Russia Its Neighbors And An Enlarging Nato:

Russia, Its Neighbors, and an Enlarging NATO Richard Lugar, 1997 Russia, Its Neighbors, and an Enlarging NATO Richard Lugar, Victoria Nuland, 1997 Just as the NATO Alliance's investments during the Cold War contributed to the collapse of the Soviet Union and the Warsaw Pact investments now in Europe's future will make a dramatic difference to our own security NATO's decision to enlarge is a key element of that investment Our investment in Russia's transformation has been no less important yet Russian leaders see the enlargement of NATO as a threat to their security To examine this dilemma the Council on Foreign Relations convened an independent Task Force that concluded the enlargement of NATO and improved NATO Russia relations need not be incompatible if both are handled properly The group also looked at the effect of enlargement on the Baltic States and Ukraine **NATO's Enlargement and Russia** Oxana Schmies, 2021-04-30 The Kremlin has sought to establish an exclusive Russian sphere of influence in the nations lying between Russia and the EU from Georgia in 2008 to Ukraine in 2014 and Belarus in 2020 It has extended its control by means of military intervention territorial annexation economic pressure and covert activities Moscow seeks to justify this behavior by referring to an alleged threat from NATO and the Alliance's eastward enlargement In the rhetoric of the Kremlin NATO expansion is the main source for Moscow's stand off with the West This collection of essays and analyses by prominent politicians diplomats and scholars from the US Russia and Europe provides personal perspectives on the sources of the Russian Western estrangement They draw on historical experience including the Russian Western controversies that intensified with NATO's eastward expansion in the 1990s and reflect on possible perspectives of reconciliation within the renewed transatlantic relationship The volume touches upon alleged and real security guarantees for the countries of Eastern and Central Europe as well as past and current deficits in the Western strategy for dealing with an increasingly hostile Russia Thus it contributes to the ongoing Western debate on which policies towards Russia can help to overcome the deep current divisions and to best meet Europe's future challenges *Protocols to the North Atlantic Treaty of 1949 on the Accession of the Republic of Albania and the Republic of Croatia (Treaty Doc. 110-20)* United States. Congress. Senate. Committee on Foreign Relations, 2009 Russia and Germany Reborn Angela E. Stent, 2000-03-13 The relationship between Russia and Germany has been pivotal in some of the most fateful events of the twentieth century the two World Wars the Cold War and the emergence of a new Europe from the ashes of communism This is the first book to examine the recent evolution of that tense and often violent relationship from both the Russian and German perspectives Angela Stent combines interviews with key international figures including Mikhail Gorbachev with insights gleaned from newly declassified archives in East Germany and her own profound understanding of Russian German relations She presents a remarkable review of the events and trends of the past three decades the onset of détente the unification of Germany the collapse of the Soviet Union and the rise of an uncertain new European order Stent reveals the chaos and ambivalence behind the Soviet negotiating strategy that led against Gorbachev's

wishes to that old Soviet nightmare a united Germany in NATO She shows how German strength and Russian weakness have governed the delicate dance of power between recently unified Germany and newly democratized Russia Finally she lays out several scenarios for the future of Russian German relations some optimistic and others darkened by the threat of a new authoritarianism Russia and Germany Reborn is crucial reading for anyone interested in a relationship that changed the course of the twentieth century and that will have a powerful impact on the next

Endgame in NATO's Enlargement Yaroslav Bilinsky,1999-02-28 After briefly dealing with arguments for and against NATO s enlargement as far as Poland the Czech Republic and Hungary the author shows why the enlargement process must be carried forward to include in the near future the three Baltic States Estonia Latvia Lithuania and Ukraine Inclusion of the Baltic States and of Ukraine in NATO would stabilize the region by helping the Russian democrats to concentrate on building a genuinely democratic market oriented Russian national state instead of succumbing to the temptation to restore the Soviet Union Ukraine could also contribute to NATO a sizable conventional military force and a prime strategic area the Baltic States offer a prime location and an indomitable spirit The Balts and Ukraine will help NATO when finally admitted as full members Using polling data printed material and interviews with Lithuanian and Ukrainian diplomats the book convincingly shows the soundness of the Baltic and Ukrainian security goals without glossing over some difficulties both internal and external

The Russian Armed Forces at the Dawn of the Millennium ,2000 This anthology is an outgrowth of a conference titled The Russian Armed Forces at the Dawn of the Millennium held at the Collins Center of the Army War College s Center for Strategic Leadership from 7 through 9 February 2000 The genesis for the conference was the realization by several members of the staff of the Collins Center and Army War College faculty that the U S led NATO operation in Kosovo resulted in a significant shift of Russian views on the United States and NATO The conference also complemented our general objective of examining the changing environment in which the United States including its armed forces finds itself The conference brought together over 50 individuals from academia and the policy and intelligence communities to examine the current state of the Russian military Focusing primarily on the socio political dimension of the military but not ignoring the military technical dimension the presentations delivered during the conference looked at Russia s domestic environment the state of the military perceived threats and Russia s capacity to generate responses to those threats DTIC web site

