Meerzon, 2012-04-05 This book examines the life and art of those contemporary artists who by force or by choice find themselves on other shores It argues that the exilic challenge enables the migr artist to re establish new artistic devices new laws and a new language of communication in both his everyday life and his artistic work *The Intellectual Devotional* David S. Kidder, Noah D. Oppenheim, 2021-01-19 This daily digest of intellectual challenge and learning will arouse curiosity refresh knowledge expand horizons and keep the mind sharp Millions of Americans keep bedside books of prayer and meditative reflection collections of daily passages to stimulate spiritual thought and advancement The Intellectual Devotional is a secular version of the same a collection of 365 short lessons that will inspire and invigorate the reader every day of the year Each daily digest of wisdom is drawn from one of seven fields of knowledge history literature philosophy mathematics and science religion fine arts and music Impress your friends by explaining Plato's Cave Allegory pepper your cocktail party conversation with opera terms and unlock the mystery of how batteries work Daily readings range from important passages in literature to basic principles of physics from pivotal events in history to images of famous paintings with accompanying analysis The book's goal is to refresh knowledge we've forgotten make new discoveries and exercise modes of thinking that are ordinarily neglected once our school days are behind us Offering an escape from the daily grind to contemplate higher things The Intellectual Devotional is a great way to awaken in the morning or to revitalize one's mind before retiring in the evening **Forgery in Musical Composition** Frederick Reece, 2025 We all know about art forgeries but why write fake classical music In *Forgery in Musical Composition* Frederick Reece investigates the methods and motives of mysterious musicians who sign famous historical names like Haydn Mozart and Schubert to their own original works Analyzing a series of genuinely fake sonatas concertos and symphonies in detail Reece's study exposes the shadowy roles that forgeries have played in shaping perceptions of authenticity creativity and the self within classical music culture from the 1790s to the 1990s Holding a magnifying glass to a wide array of phony works *Forgery in Musical Composition* explains how skillful fakers have succeeded in the past while also proposing active steps that scholars and musicians can take to better identify deceptive compositions in the future Pursuing his topic from case to case Reece observes that fake historical masterpieces have often seduced listeners not simply by imitating old works but rather by mirroring modern cultural beliefs about innovation identity and meaning in music Here forged compositions have important truths to tell us about knowing and valuing works of art precisely because they are not what they appear *Literary Gazette*
