Catherine the Great's keen interest in landscape design. It reconstructs Grigorii Potemkin's attempts to transform the Crimea physically and symbolically into the garden of the empire. And it reveals the centrality of the garden for noblemen such as Andrei Bolotov and Alexander Kurakin who expressed their political philosophy and their anxieties about unstable social relations through landscaping. The book follows the destiny of western aesthetic categories notably of the picturesque as they are first adopted then transformed and ultimately rejected. It analyzes the historical role and mythological representations of the country estate along with Leo Tolstoy's fraught commitment to Yasnaya Polyana and his critique of estate mythology in *War and Peace*. Finally this study exposes how the current fashion for gardening in Russia in particular among New Russians alludes to imperial landscaping culture in order to justify a retreat from the public sphere.

The Secret Life of the Georgian Garden Kate Felus, 2016-12-09 Georgian landscape gardens are among the most visited and enjoyed of the UK's historical treasures. The Georgian garden has also been hailed as the greatest British contribution to European Art seen as a beautiful composition created from grass trees and water a landscape for contemplation. But scratch below the surface and history reveals these gardens were a lot less serene and in places a great deal more scandalous. Beautifully illustrated in colour and black white this book is about the daily life of the Georgian garden. It reveals its previously untold secrets from early morning rides through to evening amorous liaisons. It explains how by the eighteenth century there was a desire to escape the busy country house where privacy was at a premium and how these gardens evolved aesthetically with modestly sized far flung temples and other eye catchers to cater for escape and solitude as well as food drink music and fireworks. Its publication coincides with the 2016 tercentenary of the birth of Lancelot Capability Brown arguably Britain's greatest ever landscape gardener and the book is uniquely positioned to put Brown's work into its social context.

This research was carried out within the framework of Kazan University currently the Institute of Administration and Territorial Development of the Federal University of Kazan and the French National Institute for Agricultural Research INRA. It enabled the creation of an international research network entitled Sustainable Development of Cities the Relationship between City Dwellers and Nature. This research was developed with help from a three year research contract October 2009 September 2012 with the GESSOL programme of the French Ministry of Ecology on the theme of the use of urban and peri urban soils for the sustainable development of cities. The final report of this research contract provides the basis for the book.

Russian Architecture and the West Dmitrii Olegovich Shvidkovskii, Shvidkovsky, 2007-01-01 This is the first book to show the development of Russian architecture over the past thousand years as a part of the history of Western architecture. Dmitry Shvidkovsky Russia's leading architectural historian

departs from the accepted notion that Russian architecture developed independent of outside cultural influences and demonstrates that to the contrary the influence of the West extends back to the tenth century and continues into the present. He offers compelling assessments of all the main masterpieces of Russian architecture and frames a radically new architectural history for Russia. The book systematically analyzes Russian buildings in relation to developments in European art, pointing out where familiar European features are expressed in Russian projects. Special attention is directed toward decorations based on Byzantine models, the heritage of Italian master builders and carvers, the impact of architects and others sent by Elizabeth I, the formation of the Russian Imperial Baroque, the Enlightenment in Russian art, and 19th and 20th century European influences. With over 300 specially commissioned photographs of sites throughout Russia and western Europe, this magnificent book is both beautiful and groundbreaking.

Gardens of Grandeur Pasquale De Marco, 2025-07-17

From the imperial gardens of St Petersburg to the public parks of Moscow, from the gardens of the aristocracy to the gardens of the Russian people, Russian gardens are a reflection of the history, culture, and traditions of the Russian people. In *Gardens of Grandeur*, we take a journey through the rich history of Russian gardens from the earliest Byzantine-influenced gardens of the 10th century to the grand palaces and public parks of today. We explore the influence of Peter the Great, who introduced ideas, plants, and designers from Holland, France, and Germany to create St Petersburg's Summer Garden and the great formal garden at Peterhof by the Gulf of Finland. We also explore the introduction of the English style of landscaping, which owed much to Catherine the Great and the recruitment of British gardeners to lay out parks for the Empress and rich nobles. *Gardens of Grandeur* is a celebration of the beauty and diversity of Russian gardens. It is a journey through time and space, from the imperial gardens of the past to the modern gardens of today. It is a journey through the history and culture of the Russian people as seen through the lens of their gardens. This book is a must-read for anyone interested in Russian history, culture, or gardens. It is also a beautiful and inspiring book that will appeal to anyone who loves gardens and gardening. Gardens are a reflection of the people who create them. They are a reflection of our hopes and dreams, our fears and aspirations. They are a reflection of our culture and our history. The Europeanized Elite in Russia, 1762-1825 Andreas Schönle, Andrei Zorin, Alexei Evstratov, 2016-11-04

This illuminating volume provides a new understanding of the subjective identity and public roles of Russia's Europeanized elite between the years of 1762 and 1825. Through a series of rich case studies, the editors reconstruct the social group's worldview, complex identities, conflicting loyalties, and evolving habits. The studies explore the institutions that shaped these nobles, their attitude to state service, the changing patterns of their family life, their emotional world, religious beliefs, and sense of time. The creation of a Europeanized

elite in Russia was a state initiated project that aimed to overcome the presumed backwardness of the country The evolution of this social group in its relations to political authority provides insight into the fraught identity of a country developing on the geopolitical periphery of Europe In contrast to postcolonial studies that explore the imposition of political social and cultural structures on colonized societies this multidisciplinary volume explores the patterns of behavior and emotion that emerge from the processes of self Europeanization The Europeanized Elite in Russia 1762 1825 will appeal to scholars and general readers interested in Russian history and culture particularly in light of current political debates about globalization and widening social inequality in Europe
