Tishler, 2000 Generously illustrated this collection profiles the bold innovators in turn of the century landscape architecture who developed a new style of design celebrating the native midwestern landscape     **Garden Architecture and Landscape Gardening, Etc** John Arthur HUGHES (Writer on Landscape Gardening.), 1866     **Keith's Magazine on Home Building** , 1904     *The Idea of the Cottage in English Architecture, 1760 - 1860* Daniel Maudlin, 2015-07-24 The Idea of the Cottage in English Architecture is a history of the late Georgian phenomenon of the architect designed cottage and the architectural discourse that articulated it It is a study of small buildings built on country estates and not so small buildings built in picturesque rural settings resort towns and suburban developments At the heart of the English idea of the cottage is the Classical notion of retreat from the city to the countryside This idea was adopted and adapted by the Augustan infused culture of eighteenth century England where it gained popularity with writers artists architects and their wealthy patrons who from the later eighteenth century commissioned retreats gate lodges estate workers housing and seaside villas designed to appear as cottages The enthusiasm for cottages within polite society did not last By the mid nineteenth century cottage related building and book publishing had slowed and the idea of the cottage itself was eventually lost beneath the Tudor barge boards and decorative chimneystacks of the Historic Revival And yet while both designer and consumer have changed over time the idea of the cottage as the ideal rural retreat continues to resonate through English architecture and English culture     Follies in America Kerry Dean Carso, 2021-08-15 Follies in America examines historicized garden buildings known as follies from the nation s founding

through the American centennial celebration in 1876 In a period of increasing nationalism follies such as temples summerhouses towers and ruins brought a range of European architectural styles to the United States By imprinting the land with symbols of European culture landscape gardeners brought their idea of civilization to the American wilderness Kerry Dean Carso s interdisciplinary approach in *Follies in America* examines both buildings and their counterparts in literature and art demonstrating that follies provide a window into major themes in nineteenth century American culture including tensions between Jeffersonian agrarianism and urban life the ascendancy of middle class tourism and gentility and social class aspirations     Herb Garden Design Faith H. Swanson, Virginia B. Rady, 1984 A unique and handsome book for novice and professional gardeners The plans with full commentary and plant lists offer a wide range of designs easily adapted to one s own needs     *A Little Garden the Year Round* Gardner Callahan Teall, 1919     **Architecture in the United States, 1800-1850** William Barksdale Maynard, 2002-01-01 This study traces the development of American architecture from the age of Jefferson to the antebellum era providing a survey of this important period W Barksdale Maynard overturns the long accepted notions that the chief theme of early 19th century American architecture was a patriotic desire to escape from European influence and that competing styles chiefly reflected the American struggle for cultural uniqueness Instead deep and consistent aesthetic ties especially with England shaped American architecture and house designs Maynard shows that the Greek Revival in particular was an international phenomenon with American achievements inspired by British example and with taste taking precedence over patriotism     *The House: A Pocket Manual of Rural Architecture* Daniel Harrison Jacques, 2023-04-17 Reprint of the original first published in 1859 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost     *The Garden* , 1873     The Memory of Architecture in Edith Wharton's Travel Writings Ágnes Zsófia Kovács, 2024-09-13 Edith Wharton was not only the author of novels and short stories but also of drama poetry autobiography interior decoration and travel writing This study focuses on Wharton s symbolic representations of architecture in her travel writings It shows how a network of allusions to travel writing and art history books influenced Wharton s representations of architectural and natural spaces The book demonstrates Wharton s complex relationship to works of art historians John Ruskin mile M le Arthur C Porter and travel authors Wolfgang Goethe Henry Adams Henry James in the trajectory of her travel writing Kov cs surveys how the acknowledgment of Wharton s sources sheds light both on the author s model of aesthetic understanding and scenic architectural descriptions and how the shock of the Great War changed Wharton s travel destinations but not her symbolic view of architecture as a mediator of things past Wharton s symbolic representations of architecture provide a new key to her travel writings     **The Annals of Horticulture; and Yearbook of Information on Practical Gardening** , 1849     Garden Design in Theory and Practice Madeline Agar, 1911     **Milton Architecture** Anthony Mitchell Sammarco, Paul Buchanan, 2000 Architecture is defined as

the design of structures for various uses but the passion of the designers and builders makes it much more than that Milton Architecture shows the unique views of the town's style from its earliest days Known as Unquety by the Neponset Tribe of Indians Milton was founded in 1640 and was incorporated in 1662 During the town's first century the architecture was post Medieval or First Period construction Describing the town in 1839 for his Historical Collections of Every Town in Massachusetts John Warner Barber said Milton is adorned with some pleasant country seats and contains at the two falls Lower Mills and Mattapan and at the bridge where the Neponset meets the tide manufactories of cotton paper Today Milton's architecture is represented by a wide spectrum of styles from the earliest houses in town the Capen House c 1655 and the Tucker House c 1670 to the Daniel Vose House known today as the Suffolk Resolves House and the Isaiah Rogers designed Captain Robert Bennet Forbes House Each of the architectural styles is the reflection of an architect's or a builder's idea of adaptations of period designs Greek Revival Gothic Revival and numerous Victorian styles are just a few that can be viewed in Milton Architecture
