolutionism and Its Critics Stephen K. Sanderson, 2015-12-03 Evolutionism and Its Critics is a critical history of evolutionary theories in the social sciences and a defense of them against their many critics Sanderson deconstructs not only the wide array of social evolutionary theories but the criticisms of the antievolutionists Deconstructing evolutionary theories means laying bare their fundamental epistemological methodological conceptual and theoretical assumptions and principles Deconstructing antievolutionism means showing just where and how the critics have for the most part gone wrong But Evolutionism and Its Critics aims to reconstruct as well as deconstruct and does this by building on the shoulders of past giants of evolutionary theorizing a comprehensive evolutionary interpretation of human society based on abundant scientific and historical evidence
