Asia Seymour Becker, 2004-08-02 This book examines the Russian conquest of the ancient Central Asian khanates of Bukhara and Khiva in the 1860s and 1870s and the relationship between Russia and the territories until their extinction as political entities in 1924 It shows how Russia's approach developed from one of non intervention with the primary aim of preventing British expansion from India into the region to one of increasing intervention as trade and Russian settlement grew It goes on to discuss the role of Bukhara and Khiva in the First World War and the Russian Revolution and how the region was fundamentally changed following the Bolshevik conquest in 1919-20 The book is a re issue of a highly regarded classic originally published in 1968 and out of print for some years The new version includes a new introduction some corrections of errors and a survey of new work undertaken since first publication Empires and Indigenes Wayne Lee, 2011 The early modern period c 1500-1800 of world history is characterized by the establishment and aggressive expansion of European empires and warfare between imperial powers and indigenous peoples was a central component of the quest for global dominance From the Portuguese in Africa to the Russians and Ottomans in Central Asia empire builders could not avoid military interactions with native populations and many discovered that imperial expansion was impossible without the

cooperation and in some cases alliances with the natives they encountered in the new worlds they sought to rule Empires and Indigenes is a sweeping examination of how intercultural interactions between Europeans and indigenous people influenced military choices and strategic action Ranging from the Muscovites on the western steppe to the French and English in North America it analyzes how diplomatic and military systems were designed to accommodate the demands and expectations of local peoples who aided the imperial powers even as they often became subordinated to them Contributors take on the analytical problem from a variety of levels from the detailed case studies of the different ways indigenous peoples could be employed to more comprehensive syntheses and theoretical examinations of diplomatic processes ethnic soldier mobilization and the interaction of culture and military technology Warfare and Culture series Contributors Virginia Aksan David R Jones Marjoleine Kars Wayne E Lee Mark Meuwese Douglas M Peers Geoffrey Plank Jenny Hale Pulsipher and John K Thornton

of Moscow Ivan the Terrible was formally proclaimed tsar emperor yet in reality the title had long been in use Professor Vodoff s concern in these articles has been to uncover the significance of such usages as part of the political vocabulary of medieval Russia and to reveal the ideology behind them The period covered extends from Kievan times when the titlature reflects the close relationship and rivalry with the Byzantine empire but the main focus is on the later period when the different princes competed for the heritage of the Kievan state and the notion of Russia itself became part of the political conflict This struggle was won by the rulers of Moscow though only in the face of determined opposition from the

Imperial Rivals Sarah C.M. Paine,2023-05-31 Based on archival research this is a history of the Russo Chinese border which examines Russia s expansion into the Asian heartland during the decades of Chinese decline and the 20th century paradox of Russia s inability to sustain political and economic sway over its domains The Great Powers and the End of the Ottoman Empire Marian Kent,2005-07-27 How far was the end of the Ottoman Empire the result of Great Power imperialism and how far the result of structural weaknesses within the Empire itself These studies of the foreign policy of each of the

Great Powers and the Ottoman Empire examine these fundamental issues **On the Religious Frontier** Firouzeh Mostashari, 2017-05-30 Modern Russia's turbulent relations with its Muslim frontiers date back centuries. Indeed, the nineteenth century, when the Muslim Caucasus first came under Russian rule, witnessed many of the historical antecedents to today's violent confrontations. With this in mind, *On The Religious Frontier* examines the history of Muslim Azerbaijan under Christian Orthodox Russian imperial rule and the attempts of the Russian administrators of the Caucasus to integrate the region into the empire. Drawing on original archival research from across Azerbaijan and Russia, Firouzeh Mostashari considers the formation of a Russian colonial administration in the Muslim Caucasus, subsequent social, political, and economic developments, and the local responses to conquest, military rule, and Russification. From 1804 to the Bolshevik Revolution of 1917, *On The Religious Frontier* offers a fascinating and timely insight into both the period itself and the ways in which the seeds of recent conflict were sown in tsarist Russia. This is important reading for all scholars of the history and politics of the Caucasus, as well as those with an interest in imperial Russia and its relationship with minority groups.

Honoring Differences Kathleen Nader, Nancy Dubrow, B. Hudnall Stamm, 2013-06-17 Wars, violence, and natural disasters often require mental health interventions with people from a multitude of ethnic groups, religions, and nationalities. Within the United States, those who care for the victims of trauma often assist individuals from a variety of immigrant cultures. Moreover, many aspiring mental health professionals from other countries seek training in the United States, creating an additional need for a broad cultural awareness within educational institutions. *Honoring Differences* deals with the treatment of trauma and loss while recognizing and understanding the cultural context in which the mental health professional provides assistance. Training in the cultural beliefs that may interact with traumatic reactions is essential both to assess traumatic response accurately and to prevent harm in the process of assessing and treating trauma. Various cultures within the United States and several international communities are featured in the book. Each culturally specific chapter aims to help the caregiver honor the valued traditions, main qualities, and held beliefs of the culture described and prepare to enter the community well informed and well equipped to intervene or consult effectively. Furthermore, the book provides information about issues, traditions, and characteristics of the culture which are essential in moving through the phases of post-trauma or other mental health intervention. Mental health professionals, trauma specialists, missionaries, and organizations that send consultants to other nations will find *Honoring Differences* essential reading. It will also be a resource to those who are interested in cultural differences and in honoring the belief systems of other cultures and nations. **Railways and the**

Russo-Japanese War Felix Patrikeeff, Harry Shukman, 2007-02-06 This book explores the nexus between railways and the Russo-Japanese War, 1904-05, the first modern war and one in which the railways played a key part. Felix Patrikeeff and Harry Shukman examine some of the key dimensions of the Russo-Japanese War, most notably how uncomfortably technological and human dimensions of Russia's war effort interleaved in the course of the conflict. They demonstrate how advantages that

might have been built upon were squandered blunt traditional forms and habits were applied in politically tortuous contexts and technological edge negated by the internal turmoil of a country unable to tame a process of modernization Illustrating the vital role railways played in the Russo Japanese War generally considered to be the first modern technological conflict and a precursor to the First World War Railways and the Russo Japanese War will appeal to students of the Russo Japanese War Russian history military history and international history in general Orientalism and Empire Austin Jersild,2002 Orientalism and Empire sheds new light on the little studied Russian empire in the Caucasus by exploring the tension between national and imperial identities on the Russian frontier Austin Jersild contributes to the growing literature on Russian orientalism and the Russian encounter with Islam and reminds us of the imperial background and its contribution to the formation of the twentieth century ethno territorial Soviet state Orientalism and Empire describes the efforts of imperial integration and incorporation that emerged in the wake of the long war Jersild discusses religion ethnicity archaeology transcription of languages customary law and the fate of Shamil to illustrate the work of empire builders and the emerging imperial imagination Drawing on both Russian and Georgian materials from Tbilisi he shows how shared cultural concerns between Russians and Georgians were especially important to the formation of the empire in the region
