Railroads of Southwest Florida Gregg M. Turner, 1999 When the first Iron Horse arrived in Southwest Florida at Charlotte Harbor in 1886 nearly 150 000 miles of railroads already existed in America the transcontinental route was open and Pullman sleeping cars were in wide use But despite a late start railroads forever transformed this beautiful region of the Sunshine State and connected its people to the outside world In Railroads of Southwest Florida the golden age of railroading is documented with captivating images of stations machines and the people whose lives were affected by this significant form of transportation From interior views of well furnished passenger cars to scenes of hardworking men who made it all possible this collection provides a thorough look at a fascinating almost forgotten heritage *Cummer Douglas K.*

historic waterfront town located in Southwest Florida where the Peace River and Charlotte Harbor meet on the Gulf of Mexico The area was first occupied by Native Americans and later discovered in the 1500s by Ponce de Leon while searching for the Fountain of Youth However it was not until the late 19th century when cattle ranchers and homesteaders descended upon the area that things began to develop Once the South Florida Railroad made Punta Gorda its southernmost stop down came land developers and wealthy vacationers including Cornelius Vanderbilt who invested in the regal Hotel Punta Gorda Among the town s early pioneers were George Brown an African American shipbuilder and landowner who was also known as Florida s first equal opportunity employer Albert Waller Gilchrist who played a key role in Punta Gorda s early fishing and railroad industry and Robert Meacham an African American who was appointed as the town s third postmaster There were others who were significant such as Col Isaac Trabue who was key to the area s railroad industry Punta Gorda has grown since its inception but still maintains its Southern charm **Along the Wekiva River** Jim Robison,Bill Belleville,2009

Meandering through Orange Lake and Seminole Counties this purest form of Central Florida nature as described by one of its champions is also bordered by some of the region s most densely populated suburban sprawl The Wekiva River makes up some of the best protected waters in the state with laws designed for its preservation as it is recognized as a regional jewel and a resource worth saving in public trust as parks preserves and forests Today visitors who paddle boat and hike here discover a sanctuary that seems unchanged since its earliest history when ancient tribes piled fresh water shells sand bone and pot shards to create midden mounds and when Clay Springs and other early settlements helped draw river traffic and railroads hauled out its forest products Its cooling springs have provided recreation for generation after generation

Tavares Bob Grenier, 2012 In 1875 wealthy attorney and newspaperman Maj. Alexander St. Clair Abrams and his wife Joanna journeyed north from their home in Orlando to a bridge of land weaving through a chain of beautiful lakes. It was here in the heart of the state where Major St. Clair Abrams envisioned a town that would someday be the seat of a new county. In 1880 he began to lay out his town, calling it after a Spanish ancestor, a grandee named Lopez Paray Tavares. St. Clair Abrams made Tavares a railroad hub, believing railroads and waterways were the key to growth and prosperity. He built hotels, mills, factories and parks. Despite a destructive fire in 1888 that leveled the business district and the 1894 and 1895 freezes that set back the citrus industry, settlers continued to arrive. Today Tavares maintains its small town charm while it prospers as America's Seaplane City.

Florida Railroads in the 1920's Gregg Turner, 2006-02-22 Florida's railroads emerged in the 1830s amid Native American upheaval and territorial colonization. Many periods of development marked this fascinating heritage, but one era towers above the rest: the 1920s. It was then that Florida experienced a colossal land boom, one of the greatest migration and building stories in American history. People poured into the state as never before; real estate traded hands at breakneck speed and the landscape added countless new homes, hotels, apartments and commercial buildings. Florida's biggest railroad, the Atlantic Coast Line Seaboard Air Line and Florida East Coast, were unprepared for the tidal wave of traffic. Thus the Big Three had to rapidly expand and increase capacity. Dozens of projects unfolded at great cost, by one estimate over 100 million. When the building frenzy ended, the railway map of the state stood at its greatest extent: some 5,700 miles. Further, the frequency of railway service within and to the Sunshine State

reached an unprecedented level never again to be repeated **American Photo** ,1998-01 New River Gorge J. Scott Legg,2010 Today visitors to the New River Gorge see a steep gorge filled with a lush hardwood forest Before the railroad the New River with its whitewater rapids was a barrier to trade but with the 1873 completion of the Chesapeake and Ohio Railroad the gorge came alive By the 1890s more than 30 000 people lived and worked in the gorge Towns like Kaymoor Nuttallburg and Thurmond were hives of activity and melting pots of American immigrants who dug the coal that helped build the American dream Times changed By 1960 the easiest coal was gone and miners moved to Midwest factories Nature began to reclaim the gorge The 1970s brought a rebirth Whitewater rafters took on the rapids and bridge builders built the New River Gorge Bridge The forest has returned and if you look under the canopy you will see that the railroads coal camps and mine tipples have given way to rafters rock climbers and mountain bikers **American Railroad Journal, and**

Crown Jewel of the Scenic Highlands is nestled among rolling hills and sparkling lakes in the geographic center of Florida Before the 1900s this area of the Lake Wales Ridge was considered spectacularly beautiful but uninhabitable because the virgin forests did not have road or railroad access Only Native Americans and a few white hunters had camped there G V Tillman explored the untamed area in 1902 and fell in love with the beauty He knew that the land was ideal for citrus the old growth pines could provide profits from turpentine and the natural beauty would attract quality settlers to build a quality town He shared his vision with three other businessmen and together they formed the Lake Wales Land Company in 1911 Their timing was perfect The Atlantic Coast Line Railroad reached Lake Wales that year and brought on the boom time
