Misconceptions Naomi Wolf, 2003 , **Women's Fiction and Post-9/11 Contexts** Peter Childs, Claire Colebrook, Sebastian Groes, 2014-10-21 9 11 is not simple a date on the calendar but marks a distinct historical threshold ushering in the war on terror various states of emergency a supposed clash of civilizations and the putative legitimization of counter democratic procedures ranging from extraordinary renditions to enhanced interrogation Perhaps no date since Virginia Woolf declared that on or about December 1910 human character changed has marked such a singular point in the perception of time identity and nature Women's writing has always been something of a counter canon offering modes of voice and point of view beyond that of the man of reason This collection of essays explores the two problems of what it means to write as a woman and what it means to write in the twenty first century

Selfishness and Selflessness Linda L. Layne, 2020-04-09 We are said to be suffering a narcissism epidemic when the need for collective action seems more pressing than ever The traits of Selfishness and selflessness address the proper and improper relationship between one's self and others The work they do during periods of social instability and cultural change is probed in this original interdisciplinary collection Contributions range from an examination of how these concepts animated the eighteenth century anti slavery campaigners to a dissection of the way middle class mothers experiences illustrate gendered struggles over how much and to whom one is morally obliged to give White Feminists and Contemporary Maternity D. Hallstein, 2010-03-29 This work explores matrophobia the fear not of one's mother or of motherhood but of becoming one's mother in past and present white feminist analyses of motherhood and mothering By tracing white second wave feminism's strategic choice to organize first as sisters then as daughters O'Brien Hallstein argues matrophobia became embedded in past and continues to linger in contemporary feminist analyses As a result contemporary analyses reveal crucially important but limited understandings of contemporary motherhood and mothering This important

work concludes that matrophobia can be reduced and eliminated by reorienting analyses to mutual responsiveness between sisters and daughters second and third wave feminists *The Maternal Tug: Ambivalence, Identity, and Agency* Adams Sarah LaChance, 2020-02-01 While the existence of maternal ambivalence has been evident for centuries it has only recently been recognized as central to the lived experience of mothering This accessible yet intellectually rigorous interdisciplinary collection demonstrates its presence and meaning in relation to numerous topics such as pregnancy birth Caesarean sections sleep self estrangement helicopter parenting poverty environmental degradation depression anxiety queer mothering disability neglect filicide and war rape Its authors deny the assumption that mothers who experience ambivalence are bad evil unnatural or insane Moreover historical records and cross cultural narratives indicate that maternal ambivalence appears in a wide range of circumstances but that it becomes unmanageable in circumstances of inequity deprivation and violence From this premise the authors in this collection raise imperative ethical social and political questions suggesting possibilities for vital cultural transformations These candid explorations demand we rethink our basic assumptions about how mothering is experienced in everyday life *Birthered in Prayer* Kim Barker, Leigh Harrison, Linda de Meillon, 2016-03-01 A hopeful grace filled companion for the 9 months of pregnancy *Birthered in Prayer* uniquely addresses and supports the spiritual journey of mothers to be As the authors moms say it s the book they longed to read but never found while they were pregnant Filled with lively thoughtful honest and been there stories this book deals with not only the emotional and physical facets of this overwhelming life experience but also the spiritual needs From the moment you know you re pregnant you enter a time of transition a time of waiting and preparing as you anticipate the arrival of the new little person who will share your life Pregnancy can be a God given stopping point an opportunity to reflect on our lives values and relationships to reevaluate our choices and priorities and to make some adjustments write authors Barker de Meillon and Harrison Even more importantly pregnancy can offer an occasion to draw closer to God and encounter God in a new way Each chapter includes honest humorous and touching stories questions to think about journaling prompts and prayer exercises *Birthered in Prayer* gives you a safe place to acknowledge your thoughts and feelings as you read wisdom from scripture and stories from mother sages It focuses not just on preparing for childbirth but also motherhood The authors invite you on a journey of awareness and growth that will build a strong foundation for your life and your family As Barker de Meillon and Harrison say it takes courage to become aware to encounter and be encountered by God And it takes courage to be a mother **Phenomenology** 2010 Michael Barber, Lester E. Embree, 2010 *How She Really Does It* Wendy Sachs, 2009-04-27 The kids are sick but the boss needs the presentation on her desk by ten The parent child kindergarten brunch can t be missed yet the business meeting beckons When the only thing she knows for sure is that her day will bring a new set of challenges and priorities to be juggled how does a stay at work mom do it all Wendy Sachs stay at work mother of two has interviewed women from every walk of life from celebrities like makeup maven Bobbi Brown designer Vera Wang CNN s Soledad O Brien the Today

