

Russian Enigma

Yuri Glazov

Russian Enigma:

The Russian Enigma (sound Recording) Clive Egleton, 1985 Double agents defectors and deceit lead the head of the British SIS through a maze of CIA and KGB plot and counterplot to an unsavory meeting in Washington D C *The Russian Enigma* Anton Ciliga, 1973 **Russian Enigma** Clive Egleton, 2002 The Russian Horizon N. Gangulee, 2021-06-15 This book first published in 1943 is a literary anthology purposefully presenting a picture of the Soviet Union to a new audience in the West It collects together a rich variety of pre revolutionary Russian literature as well as a host of Soviet literature Together they reveal the dynamic character of Russian literature and provide a useful contrast between the two styles of pre and post revolutionary writings **The Russian Enigma**, 1943 Deciphering Russian Enigma Ofer Fridman, Vera Michlin-Shapir, 2024-06-11 This book is about Russia Yet this book is not about Russia per se To those whose sole interest is a better understanding of the Kremlin s decision making and how it shapes Russia s present and future we would refer to a rather long list of sources that we dutifully noted throughout the book Instead based on our expertise in Russian studies and the challenges that we experienced in the past 2 years this book aims to offer a methodology to address questions when there is no right or wrong answer due to lacking reliable information Any attempt to answer this sort of questions using the commonly accepted deductive approach based on scientific methods is bound to fail because of the very nature of these questions Therefore using Russia as a case study this book aims to advance a way of analysing however limited biased and uncertain available information to advance a more critical understanding of the subject in question by using the methodology of dialectic inquiry **The Russian Secret Police** Ronald Hingley, 2021-05-30 This book first published in 1970 is an important study of Russia s security services from their earliest years to the mid twentieth century Ronald Hingley demonstrates how the secret police acted both under the Tsars and under Soviet rule as a key instrument of control exercised over all fields of Russian life by an outstandingly authoritarian state He analyses the Tsarist Third Section and Okhrana and their role in countering Russian revolutionary groups and examines the Soviet agencies as they assumed the roles of policeman judge and executioner This masterly evaluation of Russian and Soviet secret police makes extensive use of hard to find Russian documentary sources and is the first such research that studies Russian political security Muscovite Imperial and Soviet as a whole The Russian Enigma Ante Ciliga, 1940 **The Russian Mind Since Stalin's Death** Yuri Glazov, 2012-12-06 I have been working on this book since leaving Russia in April of 1972 It was my wish to write this book in English and there were what seemed to me to be serious reasons for doing so In recent years there has appeared a wealth of literature in Russian about Russia As a rule this literature has been published outside the USSR by authors who still live in the Soviet Union or who have only recently left it A fair amount of important literature is being translated into English but I believe it will be read main ly by specialists in Russian studies or by those who have a great interest in the subject already The majority of Russian authors write of course for the Russian reader or for an imagined Western public It is my feeling that

Russian authors have serious difficulties in understanding the mentality of Westerners and that there still exists a gap between the visions of Russians and non Russians I have made my humble attempt to bridge this gap and I will be happy if I am even partly successful The Russian world is indeed fascinating Many people who visit Russia for a few days or weeks find it a country full of historical charm fantastic architecture and infinite mystery For many inside the country especially for those in conflict with the Soviet authorities

The Russian Path Dmitry Gel'man, Vladimir Marganiya, Otar

Travin, 2020-10-20 The politico economic reforms launched during the late twentieth century in post Soviet Russia have led to contradictory and ambiguous results The new economic environment and mode of governance that emerged have been subjected to serious criticism What were the causes of these developments Were they unavoidable for Russia due to specific factors grounded in the country's previous experiences Or were they an intended result of actions taken by the leaders of the country during the last few decades The authors of this book share neither a deterministic approach which implies that Russia is bound to fail because of the nature of its economic and political evolution nor a voluntarist approach which implies that these failures were caused only by the incompetence and or malicious intentions of its leaders Instead this study offers a different framework for the analysis of political and economic developments in present day Russia It is based on four ideas interests institutions and illusions

The Russian Enigma William Henry Chamberlin, 1943

Russian Culture Margaret

Mead, John Rickman, 2001 This volume brings together two classic works on the culture of the Russian people which have been long out of print Gorer's *Great Russian Culture* and Mead's *Soviet Attitudes towards Authority An Interdisciplinary Approach to Problems of Soviet Character* were among the first attempts by anthropologists to analyze Russian society They were influential both for several generations of anthropologists and in shaping American governmental attitudes toward the Soviet Union during the Cold War period Additionally they offer fascinating insights into the early anthropological use of psychological data to analyze cultural patterns Read as part of the history of the anthropology of complex contemporary societies they are as fascinating for their more questionable conclusions as for their accurate characterizations of Russian life

