almost certainly require improvements in the efficiency of the UK air traffic management system The Committee's inquiry aims to look at how to meet these challenges Its findings are aimed at those organisations responsible for airspace related decisions in the UK the CAA NATS and the Department for Transport Passenger numbers and freight demand globally have declined in 2008 and in the first months of 2009 In its conclusions and recommendations the Committee covered the management of airspace strategy change and co ordination in airspace management environmental impacts of airspace changes and European developments