Show Ann Curry to everyday moms from all over the country and has uncovered some inspiring answers For starters some stay at work moms have given up striving for balance for true happiness and sanity integration is the real key Others have discovered that compartmentalization wearing different hats at different times of day is the only way to thrive For all the psychological emotional and financial payback of work is what keeps them feeling alive even if they could afford not to work and many can afford the choice they wouldn't have it any other way Demonstrating that a byproduct of having career ambition is a happier marriage and family How She Really Does It will validate the millions of women now attempting to have it all or at least some of it all the time Revealing the keys to staying at work staying sane staying satisfied and staying at the heart of her family as well How She Really Does It is a modern working woman's handbook **The Way of the Warrior Mama** Sally Clark, 2018-09-04 The Way of the Warrior Mama shows parents how to protect their teenage daughter and conquer their own fears in raising her If you are a mom you are worried about your daughter surviving the adolescent years safe and sound In a culture that encourages kids to be sexy long before they reach puberty and when one in four college women report surviving rape or attempted rape and one in ten high school girls is the victim of date rape the prospect of raising a teenage girl can be daunting By tackling the subject of sexual assault head on Sally Clark offers a roadmap to navigating one of the most treacherous parts of the journey from girlhood to womanhood Sally speaks directly to moms who are overly anxious about keeping their daughters safe and shows them that the crucial element in raising a strong resilient daughter lies in healing and addressing their own adolescent wounds Through interviews with experts and leading practitioners in fields ranging from adolescent psychology to mindful self compassion The Way of the Warrior Mama teaches proven concrete and innovative techniques to dramatically reduce parenting stress and increase mothers' faith that they can protect their daughter *Matricentric Feminism* Andrea O'Reilly, 2016-10-01 The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face social economic political cultural psychological and so forth are specific to women's role and identity as mothers Indeed mothers are oppressed under patriarchy as women and as mothers Consequently mothers need a feminism of their own one that positions mothers' concerns as the starting point for a theory and politics of empowerment O'Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice The chapter on maternal theory examines the central theoretical concepts of maternal scholarship while the chapter on activism considers the twenty-first century motherhood movement Feminist mothering is likewise examined as the specific practice of matricentric feminism and this chapter discusses various theories and strategies on and for maternal empowerment Matricentric feminism is also examined in relation to the larger field of academic feminism here O'Reilly persuasively shows how matricentric feminism has been marginalized in academic feminism and considers the reasons for such exclusion and how such may be challenged and changed **Mothering Justice** Lucy Baldwin, 2015-10-20 Written by experts with first