Russian Exceptionalism between East and West Kevork Oskanian, 2021-06-22 This monograph provides a novel long term approach to the role of Russia's imperial legacies in its interactions with the former Soviet space It develops Hybrid Exceptionalism as a critical conceptual tool aimed at uncovering the great power's self positioning between East and West and its hierarchical claims over subalterns situated in both civilizational imaginaries It explores how in the Tsarist Soviet and contemporary eras distinct civilizational spaces were created and maintained through narratives and practices emanating from Russia's ambiguous relationship with Western modernity and its partial identification with a subordinated Orient The Romanov Empire's struggles with Russianness the USSR's Marxism Leninism and contemporary Russia's combination of feigned liberal and civilizational discourses are explored as the basis of a series of successive civilising missions through an interdisciplinary engagement with official discourses scholarship and the arts The book concludes with an exploration of

contemporary policy implications for the West and the former Soviet states themselves **American Opinion and the Russian Alliance, 1939-1945** Ralph B. Levering, 2017-10-10 In this analysis of the years of greatest American friendship with the Soviet Union Levering comes to two conclusions First cosmopolitan educated Americans of all classes were much more likely to change their negative attitudes of 1939 to positive ones by 1943 than were the provincial and poorly educated Second governmental leaders and the media whether conservative or liberal did not prepare the public for the probable realities of postwar international politics Originally published in 1976 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *Our Russian Ally* American Historical Association. Historical Service Board, 1945 *Russian-European Relations in the Balkans and Black Sea Region* Vsevolod Samokhvalov, 2017-06-19 This book provides a detailed analysis of Russia's great power identity and the role of Europe in forming this identity Great power identity implies an expansionist foreign policy and yet this does not explain all the complexities of the Russian state For instance it cannot explain why Russia decided to take over Crimea but provided only limited support to break away regions in Eastern Ukraine Moreover if Russia is in geo economic competition with Europe why has no serious conflict erupted between Moscow and other post Soviet states which developed closer ties with the EU Finally why does Putin maintain relationships with the European countries that imposed tough economic sanctions on Russia Vsevolod Samokhvalov provides a more nuanced understanding of Russia's great power identity by drawing on his experience in regional diplomacy and research and applying a constructivist methodology The book will appeal to students and scholars of international relations in particular Russian European relations Russian foreign policy and Russian studies **Adventures in Russian Historical Research** Samuel H. Baron, Cathy Frierson, 2015-04-08 American historians of Russia have always been an intrepid lot Their research trips were spent not in Cambridge or Paris Rome or Berlin but in Soviet dormitories with official monitors They were seeking access to a historical record that was purposefully shrouded in secrecy boxed up and locked away in closed archives Their efforts indeed their curiosity itself sometimes raised suspicion at home as well as in a Soviet Union that did not want to be known even while it felt misunderstood This lively volume brings together the reflections of twenty leading specialists on Russian history representing four generations They relate their experiences as historians and researchers in Russia from the first academic exchanges in the 1950s through the Cold War years detente glasnost and the first post Soviet decade Their often moving acutely observed stories of Russian academic life record dramatic change both in the historical profession and in the society that they have devoted their careers to understanding **Moscow Performances** John Freedman, 2005-08-04 The reviews and features collected in John Freedman's *Moscow Performances* bring to life the diversity energy and imagination of Russian theater as few books have done before While focusing on the

work of Moscow's leading directors Pyotr Fomenko, Kama Ginkas, Valery Fokin, Anatoly Vasilyev, Konstantin Raikin, Sergei Zhenovach, Yury Lyubimov and many others also included in its review are key productions by many of the renowned guests who bring their art to the Russian capital. Essays on St Petersburg's Lev Dodin of the Maly Drama Theatre, Lithuania's Eimuntas Nekrosius, Georgia's Robert Sturua and Germany's Peter Stein confirm that Moscow's position as a theatrical mecca has not diminished since Anatoly Lunacharsky coined the phrase in the 1920s. In addition to recording Freedman's immediate and opinionated responses to Moscow stage developments in the 1990s, *Moscow Performances* contains a wealth of information about the struggles and occasional triumphs of a new generation of talented but as yet unknown playwrights, the successes of the best actors and the social and financial trends which have had such an impact on Russian theatre in the post-Soviet period.

The Puzzle of a New Europe Pasquale De Marco, 2025-05-18 In a world transformed by globalization and geopolitical shifts, Europe stands at a crossroads poised for a new chapter in its long and storied history. This book delves into the intricate complexities of a changing Europe, exploring the challenges and opportunities that lie ahead. With incisive analysis and thought-provoking insights, the book examines the evolving nature of European integration, the quest for stability in the Eurozone and the enigmatic role of Russia in shaping the continent's destiny. It delves into the evolving security landscape, the complexities of migration and the imperative for sustainable development. Through a comprehensive examination of Europe's political, economic and social fabric, the book provides a roadmap for understanding the forces that are shaping the continent's future. It offers a vision of a Europe that is prosperous, secure and united, while also acknowledging the obstacles that must be overcome to achieve this goal. Written with clarity and erudition, this book is an essential guide for anyone seeking to understand the complexities of modern Europe. It is a timely and thought-provoking exploration of a continent in transition, offering valuable insights for policymakers, scholars and general readers alike. This book is a must-read for anyone interested in the future of Europe and its role in the global arena. It provides a comprehensive analysis of the challenges and opportunities facing the continent and offers a vision for a more prosperous, secure and united Europe. If you like this book, write a review on Google Books.
