Tigay,2016-04-12 A gripping account of one man s quest to find the world s oldest Bible and learn about the brilliant doomed antiquities dealer accused of forging it In 1883 Moses Wilhelm Shapira archaeological treasure hunter inveterate social climber and denizen of Jerusalem s bustling marketplace arrived unannounced in London claiming to have discovered the world s oldest Bible scroll in a desert cave east of the Dead Sea With his phenomenal find Shapira swiftly became world famous but just as quickly his scroll was discredited as a clever forgery With the discovery of the eerily similar Dead Sea Scrolls in 1947 however investigators reopened the case wondering whether Shapira had in fact discovered the first Dead Sea Scroll seven decades before the rest Here in a globetrotting narrative with all the suspense of a classic detective story award winning journalist Chanan Tigay sets out to find the scrolls and determine Shapira s guilt or innocence for himself

CSB Experiencing God Bible CSB Bibles by Holman,2022-08-15 The CSB Experiencing God Bible invites you to know and experience God personally Experiencing God focused features placed throughout the Bible will encourage you to focus on the major purpose of Bible reading listening to God speak **'The Real Scriptures' of God**

James Platter,2012-08-14 Inside the covers of this book you will find the Real Scriptures of the Christian churches Many church leaders know that other Christian churches hold to these books but they are only willing to state what they have been brain washed to believe that is about the other inferior books It isnt in the canon of scripture formed of course by the early Catholic Church at various stages and Councils from the fourth century A D therefore no one has the right to change what is in the canon of scripture and the Catholic Church changed it in their councils not in agreement of other Christians but to hide their offence at the words of God They would not even imagine that different churches have different scriptures and assume that the correct canon of scripture must be the one first declared by the Catholic Church and its priests but other

priests must be considered demented or apostate but they are not affected by the changes they made to the canon of Scripture over many centuries. They will not consider the canons of Orthodox Churches or others because they vary in different regions of the world. So is European Christianity based in the Vatican City right about all its holy scriptures while everyone else's church scriptures are false scriptures. Ethiopia it seems got most books of scripture right even with their translation into an ancient language.

The Lost City of the Exodus Ahmed Osman, 2014-03-24 Recent archaeological findings confirm Osman's 25 year old discovery of the location of the city of the Exodus. Explains why modern scholars have been unable to find the city of the Exodus they are looking in the wrong historical period and thus the wrong region of Egypt. Details the author's extensive research on Hebrew scriptures and ancient Egyptian texts and records which allowed him to pinpoint the Exodus site. Reveals his effort to have his finding confirmed by the Egyptian government including his debates with Zahi Hawass, Egyptian Minister for Antiquities Affairs. When the first archaeologists visited Egypt in the late 1800s they arrived in the eastern Nile Delta to verify the events described in the biblical Book of Exodus. Several locations believed to be the city of the Exodus were found but all were later rejected for lack of evidence. This led many scholars to dismiss the Exodus narrative merely as a myth that borrowed from accounts of the Hyksos expulsion from Egypt. But as Ahmed Osman shows, the events of Exodus have a historical basis and the ruins of the ancient city of Zarw where the Road to Canaan began have been found. Drawing on decades of research as well as recent archaeological findings in Egypt, Ahmed Osman reveals the exact location of the lost city of the Exodus as well as his 25 year effort to have this finding confirmed by the Egyptian government including his heated debates with Zahi Hawass, former Egyptian Minister for Antiquities Affairs. He explains why modern scholars have been unable to find the city of the Exodus they are looking in the wrong historical period and thus the wrong region of Egypt. He details his extensive research on the Pentateuch of the Hebrew scriptures, the historical scenes recorded in the great hall of Karnak and other ancient source texts which allowed him to pinpoint the Exodus site after he discovered that the Exodus happened not during the pharaonic reign of Ramses II but during that of his grandfather Ramses I. Osman concluded that the biblical city of the Exodus was to be found at Tell Heboua at the ruins of the fortified city of Zarw, the royal city of Ramses I, far from the Exodus locations theorized by previous archaeologists and scholars. In 2012, after 20 years of archaeological work, the location of Zarw was confirmed by Egyptian officials exactly where Osman said it would be 25 years ago. Thus Osman shows that time and again if we take the creators of the source texts at their word, they will prove to be right.
