Encyclopedia of the New Order - Special Issue - French in German Uniform Part I Grégory Bouysse,2018-11-11 First volume of an encyclopedia of the French in German uniform Part One is dedicated to the 176 French officers of the Waffen SS and at the end the Germans attached to the Charlemagne SS Division classified by origin Sturmbrigade Frankreich LVF Milice Fran aise Kriegsmarine 340 pages with more than 240 photographs A totally new amount of work on this topic for the first time in English PS At least two other volumes will follow and two others about the Officers NCO s and other soldiers of the Legion Wallonie Organizations in the Face of Growing Competition in the Market Anna Ujwary-Gil,Natalia R. Potoczek,2019-01-01 The essence of the functioning of any organization whether commercial or non profit is to provide value to groups of recipients whose expectations undoubtedly change over time Various competition mechanisms in the market apply to both business oriented organizations and organizations operating in the sphere of public utilities This monograph includes examples of the problems facing contemporary organizations and at the same time provides evidence confirmed by research results that indicates the direction of current changes The analysis of changes taking place in organizations was carried out in many dimensions The content layout adopted in the monograph presents four research perspectives where the subject of the research is the organization the modern tools used in organization management the impact of the market economy on organizations and sectoral or industry aspects of the organization s functioning In the first chapter four studies related to commercial and non commercial organizations have been collated Researchers of academic organizations who in order to meet the expectations of students increase their activity in the field of entrepreneurship and their support for the most talented students Both examples show the need to conduct research develop knowledge about own activities and focus on the needs of the environment Entrepreneurial universities are open to the implementation of joint ventures with entities in their environment which affect the development of the university its students as well as the entities Entrepreneurship which is based on the ability to take advantage of market opportunities also creates opportunities for developing the ability to flexibly shape and adapt programs methods and operating principles to the growing expectations of their environment The ability to develop your potential as well as the potential of your students plays a crucial role In the pursuit of excellence a strong focus should be placed on talented students and the development of all possible forms of support that could determine an output of graduates with particularly high development potential In the research presented in this monograph the authors compare the activity of universities in the USA the Netherlands and Poland in the area of talent development The comparative analysis becomes a valuable source of indicating imperfections but also examples of potential forms of positive activity in this area Equally important in this part of the monograph is the research on the learning organization Through a bibliometric analysis the author identified the fields of research on the learning organization In addition to research areas

related to various dimensions primarily human cultural and managerial the types of organizations in which such research is most often conducted have been indicated They also include the organizations of the two sectors presented education and healthcare The same part of the monograph also presents the results of research in the hotel sector where the main research problem was the creation of customer value taking into account the conditions stimulating the dynamics of the business models of hotel enterprises Referring to business models was considered important because of the significance of decision making patterns that help to build a competitive advantage and achieve market success by creating value for customers The concept of creating value for customers is currently treated in cross sectoral or industry categories and is a universal approach to managing organizations The second chapter of the monograph presents research on the modern tools used in organization management Concepts such as work life balance shaping the innovation process within the framework of decisions taken in the process marketing communication or the use of gamification in research and development are examples of a wide range of relationships between today s organization and its surroundings Finding employees and retaining them is also a growing challenge in developing countries where labor supply is steadily decreasing The expectations of employees are increasing especially in relation to respecting the personal non professional side of life Thus it should be recognized that research on work life balance is a developing space for organization and management researchers Modeling the innovation process in an organization is another research trend that is important today especially in terms of developing competitiveness Decision making is one of the key components of the innovation process This aspect in qualitative terms was presented in the next study in the second part of the monograph Similarly marketing communication is invariably an important area of research in organizations which has evolved due to rapidly developing information technologies and at the same time the changing preferences of users of these technologies The last study in this second part of the monograph relates to innovation and the use of computer games The tools of gamification are used to shape the attitudes of individual energy consumers The observations presented show that it is worth making attempts to use unconventional methods and tools in this case to develop customer knowledge and strengthen the behaviors desired in the energy market The third chapter of the monograph is devoted to the financial aspects of the functioning of commercial and non profit organizations in a market economy Increasing the efficiency of public entities specifically conditioned in economic policies and dependent on political decisions has been the subject of numerous studies The research study presented in the monograph refers to the relationship between financial strategies and profit management in public industrial companies listed on the Warsaw Stock Exchange It is worth noting that no research in this field has been conducted to date in the context of the Polish capital market The next study refers to the French market Its purpose was to evaluate and test long term memory in the French stock exchanges Research results contribute significantly to explaining the lack of consensus regarding long memory in stock returns The research covers a significant 25 year period of operation of the Euronext platform during which 6634

observations were provided The conclusions of the study may be particularly important for regulators and risk managers Another study presents the results of bankruptcy risk tests for Polish and Czech logistics companies using a comprehensive classification approach As a result of the research a tool for risk assessment and forecasting was developed enabling the early prediction of bankruptcy of enterprises At the end of the third chapter of the monograph the results of health expenditure analysis based on information provided by the Health Account System are presented Particular attention has been focused on the programming sources of financing healthcare in new European Union countries Socio technical and environmental aspects of the organization are the subject of interest of researchers presenting the results of their research in the fourth chapter of the monograph The problems of economic migration and working conditions have been the subject of interest for many years in the strongly developing trend of labor market research The research results contained in the study relate primarily to the issues of occupational safety of Ukrainians employed in Poland These issues are gaining importance especially when the number of people migrating from Ukraine to Poland in search of work has been growing for several years In the face of such a large scale of Ukrainian immigrants employed in Polish enterprises there is still a lack of regulations protecting or securing the interests of employees and employers The next research presentation highlights the problems of the circular economy which according to the author is developing too slowly in Poland The research is valuable for systematizing the idea of a circular economy based on the theoretical and practical aspects of this phenomenon The results of the analysis are also of practical importance for the process of modeling and implementing this idea in Poland Further the innovation paradigm of economic health and the prosperity of society is the subject of the research carried out based on a review of the health economy considering innovation and its impact on population growth and prosperity in the world The research particularly highlights the consequences of socio demographic environmental and business changes in the field of consumer goods The socio technical as well as the environmental aspects of the organization are also included in the last study presented The purpose of this study was to identify the attitudes of IT employees in the Polish ITC sector towards remote work Since the effective and efficient collaboration of distributed employees performing remote work has become even more necessary for the success of projects numerous research works are being conducted focusing on the consequences of remote work The presented research results are an important contribution to the discussion of researchers and management practitioners By publishing this monograph which covers a wide spectrum of research problems in contemporary commercial and non profit organizations the editors and authors presenting the results of their research express a hope that they are contributing to the widespread dissemination and enrichment of knowledge and consequently socio economic development
