Campbell, 1995-09-07 This is a study of the transplantation of a creed devised by and for African Americans the African Methodist Episcopal Church that was appropriated and transformed in a variety of South African contexts Focusing on a transatlantic institution like the African Methodist Episcopal Church the book studies the complex human and intellectual traffic that has bound African American and South African experience It explores the development and growth of the African Methodist Episcopal Church both in South Africa and America and the interaction between the two churches This is a highly innovative work of comparative and religious history Its linking of the United States and African black religious experiences is unique and makes it appealing to readers interested in religious history and black experience in both the United States and South Africa **Classics and Race** Sarah Derbew, Daniel Orrrells, Phiroze Vasunia, 2025-04-24 Classics and Race A historical

reader provides scholars and students with an exploratory intellectual history of the complex relationships between Classics and racist anti racist thought systems It collects together a series of readings of historical primary sources from the late medieval period until the mid twentieth century bringing to light how the classical tradition and post ancient constructions of race have informed each other Each reading is accompanied by an essay written by a leading specialist who offers a

discussion of the primary source The volume is arranged chronologically from the late medieval period to the Renaissance crucial for understanding classical humanism and on to the eighteenth century with texts foundational to the modern emergence of classical studies as a discipline and its relationship to the transatlantic slave trade The essays show how the classical tradition has continuously been structured by debates about race racism and anti racism Including voices from Africa Asia the Caribbean Europe and North and South America the essays demonstrate why the primary text is important for understanding this intellectual and cultural history and the global reach of the classical tradition *New Haven Free Public Library Bulletin* New Haven Free Public Library,1920 *Making the World a Better Place* Jacqueline Jones

Royster,2023-06-27 In *Making the World a Better Place* Royster argues that African American women must be taken seriously as historical actors who were more consistently and more variously engaged in community and nation building than they have been given credit for Their considerable rhetorical expertise becomes evident when looking carefully at their work in terms of identity agency authority and expressiveness Their writings constitute a substantial artifactual record of their levels of engagement their excellence in sociopolitical work and the legacies of leadership and action The writing of African American women during the nineteenth century reflects their own perceptions of the ways and means of their lives They deserve to be recognized as consequential contributors to the narratives of the nation rather than marginalized as a group To that end Jacqueline Jones Royster offers a deeper understanding often through their own words of these women their practices and their achievements *Media and Print Culture Consumption in Nineteenth-Century Britain* Paul Raphael Rooney,Anna Gasperini,2016-10-27 This book explores Victorian readers consumption of a wide array of reading matter Established scholars and emerging researchers examine nineteenth century audience encounters with print culture material such as periodicals books in series cheap serials and broadside ballads Two key strands of enquiry run through the volume First these studies of historical readership during the Victorian period look to recover the motivations or desired returns that underpinned these audiences engagement with this reading matter Second contributors investigate how nineteenth century reading and consumption of print was framed and or shaped by contemporaneous engagement with content disseminated in other media like advertising the stage exhibitions and oral culture *We Specialize in the Wholly Impossible* Darlene Clark Hine,Wilma King,Linda Reed,1995-04 Essays by 30 authors attempt to reclaim and to create heightened awareness about individuals contributions and struggles that have made African American women s survival and progress possible

The Essence of Liberty Wilma King, 2006 Before 1865 slavery and freedom coexisted tenuously in America in an environment that made it possible not only for enslaved women to become free but also for emancipated women to suddenly lose their independence Wilma King now examines a wide ranging body of literature to show that even in the face of economic deprivation and draconian legislation many free black women were able to maintain some form of autonomy and lead meaningful lives *The Essence of Liberty* blends social political and economic history to analyze black women's experience in both the North and the South from the colonial period through emancipation Focusing on class and familial relationships King examines the myriad sources of freedom for black women to show the many factors that along with time spent in slavery before emancipation shaped the

meaning of freedom Her book also raises questions about whether free women were bound to or liberated from gender conventions of their day Drawing on a wealth of untapped primary sources not only legal documents and newspapers but also the diaries letters and autobiographical writings of free women King opens a new window on the world of black women She examines how they became free educated themselves found jobs maintained self esteem and developed social consciousness even participating in the abolitionist movement She considers the stance of southern free women toward their enslaved contemporaries and the interactions between previously free and newly freed women after slavery ended She also looks closely at women s spirituality disclosing the dilemma some women faced when they took a stand against men even black men in order to follow their spiritual callings Throughout this engaging history King underscores the pernicious constraints that racism placed on the lives of free blacks in spite of the fact that they were not enslaved The Essence of Liberty shows the importance of studying these women on their own terms revealing that the essence of freedom is more complex than the mere absence of shackles

What Schools Can Do Kathleen Weiler, Candace Mitchell, 1992-01-01 This book is organized around three themes mechanisms of domination and control pedagogies of possibility and theory as critique It links education with an analysis of politics and economics and takes as central the possibilities of schools as places where social critique and the empowerment of students can take place The authors have considered the possibilities of student resistance and curriculum transformation and have deepened their critiques to incorporate recent theoretical analyses influenced by feminist critiques anti racist approaches and postmodernist thought In moving from theoretical analysis to practical examples of curriculum transformation and classroom practice What Schools Can Do provides both a foundation for the analysis of schooling and alternatives for teaching practice
