Spens,2018-12-29 This book explores how terrorists have been portrayed in the Western media and the wider ideological and social functions of those representations Developing a theory of scapegoating related to narrative closure as well as an integrated genealogical method of intervisuality the book proposes a new way of thinking about how political images achieve power and influence the public By connecting modern portrayals of terrorists post 9 11 with historical and fictional images of villains from Western cultural history the book argues that the portrayal and punishment of terrorists in the Western media implicitly perpetuates neo Orientalist attitudes It also explains that by repeating these narrative patterns through a ritual of scapegoating Western media coverage of terrorists partakes in a social process that uses punishment dehumanization and colonialist ideas to purge the iconic villain so as to build national unity and sustain hegemonic power following crisis **The Politics of Left-Wing Violence in Italy, 1969-85** David Moss,1989-10-03 This is an account of the nature and parabola of
