Renaissance Reformation And Absolutism 1450 165:

Renaissance, Reformation, and Absolutism: 1450-1650 Norman F. Cantor, Michael S. Werthman, 1972 *Recording for the Blind & Dyslexic, ... Catalog of Books*, 1996 Religious Books and Serials in Print, 1982 **Electing the Pope in Early Modern Italy, 1450-1700** Miles Pattenden, 2017-07-21 Electing the Pope in Early Modern Italy 1450 1700 offers a radical reassessment of the history of early modern papacy constructed through the first major analytical treatment of papal elections in English Papal elections with their ceremonial pomp and high drama are compelling theatre but until now no one has analysed them on the basis of the problems they created for cardinals how were they to agree rules and enforce them How should they manage the interregnum How did they decide for whom to vote How was the new pope to assert himself over a group of men who until just moments before had been his equals and peers This study traces how the cardinals responses to these problems evolved over the period from Martin V's return to Rome in 1420 to Pius VI's departure from it in 1798 placing them in the context of the papacy's wider institutional developments Miles Pattenden argues not only that the elective nature of the papal office was crucial to how papal history unfolded but also that the cardinals of the fifteenth to eighteenth centuries present us with a unique case study for observing the approaches to decision making and problem solving within an elite political group *The Parliaments of Early Modern Europe* M.A.R. Graves, 2014-06-06 A comparative survey of the emergence and development of Parliaments in Catholic Christendom from the thirteenth century the chief focus of this work is the period between the fifteenth and seventeenth centuries when Europe was dramatically changed by the Renaissance the Reformation and the growth of composite monarchies which brought together diverse territories under their rule European Parliaments experienced a variety of challenges fortunes and fates some survived even flourished but others succumbed to powerful monarchies By investigating the powers and privileges and responsibilities of these institutions Graves illuminates the whole business of government the nature of executive power the relations of ruler and ruled the restraints of consent and the realities of the tension between central authority and local custom Books in Print Supplement, 1985 **Bibliographie de la Réforme, 1450-1648: Belgique. Suède. Norvège. Danemark. Irlande. États-Unis d'Amérique** Commission internationale d'histoire ecclésiastique comparée, 1960 Noble Power in Scotland from the Reformation to the Revolution Keith M Brown, 2013-05-21 Analyses the relations between nobility crown and state first in Scotland and then in the first courts of the unified kingdoms **National Union Catalog**, Includes entries for maps and atlases **Nobility, Faith and Masculinity** Emanuel Buttigieg, 2011-04-21 This is an important study of elite European noblemen who joined the Order of Malta The Order functioning in parallel with the convents that absorbed the surplus daughters of the nobility provided a highly respectable outlet for sons not earmarked for marriage The process of becoming a Hospitaller was a semi structured one involving clear cut if flexible social and financial requirements on the part of the candidate and a mixture of formal and informal socialization into the ways of the Order Once enrolled a Hospitaller became

part of a very hierarchical and ethnically mixed organisation within which he could seek offices and status This process was delineated by a complex interaction of internal factors hierarchy patriarchy and age set within external mechanisms such as papal patronage and interference This book is innovative in its methodology drawing on a wide range of sources and applying historiographical approaches not previously brought to bear on the Order

The Personal Rule of Charles II, 1681-85 Grant Tapsell, 2007 From 1681 until his death in 1685 Charles II ruled without a Parliament and his personal rule forms the central subject of this book The author discusses the nature of the Whig and Tory parties at this crucial period of their formation as political parties showing how they coped with the absence of a parliamentary forum

The Social Studies, 1921

The Devout Hand Patricia Rocco, 2017-11-29 After the Counter Reformation the Papal State of Bologna became a hub for the flourishing of female artistic talent The eighteenth century biographer Luigi Crespi recorded over twenty eight women artists working in the city although many of these until recently were ignored by modern art criticism despite the fame they attained during their lifetimes What were the factors that contributed to Bologna's unique confluence of women with art science and religion The Devout Hand explores the work of two generations of Italian women artists in Bologna from Lavinia Fontana 1552-1614 whose career emerged during the aftermath of the Counter Reformation to her brilliant successor Elisabetta Sirani 1638-1665 who organized the first school for women artists Patricia Rocco further sheds light on Sirani's students and colleagues including the little known engraver Veronica Fontana and the innovative but understudied etcher Giuseppe Maria Mitelli Combining analysis of iconography patronage gender and reception studies Rocco integrates painting popular prints book illustration and embroidery to open a wider lens onto the relationship between women virtue and the visual arts during a period of religious crisis and reform A reminder of the lasting power of images The Devout Hand highlights women's active role in sixteenth and seventeenth century Christian reform and artistic production

The German Peasants' War, Visual Culture, and Political Subjectivation Jonathan Trayner, 2025-11-25 This study examines the visual productions of the German Peasants War pamphlets banners and clothing to argue for the disruptive and radical visual legacy in which hierarchies and modes of subjection were overturned Drawing on the author's experience as a print maker and artist the book offers a close and sympathetic analysis of the visual culture produced in this moment of war and revolt Far from only being a matter of historical interest these disruptive modes of visual production also resonate with contemporary debates about dissensus populism and political identity especially in the work of Jacques Rancière The refusal of these peasants and mercenaries and some clergy to remain in their place ruptured the visual field of power It was also the repression of this popular eruption that was to shape conventional visual culture and politics as a reaction The book will be of

interest to scholars working in art history visual culture medieval and early modern studies and political history

Renaissance, reformation, and absolutism Gerald D.
