Marxist Thought On Imperialism Survey And Critique:

Marxist Thought on Imperialism Charles A. Barone, 2016
Barone, 2016-07-08 First Published in 2015 Classic and contemporary Marxist theoretical works on imperialism are systematically summarized and critiqued in this useful survey Throughout the discussion attention is focused analyses of the causes of capitalist foreign economic expansion and the impact of that expansion The study begins with a discussion of Marx's political economy and the work of early theorists of imperialism Vladimir Lenin Rosa Luxemburg Nikolai Bukharin and Rudolf Hilferding This analysis then serves as the basis for a critical survey of the major strands of postwar Marxist thought including the work of Paul Baran and Paul Sweezy Harry Magdoff James O Connor Andre Gunder Frank and more Following the survey are extended critiques of Baran and Sweezy's theory of monopoly capitalism and Arghiri Emmanuel's theory of unequal exchange

The Study of International Relations Hugh C. Dyer, Leon Mangasarian, 1989-10-16 This wide ranging study surveys the present state of international relations as an academic field It locates and assesses recent developments in the field in short what is being done where by whom and why The editors have focused on some central and controversial theoretical issues and included surveys of principal sub fields as well as the various approaches to the study of international relations in different countries The book provides a comprehensive overview of an important and fast growing area of academic endeavour and is essential reading for teachers and students of international politics and the social sciences at large

Routledge Encyclopedia of International Political Economy R. J. Barry Jones, 2002-09-11 This three volume Encyclopedia offers the first comprehensive and authoritative survey of the rapidly developing field of international political economy Its entries cover the major theoretical issues and analytical approaches within the field The set also provides detailed discussion of the contributions of key individuals and surveys a wide range of empirical conditions and developments within the global political economy including its major institutions The Encyclopedia has been designed to be eclectic in approach and wide ranging in coverage Theoretical entries range from discussions of the definition and scope of the field through core methodological questions such as rationalism and the structure agent problem to surveys of the major theories and approaches employed in the study of the international political economy

Historical Companion to Postcolonial Literatures in English Prem Poddar, 2019-08-07 This is the first reference guide to the political cultural and economic histories that form the subject matter of postcolonial literatures written in English The focus of the Companion is principally on the histories of postcolonial literatures in the Anglophone world Africa the Middle East South Asia South east Asia Australia and New Zealand the Pacific the Caribbean and Canada There are also long entries discussing the literatures and histories of those further areas that have also claimed the title postcolonial notably Britain East Asia Ireland Latin America and the United States The Companion contains 220 entries written by 150 acknowledged scholars of postcolonial history and literature covers major events ideas movements and figures in postcolonial histories long regional survey essays on

historiography and women's histories Each entry provides a summary of the historical event or topic and bibliographies of postcolonial literary works and histories Extensive cross references and indexes enable readers to locate particular literary texts in their relevant historical contexts as well as to discover related literary texts and histories in other regions with ease

Positivist and Political-Economic Theories of International Relations Amartya Mukhopadhyay, 2023-10-20 This book provides an introduction to positivist pluralist theories of international relations IR which emerged during the early and mid 1950s along with Marxist political economic and non Marxist economic theories of IR Positivist and Political Economic Theories of International Relations is an in depth critical study of texts and literature which highlight IR's methodological pluralism even after it gained maturity It examines how pluralist political status quo and radical economic criticism coexist in discrete areas of the discipline Insights are provided into key positivist liberal pluralist theories namely decision making approaches and theories of integration regionalism interdependence and regime It discusses the four political economic and critical theories of Marxism dependency world systems and international political economy The book as an advanced supplementary reader will be of great interest to researchers and students of international relations history law and the multidisciplinary social scientific field of political economy Routledge Encyclopedia of International Political Economy: Entries G-O R. J. Barry Jones, 2001 This important new work is the first comprehensive reference to the rapidly developing field of international political economy IPE Featuring over 1200 A Z entries the coverage encompasses the full range of issues concepts and institutions associated with IPE in its various forms Comprehensively cross referenced and indexed each entry provides suggestions for further reading along with guides to more specialized sources Selected entries include African Development Bank benign neglect Black Monday casino capitalism debt management efficiency floating exchange rates General Agreement on Tariffs and Trade GATT information society economy Organization of Petroleum Exporting Countries OPEC Microsoft multinational corporations definitions NATO patents rent seeking Schellin Thomas tax havens trusts Value Added Tax VAT zero sum games and many more *Before the Revisionist Controversy (RLE Marxism)* H. Kendall Rogers, 2015-04-24 In this book first published in 1992 the author examines the polemic fought by German Social Democratic Party leaders and intellectuals Karl Kautsky and Eduard Bernstein against what they perceived to be misunderstandings of Marxism propagated by members of the Social Democratic Federation SDF in England and by the socialist leader Wilhelm Liebknecht in Germany The debate raised basic questions of socialist theory including whether the program of Marx and Engels called for scholarly study parliamentary democracy and gradual social evolution or for Utopian speculation economic collapse and violent rebellion **Marxism and International Relations**, 2024-04-30 Where is Marxism in International Relations The answer lies in this collective work by Brazilian authors who have looked to Marxist theory for an alternative perspective and therefore outside the dominant ideas in the field to analyse International Relations Specifically the answer is divided into themes key ideas by Marx and Engels for IR Marxist thinkers as IR theorists Marxist theories on imperialism and

