Crisis in Governance Mukhlesur Rahman Chowdhury, 2019-11-25. This book provides an academic view of political developments in Bangladesh with reference to authoritarianism and military intervention and brings insights from unique personal experience of governance. It addresses Bangladesh's democratic development, governance and political conditions prior to the Caretaker Government (CTG) takeover in 2006, as well as the background of the 2007 military intervention. Political science and International Relations students, especially at postgraduate level, as well as sociology researchers and those involved in politics as agents of change will find previously unrecorded facts revealing the causes of military intervention in Bangladesh during 2007 when the UN peacekeeping force added new facets different from earlier examples of military intervention. The author has had unique access to confidential documents and reviews the laws and constitution of Bangladesh, ordinances, orders, reports, newspaper articles and columns, research articles and television talk shows. As such, the book recounts the 2007-08 activities of the military-backed government and the efforts of foreign powers, including the ambiguous role of the US both for and against military intervention, and compares the evidence with analyses of related literature, the opinion of experts and the author's own experience of governance.

Social Transformation in Bangladesh Shahidur Rahman, Md. Masud-All-Kamal, 2024-08-26. *Social Transformation in Bangladesh* explores the social, political and cultural implications of the unprecedented economic development that has occurred in Bangladesh since its independence in 1971. In the 1970s, Bangladesh was labelled an international basket case because of food insecurity and low levels of per capita income with high population growth and various social problems. Defying overwhelming odds, however, a societal transformation is underway in Bangladesh with diverse opportunities and challenges. This edited book analyses issues of inclusivity, extractivism, sustainability and equitability as it takes a look at the interconnected metamorphosis of the economy, society, culture and the environment of Bangladesh. Discussing topics from the products of post-industrial society such as YouTube sensations and digital labour platforms to groups that have suffered marginalisation for decades such as the urban poor and Indigenous peoples, a wide array of scholarship and case studies are used to analyse the challenges and opportunities offered by the process of societal transformation. With insights from multidisciplinary scholars, this collection will be of great interest to those specialising in the fields of sociology, political science, anthropology, development, refugee and migrant studies, media studies, labour studies, health and indigeneity.

Printbegränsningar Der kan printas kapitelvis **Subalterns and Raj** Crispin Bates, 2013-09-16 Subalterns and Raj presents a unique introductory history of India with an account that begins before the period of British rule and pursues the continuities within that history up to the present day Its coverage ranges from Mughal India to post independence Pakistan Bangladesh and Sri Lanka with a focus on the ordinary people of India and South Asia Subalterns and Raj examines overlooked issues in Indian social history and highlights controversies between historians Taking an iconoclastic approach to the elites of South Asia since independence it is critical of the colonial regime that went before them This book is a stimulating and controversial read and with a detailed guide to further reading and end of chapter bibliographies it is an excellent guide for all students of the Indian subcontinent *Are Islamists Still Islamists?* Sümeyye Sakarya, 2025-09-18 This book offers an ontological study of Islamism and its transformation with a specific focus on Türkiye Bangladesh and Senegal The dominant reading of the transformation of Islamism from a discernibly Islamist then anti systemic discourse to a more systemic one has been through the arguments of post Islamism which claim the failure and end of Islamism However this assumes that Islamists are still Islamists which is an oxymoron This book suggests that this scholarship fails to recognise the political ontological nature of Islamism It argues that under theorisation of the political accompanied by Eurocentrism and positivism hinders a proper understanding of Islamism by engendering methodological nationalism and state centrism and obstructing Islamists as political actors by denying them political agency to undertake transformation This shows the need for an ontological analysis to surmount the mentioned problems and comprehend Islamists as political actors by disarticulating any necessary relationship between the political and any fixed entity such as the state a specific rhetoric or form The book as an exercise in political theory offers such an analysis articulated through the tools provided by post foundationalist political theory particularly the works of Martin Heidegger Antonio Gramsci Hannah Arendt and Salman Sayyid who mobilises Carl Schmitt and post Marxist discourse theory to read Islamism This book will appeal to scholars and students of Politics International Relations Area Studies and Sociology especially those specialising in Islam and Islamism