Senate. Committee on Foreign Relations, 1998 Central and Eastern Europe in Transition Frank H. Columbus, 1998 Central and Eastern Europe present more than a trivial challenge to the Developed Nations of the world as well as to themselves Will they represent new markets new sources of low cost labour or populations taking every action and avenue conceivable to emigrate to the Developed Nations Will they be integrated into the Western economies and political structures or lose themselves into defensive postures and pose threats to the Developed Nations This new series is intended to present current analyses of political and economic developments and trends in this crucial part of the world **The Polish Quarterly of International Affairs** , 1998 **Building Security in Europe's New Borderlands** Renata Dwan, 2016-07-08 While European integration advances many of the countries along Europe's eastern and southern periphery have fallen prey to chronic conflict punctuated by a series of small wars Exacerbating the situation has been the lack of effective organizational means for mediating local conflicts facilitating regional development and structuring cooperation with larger regional and international institutions What are the prospects for enhancing security in the most volatile subregions of post communist Europe This text examines the external and internal factors that impede or foster subregional cooperation in South Eastern and East Central Europe and the Caucasus It includes chapters situating these borderlands in the context of a wider Europe with an evolving security architecture **A World in Disarray** Richard Haass, 2017-01-10 A valuable primer on foreign policy a primer that concerned citizens of all political persuasions not to mention the president and his advisers could benefit from reading Michiko Kakutani The New York Times An examination of a world increasingly defined by disorder and a United States unable to shape the world in its image from the president of the Council on Foreign Relations Things fall apart the center cannot hold The rules policies and institutions that have guided the world since World War II have largely run their course Respect for sovereignty alone cannot uphold order in an age defined by global challenges from terrorism and the spread of nuclear weapons to climate change and cyberspace Meanwhile great power rivalry is returning Weak states pose problems just as confounding as strong ones The United States remains the world's strongest country but American foreign policy has at times made matters worse both by what the U S has done and by what it has failed to do The Middle East is in chaos Asia is threatened by China's rise and a reckless North Korea and Europe for decades the world's most stable region is now anything but As Richard Haass explains the election of Donald Trump and the unexpected vote for Brexit signals that many in modern democracies reject important aspects of globalization including borders open to trade and immigrants In *A World in Disarray* Haass argues for an updated global operating system call it world order 2.0 that reflects the reality that power is widely distributed and that borders count for less One critical element of this adjustment will be adopting a new approach to sovereignty one that embraces its obligations and responsibilities as well as its rights and protections Haass also details how the U S should act towards China and Russia as well as in Asia Europe and the Middle East He suggests too what the country should do to address its dysfunctional politics mounting debt and the lack of agreement on the nature of its

relationship with the world A World in Disarray is a wise examination one rich in history of the current world along with how we got here and what needs doing Haass shows that the world cannot have stability or prosperity without the United States but that the United States cannot be a force for global stability and prosperity without its politicians and citizens reaching a new understanding *Where the West Ends* Michael J. Security Agenda Dmitrii Trenin, 2008 The hard security issues which are the subject of this report are embedded within the political layer but are widely discussed at the chattering level and virtually ignored down below Immediately after the end of the East West confrontation they were almost consigned to history books along with the very notion of European security only to be rediscovered several years later Actually there are two classes of security issues One represents problems between Russia and its nominal partners in North America and Europe and the other common challenges to both the West and Russia Thus the Euro Atlantic security agenda can only be complex and in some parts controversial **Memories of Europe's**

Future Simon Serfaty, 1999-02-10 *Parameters*, 1997 **U.S. Policy Toward the Korean Peninsula** Charles L. Pritchard, John H. Tilelli, Scott Snyder, 2010 This Task Force report comprehensively reviews the situation on the peninsula as well as the options for U S policy It provides a valuable ranking of U S interests and calls for a firm commitment from the Obama administration to seek denuclearization of the Korean peninsula backed by a combination of sanctions incentives and sustained political pressure in addition to increased efforts to contain proliferation It notes that China's participation in this effort is vital Indeed the report makes clear that any hope of North Korea's dismantling its nuclear program rests on China's willingness to take a strong stance For denuclearization to proceed China must acknowledge that the long term hazard of a nuclear Korea is more perilous to it and the region than the short term risk of instability The report also recognizes that robust relations between Washington and its allies in the region Japan and South Korea must underpin any efforts to deal with the North Korean problem It looks as well at regime change and scenarios that could lead to reunification of the peninsula At the same time that the Task Force emphasizes the danger and urgency of North Korea's behavior it recognizes and applauds the beneficial U S relationship with South Korea which has proved to be a valuable economic and strategic partner In this vein the Task Force advocates continued close coordination with Seoul and urges prompt congressional passage of the U S South Korea free trade agreement **US Department of State Dispatch**, 1996 Contains a diverse compilation of major speeches congressional testimony policy statements fact sheets and other foreign policy information from the State Dept