hand experience Mothering Justice is the first whole book to take motherhood as a focus for criminal and social justice interventions Covering the spectrum of interventions it also makes a powerful case that in particular the imprisonment of mothers and its effect on their children is unnecessary unjust devastating and wasteful To afford justice to these women we must do justice to motherhood This book gives voice to mothers many failed by multiple systems by highlighting the importance of understanding motherhood it serves to inform positive intervention and effective practice in working with vulnerable women Jackie Russell Women s Breakout A challenging interesting and deeply moving book containing the voices of women not often heard Rona Epstein University of Coventry Will add to and develop understanding in relation to working with mothers in criminal justice Vicky Pryce from the Foreword Should be taken very seriously by politicians to do what needs to be done to prevent avoidable damage on future generations Lord David Ramsbotham Women, Mothers, Subjects Maura Sheehy, 2015-10-14 This collection drawn from twelve years of the influential journal Studies in Gender and Sexuality offers a groundbreaking advance in thinking and theorizing about what happens to women when they become mothers It explores how women are changed and shaped by interaction with their children and the cultural constructs about motherhood in which they are embedded Distinguished psychoanalysts philosophers feminists gender and cultural theorists explore the meeting place of cultural representations of motherhood maternal theory and mothers interacting in the clinical setting and with their children to illuminate how the process of becoming a mother creates and informs female subjectivity identity desire expression aggression ambition shame envy and relationships Contributors find mothers to be complex subjects negotiating rich hybrid identities that explode received notions of maternal and even female subjectivity in their complexity They create an exciting and very accessible new set of ideas and templates for thinking about mothers and women that will be of value to clinicians academics and mothers alike This book was originally published as a special issue of Studies in Gender and Sexuality **Midlife Crisis at 30** Lia Macko, Kerry Rubin, 2004-03-18 At 30 Former vice presidential candidate Geraldine Ferraro was a stay at home mother Founder and CEO of Oxygen Media Geraldine Laybourne was working at a public interest think tank for teachers Political strategist Mary Matalin was a first year law student and about to drop out And months prior to her thirtieth birthday financial strategist and bestselling author Suze Orman was working as a waitress making 400 a month Decades later these Boomer women and many others have reached the pinnacles of their professions So why do Gen X Y women feel such pressure to have the perfect career body husband and kids by the time they are at or around 30 Why has 30 become such a make or break moment As the generation that came of age after the most visible glass ceilings had been broken Gen X Y women were raised to believe in futures without limitations Yet as journalists Lia Macko and Kerry Rubin reveal in their fascinating investigation many women have distorted the well intentioned empowerment messages of their youth and are quietly blaming themselves when they fail to overcome the very real obstacles that still exist in our society Though many Gen X Y women are hitting the same roadblocks at the same time instead of

questioning what's wrong with the system as Boomer women did in their twenties they're questioning their own choices Searching for solutions Macko and Rubin have enlisted the aid of the New Girls Club a group of successful satisfied women who've lived through their own crossroads moments earned their battle scars and now share their stories and strategies While today's young women may indeed be a generation in the middle of a Midlife Crisis at 30 they now have a dream team of mentors to help guide them through it

Understanding Postpartum Psychosis Teresa M. Twomey, 2009-03-20 Offering an understanding of postpartum psychosis this riveting book explains what happens and why during this temporary and dangerous disorder that develops for some women rapidly after childbirth Most of us are familiar with the baby blues a passing sadness that strikes 50 to 75 percent of new mothers after delivery And most of us understand postpartum depression a sadness post delivery that lingers for weeks or months for an estimated one in every 10 new mothers But a more serious form of disorder that strikes up to one in every 500 is postpartum psychosis triggering severe agitation confusion insomnia hallucinations delusions mania and possible thoughts of suicide or murder Every year women in the United States and around the world kill their babies children and themselves as a result of this mental illness Here author Twomey an official with Postpartum Support International gives us insight into the psychological personal medical legal and historical perspectives on this little understood mental illness which is both preventable and treatable While most women who suffer postpartum psychosis eventually recover without harming anyone they most often do so in silence Paranoia is a common symptom explains Twomey and that moves women to hide their symptoms from everyone around them The woman can hence appear normal but be putting both herself and her baby at risk We can prevent and treat this but we need to recognize it by better screening of women postpartum says Twomey

Confronting Postmaternal Thinking Julie Stephens, 2012-03-20 There is a deep cultural anxiety around public expressions of maternalism and the application of maternal values to society as a whole Julie Stephens examines why postmaternal thinking has become so influential in recent decades and why there has been a growing unease with maternal forms of subjectivity and maternalist perspectives In moving beyond policy definitions which emphasize the priority given to women's claims as employees over their political

claims as mothers Stephens details an elaborate process of cultural forgetting that has accompanied this repudiation of the maternal Reclaiming an alternative feminist position through an investigation of oral history life narratives Web blogs and other rich and varied sources Stephens confronts the core claims of postmaternal thought and challenges dominant representations of feminism as having forgotten motherhood Deploying the interpretive framework of memory studies she examines the political structures of forgetting surrounding the maternal and the weakening of nurture and care in the public domain She views the promotion of an illusory self sufficient individualism as a form of social unmothering that is profoundly connected to this ethos In rejecting both traditional maternalism and the new postmaternalism Stephens challenges prevailing paradigms and makes way for an alternative feminist maternalism centering on a politics of care