An Unamendable Constitution? Richard Albert, Bertil Emrah Oder, 2018-09-03 This book examines the subject of constitutional unamendability from comparative doctrinal empirical historical political and theoretical perspectives It explores and evaluates the legitimacy of unamendability in the various forms that exist in constitutional democracies Modern constitutionalism has given rise to a paradox can a constitutional amendment be unconstitutional Today it is normatively contested but descriptively undeniable that a constitutional amendment one that respects the formal procedures of textual alteration laid down in the constitutional text may be invalidated for violating either a written or unwritten constitutional norm This phenomenon of an unconstitutional constitutional amendment traces its political foundations to France and the United States its doctrinal origins to Germany and it has migrated in some form to all corners of the democratic world One can trace this paradox to the concept of constitutional unamendability Constitutional unamendability can be understood as a

formally entrenched provisions or an informally entrenched norm that prohibits an alteration or violation of that provision or norm. An unamendable constitutional provision is impervious to formal amendment even with supermajority or even unanimous agreement from the political actors whose consent is required to alter the constitutional text. Whether or not it is enforced and also by whom this prohibition raises fundamental questions implicating sovereignty, legitimacy, democracy and the rule of law.

Communalism and Globalization in South Asia and Its Diaspora Deana Heath, Chandana Mathur, 2010-12-22. Taking as its premise the belief that communalism is not a resurgence of tradition but is instead an inherently modern phenomenon as well as a product of the fundamental agencies and ideas of modernity and that globalization is neither a unique nor unprecedented process, this book addresses the question of whether globalization has amplified or muted processes of communalism. It does so through exploring the concurrent histories of communalism and globalization in four South Asian contexts: India, Pakistan, Bangladesh, and Sri Lanka, as well as in various diasporic locations from the nineteenth century to the present. Including contributions by some of the most notable scholars working on communalism in South Asia and its diaspora as well as by some challenging new voices, the book encompasses both different disciplinary and theoretical perspectives. It looks at a range of methodologies in an effort to stimulate new debates on the relationship between communalism and globalization and is a useful contribution to studies on South Asia and Asian History.

Islamist Militancy in Bangladesh Shafi Md Mostafa, 2021-09-01. This book seeks to investigate not only the causes of radicalization but also how radicalization has unfolded since 2009 based on an exhaustive review of the relevant literature and two stints of fieldwork in Bangladesh involving 71 in-depth interviews of highly credentialed individuals. This book looks at both local and global factors that have served to provoke young Bangladeshis, many of whom are from relatively well-educated backgrounds, to become religiously belligerent and eventually to turn into terrorists. Ideology, it is argued, plays a pivotal role in the radicalization process and justifies violence. Most importantly, ideology proffers solutions to the micro and macrocauses of commonly identifiable youth disaffection. This book mainly focuses on the Islamic State and Al Qaeda's exploitation of religious beliefs and their construction of a mobilizing apocalyptic narrative that strikes a chord with the young middle-class Muslims. Both organizations target them for recruitment. The book ends by proffering what is called a Pyramid Root Cause model which attempts to tie all the causative variables of radicalization into a connected explanation of what has been happening in Bangladesh over the last decade. This book is of interest to scholars of political Islam.

international politics and security studies including terrorism and the politics of South Asia. *Understanding Security Practices in South Asia* Monika Barthwal-Datta, 2012-05-04. This book explores the ways in which non-state actors (NSAs) in South Asia are involved in securitizing non-traditional security challenges in the region at the sub-state level. South Asia is the epicentre of some of the most significant international security challenges today. Yet the complexities of the region's security dynamics remain under-researched. While traditional security issues such as inter-state war, border disputes, and the threat of

nuclear devastation in South Asia remain high on the agendas of policy makers and academics both within and beyond the region scant attention has been paid to non traditional or new security challenges Drawing on various case studies this work offers an innovative analysis of how NSAs in South Asia are shaping security discourses in the region and tackling security challenges at the sub state level Through its critique of securitization theory the book calls for a new approach to studying security practices in South Asia one which considers NSAs as legitimate security actors This book will be of much interest to students of security studies Asian security Asian politics critical security studies and IR in general
