,1918 Russian Economic Development Since the Revolution Maurice Dobb, Henry Charles Stevens, 1929 The story of the economic development of the Soviet Union provided the first case in history of the establishment of a socialist economy and was therefore of great interest for economists and economic historians of the twentieth century At the same time it affords a unique example of the transformation of a country into an industrial nation at an unprecedented pace and under the guidance of a national economic plan This book examines these changes from the Russian Revolution of 1917 to 1927 The Russian Revolution and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917-1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state **Russia**