the Latin American theory on dependency With the end result this book adds to the international intellectual efforts to criticize and overcome capitalism

The debate on the rise of the British Empire Anthony Webster, 2024-06-04 This fascinating and highly useful book examines the rise of the British empire and the various debates among historians of imperialism over the past two hundred years It discusses why the empire is so attractive to historians why there is so much debate and controversy surrounding the subject and how different generations of historians have read the various episodes in the history of the empire often radically differently Chapters look at the enduring fascination with the empire among historians early twentieth century economic explanations for the dynamic expansion of the empire in the Victorian period the controversies surrounding empire in the 1950s post colonial theory and its critics religion race gender and class and debates on capitalism and the empire since the 1980 The final chapter investigates how Britain's imperial history might be viewed in years to come An engaging and useful work of historiography this book will be essential reading for students of British imperialism attempting to get to grips with the subject

Theories of International Relations Siegfried Schieder, Manuela Spindler, 2014-05-23 This book is a comprehensive guide to theories of International Relations IR Given the limitations of a paradigm based approach it sheds light on eighteen theories and new theoretical perspectives in IR by examining the work of key reference theorists The chapters are all written to a common template The introductory section provides readers with a basic understanding of the theory's genesis by locating it within an intellectual tradition paying particular attention to the historical and political context The second section elaborates on the theory as formulated by the selected reference theorist After this account of the theory's core elements the third section turns to theoretical variations examining conceptual subdivisions and overlaps further developments and internal critique The fourth section scrutinizes the main criticisms emanating from other theoretical perspectives and highlights points of contact with recent research in IR The fifth and final section consists of a bibliography carefully compiled to aid students further learning Encompassing a broad range of mainstream traditional theories as well as emerging and critical perspectives this is an original and ground breaking textbook for students of International Relations The German edition of the book won the Geisteswissenschaften International Prize collectively awarded by the Fritz Thyssen Foundation the German Federal Foreign Office and the German Publishers Booksellers Association

America in the Modern World Stephen Burman, 1991-11-15 The past few years have witnessed changes which will be of lasting significance in international affairs The revolutions in Eastern Europe and the Soviet Union for example are fundamental not only for those societies but also in their implications for the rest of the world They signal the passing of the international order that has governed the post war era Since the United States was the principal architect of that order its passing will have fundamental implications for America's role in the modern world It has been suggested that this transformation will reduce the US to the status of an ordinary country indeed that the signs of decline are already everywhere apparent In this book the author argues to the contrary that the emerging new world order offers great

opportunities to the US to maintain its status as the leading power in the world **Contextualizing Classics** John Peradotto, 1999 This collection of original essays examines innovations in both the theory and practice of classical philology The chapters address interdisciplinary methods in a variety of ways Some apply theoretical insights derived from other disciplines such as folklore studies performance theory feminist criticism and the like to classical texts Others examine the relationships between classics and cultural studies popular literature film art history and other related disciplines Others again look to the evolution of theoretical methods within the discipline of classics Taken together the essays offer a spectrum of new approaches in the classics and their place within the profession America in the Modern World Palgrave Macmillan Ltd, 2016-04-30 The past few years have witnessed changes which will be of lasting significance in international affairs The revolutions in Eastern Europe and the Soviet Union for example are fundamental not only for those societies but also in their implications for the rest of the world They signal the passing of the international order that has governed the post war era Since the United States was the principal architect of that order its passing will have fundamental implications for America's role in the modern world It has been suggested that this transformation will reduce the US to the status of an ordinary country indeed that the signs of decline are already everywhere apparent In this book the author argues to the contrary that the emerging new world order offers great opportunities to the US to maintain its status as the leading power in the world

