Relations,1984 *History and Revolution* Jim Wolfreys,Mike Haynes,2020-05-05 In *History and Revolution* a group of respected historians confronts the conservative revisionist trends in historical enquiry that have been dominant in the last twenty years Ranging from an exploration of the English French and Russian revolutions and their treatment by revisionist historiography to the debates and themes arising from attempts to downplay revolution s role in history *History and Revolution* also engages with several prominent revisionist historians including Orlando Figes Conrad Russell and Simon Schama This important book shows the inability of revisionism to explain why millions are moved to act in defence of political causes and why specific political currents emerge and is a significant reassertion of the concept of revolution in human development *National Identities in Soviet Historiography* Harun Yilmaz,2015-02-20 Under Stalin s totalitarian leadership of the USSR Soviet national identities with historical narratives were constructed These constructions envisaged how nationalities should see their imaginary common past and millions of people defined themselves according to them This book explains how and by whom these national histories were constructed and focuses on the crucial episode in the construction of national identities of Ukraine Azerbaijan and Kazakhstan from 1936 and 1945 A unique comparative study of three different case studies this book reveals different aims and methods of nation construction despite the existence of one party rule and a single overarching official ideology The study is based on work in the often overlooked archives in the Ukraine Azerbaijan and Kazakhstan By looking at different examples within the Soviet context the author contributes to and often challenges current scholarship on Soviet nationality policies and Stalinist nation building projects He also brings a new viewpoint to the debate on whether the Soviet period was a project of developmentalist modernization or merely a renewed Russian empire The book concludes that the local agents in the countries concerned had a sincere belief in socialism especially as a project of modernism and development and at the same time were strongly attached to their national identities Claiming that local communist party officials and historians played a leading role in the construction of national narratives this book will be of interest to historians and political scientists interested in the history of the Soviet Union and contemporary Eastern Europe the Caucasus and Central Asia *The International Politics of Eurasia: v. 9: The End of Empire? Comparative Perspectives on the Soviet Collapse* S. Frederick Starr,Karen Dawisha,2016-09-16 First Published in 1997 This book is the ninth in a series often volumes produced by the Russian Littoral Project The project shares the conviction that the transformation of the former Soviet republics into independent states demands systematic analysis of the determinants of the domestic and foreign policies of the new countries The series of volumes is intended to provide a basis for comprehensive scholarly study of these issues This volume was shaped by the author s view that future scholarship about the post Soviet world requires both specialized research and broad gauge studies that carefully juxtapose the breakup of the Soviet empire with the transformation of other multinational empires **A History of Russia: To 1917** Walter Moss,2002 **Revising the Revolution** Larry E. Holmes,2021-06-01 The clash between scholarship and politics between truth and propaganda was

ruthless for historians in Istpart the Russian Communist Central Committee's official historical department Istpart was tasked with preserving the documentary record compiling memoirs and upholding ideological conformism within the national narrative of the 1917 revolution In *Revising the Revolution* Larry E Holmes examines the role of Istpart's historians in both the Moscow office and a regional branch in Viatka who initially believed they could adhere to the traditional standards of research and simultaneously provide a history useful to the party However they quickly realized that the party rejected any version of history that suggested nonideological or nonpolitical sources of truth By 1928 Istpart had largely abandoned its mission to promote scholarly work on the 1917 revolution and instead advanced the party's master narrative *Revising the Revolution* explores the battle for the Russian national narrative and the ways in which history can be used to centralize power

Lenin and the Revolutionary Party Paul Le Blanc, 2016-02-01 For generations historians of the right left and center have all debated the best way to understand V I Lenin's role in shaping the Bolshevik party in the years leading up to the Russian Revolution At their worst these studies locate his influence in the forcefulness of his personality At their best they show how Lenin moved other Bolsheviks through patient argument and political debate Yet remarkably few have attempted to document the ways his ideas changed or how they were in turn shaped by the party he played such a central role in building In this thorough concise and accessible introduction to Lenin's theory and practice of revolutionary politics Paul Le Blanc gives a vibrant sense of the historical context of the socialist movement in Russia and abroad from which Lenin's ideas about revolutionary organization spring What emerges from Le Blanc's partisan yet measured account is an image of a collaborative ever adaptive and dynamically engaged network of revolutionary activists who formed the core of the Bolshevik party

The Russian Revolution and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature *The Russian Revolution and Civil War 1917-1921* offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state

Problems of Communism, 1972 *Paul I Hugh Ragsdale*, 2020-03-16 This book offers the first book length English language biography of Russian emperor Paul I 1754-1801 since a 1913 translation Most of the essays have been written expressly for this volume They examine Paul's education his mental pathology his administrative aims curious relations with the knights of Malta and with Bonaparte and his struggles with the threatening ideas emanating from the French Revolution There is also a provocative new view of the conspiracy that took Paul's life
