Russia's Balkan Entanglements, 1806-1914 Barbara Jelavich, 2004-03-11 This book examines the reason for the
Russian involvement in the Balkan peninsula **Nesselrode and the Russian Rapprochement with Britain, 1836-1844**

Harold N. Ingle, 1976 Count Karl Nesselrode Russian foreign minister 1816-1856 was a controversial figure in the government of Nicholas I. The rapprochement with Britain perhaps his finest achievement was opposed at every step by Russians who regarded Britain as a rival. It was later condemned by tsarist historians as an example of the cosmopolitan diplomacy that weakened their country in competition with the Western powers. Soviet historians have followed their lead asserting that it was against national interests. But Nesselrode did avoid war in a series of dangerous confrontations in Asia and the Near East outmaneuvering opponents who wanted to meet Britain head on and he managed to extricate Russia from diplomatic isolation at the same time. Finally he advanced bipartisanship in an agreement on the Eastern Question that led to the renewal of the European concert. He was working to extend the areas of cooperation particularly by promoting freer trade and commerce when his opponents more effectively countered his influence in the mid 1840s. Jacket flap **Nicholas I and Official Nationality in Russia, 1825- 1855** Nicholas Valentine Riasanovsky, *Palmerston and Metternich's Austria, 1830-1841* Jiří Vyčichlo, 2025-03-03 This book aims to analyze the international policies of Viscount Palmerston and Prince Metternich during the years 1830-1841. The focus of this work is on the pivotal role of British diplomacy in Europe during a period marked by the outbreak of the July Revolution, the dissolution of the United Kingdom of the Netherlands, the November Uprising, significant events in the German Confederation and the Papal States as well as the civil wars in Portugal and Spain and the two Egyptian-Ottoman wars. The clash between Palmerston and Metternich stands out. Both men were at the forefront of European foreign relations and were symbols of two different political currents. This work aims to challenge the traditional view of Palmerston as a progressive statesman who defended the freedom of European liberalism and Metternich as a reactionary who opposed social modernization. The text highlights the motives behind British foreign policy which were centred on promoting national interests often at the expense of cooperation among the Great Powers in contrast to the Austrian Chancellor's efforts to foster the best possible relations within the Concert of Europe. Nicholas I and Official Nationality in Russia 1825 - 1855 Nicholas V. Riasanovsky, 2023-04-28 Nicholas I and Official Nationality in Russia 1825-1855 developed from a much more modest interest in Uvarov's doctrine of Orthodoxy, autocracy and nationality. During the author's study of the Slavophiles in particular he became increasingly aware of the paucity of our knowledge of this so-called Official Nationality frequently combined with a deprecating attitude toward it. Unable to find a satisfactory analysis of the subject the author proceeded to write his own. This book largely organized itself as an exposition and discussion of the ideology naturally occupied the central position preceded by a brief treatment of its proponents. But Official Nationality reached beyond intellectual circles: lectures and books indeed for thirty years it ruled Russia. Therefore the author found it necessary to write a chapter on the emperor who in effect personally dominated and governed the country throughout his reign to add a section on the imperial family, the ministers and some other high officials to an account of the intellectuals who supported the state and to sketch the application of Official Nationality both in home affairs and in foreign policy. In this

manner this title is able to bring the state doctrine and its role in Russian history into proper focus This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1969 Nicholas I and Official Nationality in Russia 1825 1855 developed from a much more modest interest in Uvarov s doctrine of Orthodoxy autocracy and nationality During the author s study of the Slavophiles in particular he became increasingly aware of

Imperial Russian Foreign Policy Hugh Ragsdale, V. N. Ponomarev, 1993-10-29 Imperial Russian Foreign Policy aims to demythologise a field hitherto dominated by suspicions of diabolical cunning inscrutable motives and international plots using unseen forces of the gigantic fear inspiring empire of the tsar The contributors leading historians from both Russia and the West examine Imperial foreign policy from its origins to the October Revolution revealing a policy that as in other countries had a complex of motives commerce nationalism the interests of various social groups but an unusual origin coming almost exclusively from the entourage of the tsar The work is based largely on original research in Soviet archives which only became possible after Soviet glasnost

Russia and the Making of Modern Greek Identity, 1821-1844 Lucien J. Frary, 2015-06-11 The birth of the Greek nation in 1830 was a pivotal event in modern European history and in the history of nation building in general As the first internationally recognized state to appear on the map of Europe since the French Revolution independent Greece provided a model for other national movements to emulate Throughout the process of nation formation in Greece the Russian Empire played a critical part Drawing upon a mass of previously fallow archival material most notably from Russian embassies and consulates this volume explores the role of Russia and the potent interaction of religion and politics in the making of modern Greek identity It deals particularly with the role of Eastern Orthodoxy in the transformation of the collective identity of the Greeks from the Ottoman Orthodox millet into the new Hellenic Christian imagined community Lucien J Frary provides the first comprehensive examination of Russian reactions to the establishment of the autocephalous Greek Church the earliest of its kind in the Orthodox Balkans and elucidates Russia s anger and disappointment during the Greek Constitutional Revolution of 1843 the leaders of which were Russophiles Employing Russian newspapers and thick journals of the era Frary probes responses within Russian reading circles to the reforms and revolutions taking place in the Greek kingdom More broadly the volume explores the making of Russian foreign policy during the reign of Nicholas I 1825 55 and provides a distinctively transnational perspective on the formation of modern identity

Biography of an Empire Christine M. Philliou, 2011 This vividly detailed revisionist history opens a new vista on the great Ottoman Empire in the early nineteenth century a key period often seen as the eve of Tanzimat westernizing reforms and the beginning of three distinct histories ethnic nationalism in the Balkans imperial modernization from Istanbul and European colonialism in the Middle East Christine Philliou brilliantly shines a new light on imperial crisis and change in the 1820s and 1830s by unearthing the life of one man Stephanos Vogorides 1780-1859 was part of a network of Christian elites known as Phanariots institutionally excluded from power yet intimately bound up with Ottoman governance By tracing the contours of the wide ranging networks crossing ethnic religious and institutional boundaries in which the Phanariots moved Philliou provides a unique view of Ottoman power and ultimately of the Ottoman legacies in the Middle East and Balkans today What emerges is a wide angled analysis of governance as a lived experience at a moment in which there was no clear blueprint for power