Realism in International Relations and International Political Economy Stefano Guzzini, 1998 Guzzini takes a fresh look at the development of realism in International Relations both in terms of external movement in international affairs and the paradigmatic alterations which have taken place within the intellectual discourse itself *Colonial Discourse and Post-colonial Theory* Patrick Williams, Laura Chrisman, 1994 Provides an in depth introduction to debates within post colonial theory and criticism The many contributors include Frantz Fanon Amilcar Cabral Gayatri Chakravorty Spivak Homi Bhabha Edward Said Anthony Giddens Anne McClintock Stuart Hall Paul Gilroy and bell hooks *The Bruce B. Lawrence Reader* Bruce B. Lawrence, 2020-12-18 Over the course of his career Bruce B Lawrence has explored the central elements of Islamic civilization and Muslim networks This reader assembles more than two dozen of Lawrence's key writings among them analyses of premodern and modern Islamic discourses practices and institutions and methodological reflections on the contextual study of religion Six methodologies serve as the organizing rubric theorizing Islam revaluing Muslim comparativists translating Sufism deconstructing religious modernity networking Muslims and reflecting on the Divine Throughout Lawrence attributes the resilience of Islam to its cosmopolitan character and Muslims engagement in cross cultural dialogue Several essays also address the central role of institutional Sufism in various phases and domains of Islamic history The volume concludes with Lawrence's reflections on Islam's spiritual and aesthetic resources in the context of global community Modeling what it means to study Islam beyond political and disciplinary borders as well as a commitment to linking empathetic imagination with critical reflection this reader presents the broad arc of Lawrence's prescient contributions to

the study of Islam **Appalachia's Path to Dependency** Paul Salstrom, 2021-12-14 In *Appalachia's Path to Dependency* Paul Salstrom examines the evolution of economic life over time in southern Appalachia. Moving away from the colonial model to an analysis based on dependency, he exposes the complex web of factors: regulation of credit, industrialization, population growth, cultural values, federal intervention that has worked against the region. Salstrom argues that economic adversity has resulted from three types of disadvantages: natural, market, and political. The overall context in which Appalachia's economic life unfolded was one of expanding United States markets and, after the Civil War, of expanding capitalist relations. Covering Appalachia's economic history from early white settlement to the end of the New Deal, this work is not simply an economic interpretation but draws as well on other areas of history. Whereas other interpretations of Appalachia's economy have tended to seek social or psychological explanations for its dependency, this important work compels us to look directly at the region's economic history. This regional perspective offers a clear-eyed view of Appalachia's path in the future.

Postcolonialism Robert J. C. Young, 2016-10-17 This seminal work, now available in a 15th anniversary edition with a new preface, is a thorough introduction to the historical and theoretical origins of postcolonial theory. It provides a clearly written and wide-ranging account of postcolonialism, empire, imperialism, and colonialism, written by one of the leading scholars on the topic. Details the history of anti-colonial movements and their leaders around the world, from Europe and Latin America to Africa and Asia. Analyzes the ways in which freedom struggles contributed to postcolonial discourse by producing fundamental ideas about the relationship between non-western and western societies and cultures. Offers an engaging yet accessible style that will appeal to scholars as well as introductory students.

The Rise and Fall of Modern Empires, Volume III Sarah Stockwell, 2017-03-02 Few aspects of the history of modern empires are of such significance as their economics and politics. These factors are inextricably linked; in many analyses, they have generated extensive historiographical debate and are currently the subject of some of the freshest and liveliest scholarship. The articles and chapters, which are brought together in this volume, relate not only to the European colonial empires but also to the Napoleonic, Russian, and Japanese empires. The collection is strongly comparative in approach, with the articles arranged into thematic sections on the place of politics and economics in the rise and fall of modern empires, the causal relationship between modern empires and colonialism, global and metropolitan economic transformations, and the technologies of rule which provided the frameworks through which colonial economies were managed and rights defined. The collection reflects new approaches as well as the continuing importance of issues addressed in an older historiography, and the thematic arrangement produces useful juxtapositions of older and newer literatures. The substantial introduction explores the themes and identifies key historiographical trends in relation to each.
