J. Entwistle,... and W. A. Morison,....** William James Entwistle, Walter Angus Morison, 1964 Russian and the Slavonic Languages by W. J. Entwistle,... and W. A. Morison,.... William James Entwistle, Walter Angus Morison, 1964 Politics and the Slavic Languages Tomasz Kamusella, 2021-06-17 During the last two centuries ethnolinguistic nationalism has been the norm of nation building and state building in Central Europe The number of recognized Slavic languages in line with the normative political formula of language nation state gradually tallied with the number of the Slavic nation states especially after the breakups of Czechoslovakia the Soviet Union and Yugoslavia But in the current age of borderless cyberspace regional and minority Slavic languages are freely standardized and used even when state authorities

disapprove As a result since the turn of the 19th century the number of Slavic languages has varied widely from a single Slavic language to as many as 40 Through the story of Slavic languages this timely book illustrates that decisions on what counts as a language are neither permanent nor stable arguing that the politics of language is the politics in Central Europe The monograph will prove to be an essential resource for scholars of linguistics and politics in Central Europe **The Palgrave Handbook of Slavic Languages, Identities and Borders** Tomasz Kamusella, Motoki Nomachi, Catherine Gibson, 2016-04-29 This book analyzes the creation of languages across the Slavophone areas of the world and their deployment for political projects and identity building mainly after 1989 It offers perspectives from a number of disciplines such as sociolinguistics socio political history and language policy Languages are artefacts of culture meaning they are created by people They are often used for identity building and maintenance but in Central and Eastern Europe they became the basis of nation building and national statehood maintenance The recent split of the Serbo Croatian language in the wake of the break up of Yugoslavia amply illustrates the highly politicized role of languages in this region which is also home to most of the world's Slavic speakers This volume presents and analyzes the creation of languages across the Slavophone areas of the world and their deployment for political projects and identity building mainly after 1989 The overview concludes with a reflection on the recent rise of Slavophone speech communities in Western Europe and Israel The book brings together renowned international scholars who offer a variety of perspectives from a number of disciplines and sub fields such as sociolinguistics socio political history and language policy making this book of great interest to historians sociologists political scientists and anthropologists interested in Central and Eastern Europe and Slavic Studies *Politics and the Theory of Language in the USSR 1917-1938* Craig Brandist, Katya Chown, 2011 Politics and the Theory of Language in the USSR 1917 1938 provides ground breaking research into the relationship between linguistic theory and politics during the first two decades of the USSR This work introduces some of the era's most notable figures whose achievements have been largely overlooked in the West and provides a thought provoking discussion of the innovative approaches they developed Some of these insights still have a progressive role to play in scholarship today **Die slavischen Sprachen / The Slavic Languages. Halbband 2** Sebastian Kempgen, Peter Kosta, Tilman Berger, Karl Gutschmidt, 2014-11-26 The present second volume completes the handbook Die slavischen Sprachen The Slavic languages Ein internationales Handbuch zu ihrer Struktur ihrer Geschichte und ihrer Erforschung An International Handbook of their History their Structure and their Investigation While the general conception is continued the present volume now contains articles concerning inner and outer language history as well as problems of sociolinguistics contact linguistics standardology and language typology *The Slavic Languages* Roland Sussex, Paul Cubberley, 2006-09-21 The Slavic group of languages the fourth largest Indo European sub group is one of the major language families of the modern world With 297 million speakers Slavic comprises 13 languages split into three groups South Slavic which includes Bosnian Serbian and Croatian East Slavic which includes

Interslavic zonal constructed language Vojtěch Merunka,2018-02-01 Interslavic zonal constructed language is an auxiliary language which looks very similar to real spoken Slavic languages in Central and Eastern Europe and continues the tradition of the Old Church Slavonic language Interslavic shares grammar and common vocabulary with modern spoken Slavic languages in order to build a universal language tool that Slavic people can understand without any or with very minimal prior learning It is an easily learned language for those who want to use this language actively Interslavic enables passive e g receptive understanding of the real Slavic languages Non Slavic people can use Interslavic as the door to the big Slavic world Zonal constructed languages are constructed languages made to facilitate communication between speakers of a certain group of closely related languages They belong to the international auxiliary languages but unlike languages like Esperanto and Volap k they are not intended to serve for the whole world but merely for a limited linguistic or geographic area where they take advantage of the fact that the people of this zone understand these languages without having to learn them in a difficult way Zonal languages include the ancient Sanskrit Old Church Slavonic and Lingua Franca Zonal design can be partially found also in modern languages such as contemporary Hebrew Indonesian and Swahili
